## OUTLYING ROADS TO BE REPAIRED

Commissioner Harris to Be  
Given a Free Hand to Spend  
Money in Suburban  
Districts.

### PAVING BLOCK SAMPLES

Some of Those Intended For  
Use by the City Were  
Not Up to the  
Standard.

A question of encroachment bring-  
ing with difficulties, came before the  
board of works at the city hall yester-  
day for decision, and should the  
city eventually decide to force the prop-  
erty back, it will be compelled to fol-  
low up the precedent by forcing back  
all street encroachments now existing  
in the city.

The difficulty arose out of the  
choice of two stakings being made on  
the property by W. G. McKendrick  
on Roxboro street east when in course  
of construction.

Now that the city has decided to  
win the street from 40 to 86 feet, it  
is hard to decide whether the city  
should force Mr. McKendrick to put  
back the sidewalk or take the extra  
land required from Arthur Bolland. It  
was decided to have a report from  
Works Commissioner Harris and As-  
sessment Commissioner Forman.

The city contemplates employing an  
official to take care of encroachments  
and advise the city where they exist.

He will also look after building sur-  
veys.

Ald. Sam. McBride made a fight for  
his motion to spend \$25,000 for a suf-  
ficient sum to improve the many bad  
roads leading from the city, especially  
in the northwesterly districts.

The board of control was requested  
to report on the matter. The con-  
trollers asked Commissioner Harris to  
report as to what roads wanted re-  
pairing. This roused the alderman's  
ire. He said the winter would  
set in before the commission could  
get to work. He claimed that Com-  
missioner Harris should have an ab-  
solutely free hand as ordered by coun-  
cil, but the board was going to re-  
strict him to making a report and  
then waste time.

"You have asked for a large ex-  
penditure and we should have some  
information as to how it is going to  
be spent," declared Controller Foster.

The council passed upon giving the  
commissioner a free hand, and you  
have got no right to hold him back,"  
put in the alderman. "The board  
should pass on the fund right away.  
What right has the board to say what  
street shall be improved when they  
all want attending to?"

The board decided to report funds  
forthwith and give the commissioner  
a free hand.

Aldermen Hilton, Sanderson and  
Robbins have made an explanation of  
their actions last Tuesday when the  
adjourned council meeting was  
brought to a close thru lack of a pro-  
per quorum with the result that an  
important bylaw affecting assessment  
reform was thrown out.

They state that they had called a  
meeting at the east end, thinking the  
meeting would not continue later than  
8 o'clock.

At 8 o'clock the aldermen were in-  
formed by telephone that the electors  
were waiting for them in the hall  
rented for the occasion, and they had  
left earlier in the evening. The three  
aldermen emphatically state that they  
would not have left council had they  
known the bylaw was going to be re-  
introduced. It had been previously  
defeated on a vote of 8 to 3 by Dr.  
troller Church's move for the council

to go back into committee of the whole  
and reconsider the question was un-  
known to them.

Paving Blocks.

No. 1 committee room at the city  
hall looked like a veritable museum  
for paving blocks as a result of Ald.  
Teomans bringing to the board of  
works a sample of the block paving  
being laid on Sherbourne street, which  
had the appearance of being just dip-  
ped in preservative instead of receiv-  
ing proper treatment.

Commissioner of Works Harris im-  
mediately sent to his office for three  
sacks of chips and portions of blocks  
being used on the same street, which  
he explained were fair samples of  
what were being used.

"Sharp practice," was the accusa-  
tion of the commissioner, who stated  
that the firms who had offered to sup-  
ply cheap blocks, have endeavored to  
sell the city blocks not up to the stan-  
dard measurement.

The city will probably purchase the  
blocks and install its own preserving  
plant.

Commissioner Harris is not prepar-  
ed to construct stables, etc., at the ex-  
hibition, as he states such work is for-  
eign to the department. He is quite  
willing to handle the roadway and  
sewerage systems. "If council insists  
that we do this stable work," he de-  
clares, "it simply means that the in-  
stallation of work of the department will  
suffer."

The commissioner wants \$25,000 to  
cover the civic snow cleaning busi-  
ness. He says that the rise of \$2.10  
per block given the carriers last year  
amounted to \$13,000 for the period be-  
tween May and December 31. There  
is also an existing deficit of \$10,000  
over a previous appropriation. This  
reduces the sum actually required to  
\$5000.

### YORK PIONEERS.

The regular monthly meeting of this  
society for the transaction of business  
will be held in their room, 191 College  
street, on Tuesday, Dec. 3, at 8 o'clock  
sharp. An interesting paper will be  
read by Dr. William Harrison of Rich-  
mond Hill.

## SERIOUS CHARGES MADE BY TRUSTEE

Allegation That Contractors  
Made Up For Low Tenders  
By Doing Unsatisfactory  
Work.

Trustee Ellis made the charge at the  
property committee of the board of  
education yesterday that some of the  
contracts made up for putting in low  
tenders by unsatisfactory work. He  
agreed to furnish the chairman of the  
committee with information.

Chairman Hodgson said that they  
had to depend on the certificates of  
their building inspectors.

Tenders for the new Keele street  
school, aggregating \$55,000, were ad-  
epted by the property committee yester-  
day afternoon, also for the Pauline  
avenue school, amounting to \$15,343;  
addition to the Malvern High School,  
\$7064, and improvements to Western  
avenue school, \$615.

A Dear Park deputization was given  
assurance that sewer connections re-  
quired would be constructed early in  
the new year.

### A Superb Christmas Box

A copy of the New Illuminated  
Bible, bound in limp leather, with  
overlapping edges and gold letter-  
ing, would make a suitable Christ-  
mas gift. Clip the certificate today,  
as the World's distribution of these  
Bibles will be discontinued after  
today.

### C. P. R. TURNS TO MINING.

HANNA, Alta., Nov. 28.—(Can.  
Press.)—It is reported that the C.P.  
R. have purchased the Oscar Mines,  
south of here, for the sum of \$150,000.

## HIRED MAN'S PAY MUST BE RAISED

Immigration Agents Talk Can-  
didly to Waterloo Farmers  
on Reasons For Labor  
Dearth.

GALT, Nov. 28.—(Special.)—In vi-  
gorous addresses before the Waterloo  
County Board of Agriculture, Mayor  
McGillivray, representing the Salva-  
tion Army immigration work, and J.  
M. Clark, superintendent of the Do-  
minion immigration department, united  
in plainly telling a large gathering  
of farmers of one of the notable agri-  
cultural sections in Canada, the causes  
of the shortage of farm help.

The keynote of the speeches was  
"The laborer is worthy of his hire."  
"The laborer in this province  
would never be solved until better  
wages were paid and conditions made  
reasonable for the newcomer."

As a man improved, so should his  
wages increase. Everlasting work  
from daybreak to sunset was the cause  
for a good deal of the difficulty, in  
many farming communities there was  
lack of house accommodation for help.

The demand for labor was greater to-  
day than ever before, and while justice  
was due to the farmer, justice was also  
due to the men. From experience the  
success of the farm laborer is due to  
his first employer.

Wages in Toronto.

Three thousand odd country laborers  
had been placed in Ontario this  
year, or 2000 short of the demand.  
Security of farm help existed in the  
old land, and other countries besides  
Canada were seeking such labor. Said  
Mr. Clark: "Here is a question I  
would like you farmers to solve in  
your farmer's clubs. If seven years  
ago unskilled labor received \$1.50 a  
day in Toronto, four years ago the  
same labor \$1.75, and today \$2.25, how  
are you going to compete with this?  
The ambition of the farmers should be  
to try to keep the men on the farm  
and not let them get into town to  
work. One thing is necessary, fair the  
farmer to make these men valuable to  
them and that is kind treatment."

The Galt Board of Trade have de-  
cided practically to handle the propo-  
sition to assist families in the old  
country to join husbands who have  
become residents of Galt. Several  
men who have been here six months to  
two years, and are satisfied with the  
conditions, are not able to get ne-  
cessary funds to bring out their fam-  
ilies of six or eight persons. A special  
committee has been appointed to look  
into the question and take action as a  
direct result of the meeting of the  
board of trade, when an address on the  
subject was delivered by Mr. Southern,  
immigration agent of the Canadian  
Northern Railway.

## LIBERAL SENATOR FOR PROTECTION

Wisdom Has Come With Age  
to Senator McMullen of  
Mount Forest—Address  
Is Adopted.

OTTAWA, Nov. 28.—(Can. Press.)—  
The debate on the address was closed  
today in the senate, which is now  
ready to receive the naval bill or any  
business which may be brought before  
it. The address was adopted.

A resolution was adopted declaring  
vacant the seat of Senator Sullivan  
(Conservative) of Kingston, who has  
failed to give his attendance in the  
senate during two consecutive ses-  
sions.

Senator McMullen (Liberal) Mount  
Forest, Ont., resuming the debate upon  
the address, said he would not have  
spoken but for a senator's intimation  
that Canada would do well to join her  
fortunes with those of the United  
States.

Senator McMullen said he thought  
that there was not now a single man  
in Canada who held such views. In  
the past this view was held by an or-  
ganization known as the Fenians.  
However, that organization had disap-  
peared to the great comfort of every-  
one.

Discussing the trade reference in the  
speech, Senator McMullen said: "It  
was at one time opposed to a protec-  
tive tariff, but as we grow older we  
grow wiser. I have come to the con-  
clusion that there is no tariff under  
which our country may grow and four-  
ish and all classes of people benefit as  
much as under a well considered and  
prudently managed protective tariff."

Senator McMullen objected to in-  
creasing the membership of the senate,  
and passing to redistribution, said:  
"What really should be done was to  
reduce the membership of each cham-  
ber. Canada was greatly over-represented  
in the two chambers of Canada.  
Congress cast each American only five  
cents per year, which he com-  
pared with the four to Canadians. He  
favored highway improvements, and  
thought the senate's amendments to  
the government highway bill last ses-  
sion had been wise and proper."

The debate was closed by the adop-  
tion of the address.

The senate adjourned until Tuesday.

REPUBLICAN SENATOR IN MARY-  
LAND.

BALTIMORE, Md., Nov. 28.—(Can.  
Press.)—Gov. Goddard tonight an-  
nounced the appointment of William  
H. Jackson, Republican national com-  
missioner for Maryland, to succeed  
the late U. S. Senator Isidor Rayner,  
a Democrat.

## DR. REID, WINNIPEG, ACCUSED OF FRAUD

Medico Is Said to Have Cleaned  
Up About Five Thousand Which  
He Collected For Hospitals.

WINNIPEG, Nov. 28.—(Can. Press.)  
Acting on a warrant sworn out this  
morning by J. Howard T. Fink, sec-  
retary of the Associated Charities, de-  
tectives arrested Dr. J. T. Reid on the  
charge of obtaining money under false  
pretences. It is said that the amount  
involved will be in the neighborhood of  
\$5,000 and the swindle extends over a  
period of six or seven years. Reid is  
said to have represented himself to be  
an accredited agent for collecting mon-  
ey for cottage hospitals, which are  
branches of the Lady Minto Cottage  
Association, itself a branch of the  
Royal Victorian Order of Nurses.

The sooner you begin  
to smoke

**Marlborough**  
the more satisfaction  
and pleasure you'll have

You can't know the real pleasure of cigar smoking till you've had a  
heart-to-heart session with a MARLBOROUGH because nothing but  
pure Cuban grown Havana leaf goes into this cigar; and this is se-  
asoned by our old-fashioned method of slow, natural seasoning. In this  
way all its fine flavor is retained, with no trace of over-strength. We do not permit  
hasty artificial sweating or flavoring. Our method of aging and maturing the  
leaf is rare in these days. You get a mellowness in MARLBOROUGH that can be  
had only by this slow seasoning method. All harshness has left the leaf, and the  
flavor stands out smooth and sweet. If you have never smoked a MARLBOR-  
OUGH, a real pleasure is waiting you. Don't let any dealer give you the "just as  
good," the kind that produces mental fog and dizzy feelings, and is tasteless and  
flavorless. MARLBOROUGH has put a new slant on value given to cigar smok-  
ers. Smoke one a day, or as many as you like. You won't experience the slightest  
irritation. And for taste, flavor and even burning qualities MARLBOROUGH cer-  
tainly has all those ten-cent populars whipped to a custard.
