| 20 Rufous Cr. | 47 Blue and white Cr. | F Var. |
| A Var. | 48 Black and white Cr. | G Var. |
| 21 Magpie | 49 Hottentot Cr. | |

IN the Crow Genus the bill is strong, the upper mandible a little convex, the edges cultrated, and in most of the species a small notch near the tip.

Nostrils covered with bristles reflected over them.

Tongue divided at the end.*

* Except in the Black-faced Species, and perhaps one or two others.
