## THE GRIST FROM HAMILTON.

Association of Stationary Engineers  
Continue Their Convention.

The Annual Report Read by the  
Secretary-Delegates Enjoy Trip  
on the Lake-Roy Wilcox Drowned  
Off Winona-An Alabama Colored  
Man in Trouble-Other Notes.

Hamilton, Aug. 9.—(Special.)—The convention of the Canadian Association of Stationary Engineers was continued this morning. The secretary, Mr. J. G. Robertson of Montreal, read his annual report. During the year two associations, Stratford and Wilton, which had gone out of existence, were reorganized and are now in a prosperous condition. The total receipts of the association for the year were \$350.00, and the balance now in the treasury is \$200.00. A discussion on the hand book issued by the association ensued, and a motion to reduce the per capita tax from 70 cents to 25 cents was defeated. The reports of the treasurer and the auditors showed the association was in a sound financial condition. Various proposed amendments to the constitution were discussed. It was decided to allow past presidents the privileges of the conventions, but without any expense allowance. The proposition to hold biennial meetings was defeated. It was also decided to accept the recommendation that the secretary hold office for a longer term than one year.

This afternoon the delegates enjoyed a trip on the steamer Aelia. At this evening session these papers were read: "Savage Disposal Work," by Mr. J. G. Robertson, and "Oils in the Engine Room," by Mr. J. S. Williams, Hamilton.

**Holcombe Got Off Easy.**  
John Holcombe, an Alabama colored man, who sometimes lives in Chatham, was tried before Judge Sider to-day on charges of attempting to pick the pockets of Mrs. Guest and Mrs. Fairbanks on the steamboat wharf on the evening of July 30. The judge found Holcombe guilty of both charges, but allowed him to go on suspended sentence; he to come before His Honor should he ever return to Hamilton after leaving the city to-day.

**Police Briefs.**  
At the Police Court to-day the Magistrate sent Mike Connors to the Central Prison for six months for stealing a number of shoes, hammers and small articles from various citizens.

Fine Residences in Course of Erection—Many Thousands Being Spent This Summer.

A Firm Attitude Adopted in Matters of Railway Concessions.

Sir Claude Macdonald, British Minister to China, Retires Lord Salisbury's Assurance—Digging of the Nicaragua Canal Necessary for the Preservation and Protection of All Anglo-Saxons in China.

Pekin, Aug. 9.—Great Britain, it is asserted, has adopted a firm attitude in the matter of railway concessions in China. The situation is now cleared, unless Russia makes a counter move. There is general satisfaction in the British settlement.

The firm attitude adopted by Great Britain in the matter of railroad concessions in China, which is giving general satisfaction in the British settlements, is maintained. Sir Claude Macdonald, the British Minister to China, was present at the meeting of the Chinese Foreign Office.

London, Aug. 9.—A Pekin syndicate which represents leading British cable interests in China received a cablegram from the Chinese Government in Peking, stating that the digging of the Nicaragua Canal is regarded as a necessity by the Anglo-Saxons in China for the preservation and protection of their interests.

It is stated by the syndicate officials here that the more announcement by the Chinese Government of its intention to dig the canal would have a great effect in checking the Russian advance, and give Englishmen and Americans control of the trade.

**Lord Aberdeen and Party Will Take Part in Many Functions.**  
Gravenhurst, Ont., Aug. 9.—The Governor-General and party, who arrived here by the express train this morning, were tendered an enthusiastic reception by the citizens.

A civic address of welcome was presented, to which His Excellency made a most appropriate reply. A unique feature of the decorations of the town, which were in the shape of a arch constructed of piled lumber, shingles, lath and other mill products, and decorated with sawmill equipments, after seeing the town the party proceeded to the wharf, where the Muskoka Navigation Company's steamer "Keweenaw" was waiting.

At Hanlan's Point.  
The place to cool off is at Hanlan's Point, and incidentally be amused and entertained by some novel acts and good singing. The first show is a winter show, which is given to the Blackstone quartet is to laugh, and that, immaterially, for the business of this quartet of unique voices is to make every one feel happy.

**Sanitarium Visited.**  
After leaving Muskoka wharf the party, with the Vice-Royal party on board, called at the Muskoka Cottage Sanitarium, where their Excellencies spent an hour looking at the building and the grounds, and in noting the success of the treatment of that awful scourge, consumption. It was difficult to convince the party that the happy and healthy-looking people who were on the wharf to welcome them had been sent to the Muskoka sanitarium for the cure of tuberculosis. The Muskoka sanitarium is a small, but successful, building, and is situated in a beautiful spot, near the wharf, and is a very successful one.

Windsor, Ont., Aug. 9.—Robert McGuire, superintendent of Grand Trunk bridge and dock work between Windsor and Chatham, died this morning, and will probably be taken back to his home near London for interment.

**Miss Cora Curry, a very well known young woman in Windsor, died this morning, at the family residence, of a nervous disease. She was the daughter of a famous and long-drawn-out case of Curry v. Curry, which is still pending, and owned a fine house on the corner of the city. She was 23 years of age.**

**She Won the Bike.**  
The person dining at the Joseph picnic, which was held on Monday last, received a handsome bicycle. Of the \$300 brought in, Miss Campbell sold tickets to the value of \$120, and she got the bike.

**Hood's Sarsaparilla is prepared by experienced pharmacists of today, who have brought to the production of this great medicine the best results of modern research. Hood's Sarsaparilla is a modern medicine, containing just those vegetable ingredients which were seemingly indicated by Nature herself for the alleviation of human ills. It purifies and enriches the blood, tones the stomach and digestive organs and creates an appetite; it absolutely cures all scrofulous eruptions, pimples, sores, skin diseases, and every form of skin disease; cures liver complaint, kidney troubles, strengthens and builds up the nervous system, gives strength and energy in place of weakness and languor. It wards off malaria, typhoid fever, and by purifying the blood it keeps the whole system healthy.**

**Secretary Davy Dead.**  
A face that will be badly missed at the Public Library and by all those who love books is that of John Davy, secretary of the library, who passed away last evening at the age of 72. The deceased was born in London, Eng., in 1826, and was 28 years of age when he came to this country. He was for some months secretary of the old Mechanics' Institute; and then accepted the same position at the Public Library. His death was a great loss to the library, and the library will miss his services.

## DIAMONDS.

Success in business to-day demands that we get close to the producer.

This is especially so with goods such as diamonds.

For this reason there is no diamond in our stock that has not been personally purchased by us in Amsterdam—there is absolutely no middleman between the men who cut the diamonds and ourselves.

We thus have a clear advantage from 10 to 25 per cent. over diamonds sent into the country through all diamond brokers.

OSHAWA HAVING A BOOM.  
Cedarvale Works to Be Turned Into a Large Tannery.

Oshawa, Aug. 9.—The extensive shops, water power, and steam as well, at Cedarvale, were vacated by Mr. Chaplin last year, who went from here to Cote St. Paul, Montreal, James Robson & Sons of London, who have purchased the entire plant and will begin at once to convert it into a huge tannery. The finer kinds of colored leathers will be manufactured, and over 100 men employed without intermission the whole year round. It is said that the price paid for the vacant works was \$100,000. It is very probable the Oshawa Electric Light works will run their tracks down to the works very soon.

The large saws and hammer shops will be raised up two stories higher and a large beam house built as well. This is considered one of the most important transactions in the history of the city, which have taken place for a long time. This town is wholly a manufacturing town, and all of its people are extremely busy and on a good basis.

**Collie Dog in Custody.**  
Detective Black, the officer on duty at the Police Department last night, had good company over night in a handsome collie dog. There is a story in connection with the dog, which is quite interesting. Some days ago Mrs. Fisher, 125 Dundas-street, lost a collie, which she prized highly. She advertised for its return, and offered a reward of \$100. The dog was found by Detective Black, and is now in custody.
