operations. "Comfort" soap carries bright new into every home, and is acknowledged to be in greater request than any other similar household article. During the Fair the firm are conducting a guessing contest in regard to the weight of the big bar of Comfort soap. Each person is entitled to one guess every day, and each of the first three correct or nearest correct will receive a high-grade bicycle each of the second three a fine gold-filled hunting case watch; and each of the third and fourth three will also receive valuable prizes.

Pugley & Dingman have indeed an interesting exhibit centrally located in the Main Building. The central object at their stand is a large statue of soap, representing the all-prevailing sentiment, and the statue is surrounded by a number of smaller statues representing the various soap brands. The statue of "Comfort" is the largest, and the statue of "Pugley & Dingman" is the smallest. The statue of "Comfort" is the largest, and the statue of "Pugley & Dingman" is the smallest. Manufacturers' Day at the Fair.
As heretofore announced, a mass meeting of the manufacturers will be held in the large hall over the general offices of the Industrial Exhibition, on the Fair Grounds, at 2:30 o'clock in the afternoon of Tuesday, Sept. 6. The meeting will be under the auspices of the Canadian Manufacturers' Association. Addresses are promised by Sir Richard Cartwright, Minister of Trade and Commerce, if he can possibly attend, and by Hon. Wm. Patterson, Minister of Customs, Geo. H. Bertrand, M. P., James H. Kennedy, M. P., Messrs. E. E. Sheppard and George Anderson, late Dominion Commissioners to several foreign countries in the interest of Canada's foreign trade, and other prominent gentlemen. All manufacturers are invited.

A Handsome Gift to Visitors.
We have decided that during the second week of the Toronto Exhibition we will present all visitors from outside Toronto who call at our warerooms a free copy of the beautiful 60-page illustrated souvenir entitled "Musical Toronto." The illustrations of Toronto buildings and musicians are numerous and are handsomely printed on colored paper.

the finest paper with a cover in red, green, white and silver, and is done up in an envelope suitable for mailing. It is the handsomest souvenir of Toronto ever issued, and is not an advertisement and is sold regularly at 25c a copy. Our address is the Mason & Rich Piano Co., Limited, 32 King-street west, and while in our warerooms you will be enabled to examine the handsomest and most superb collection of pianos ever shown in this city, including Mason & Rich pianos, Chickering pianos and Yose pianos, as well as an immense collection of bargains in second-hand pianos and organs, ranging in price from \$30 upwards. Terms to suit all. Our warerooms will be open till 9:30 p.m.

A Novelty Stove and Heater.
The insatiable appetite for something new will be temporarily filled by examining the exhibit of Mr. R. Fletcher of 142 and 144 Dundas-street, who is city agent for the celebrated Gurney stove and heater. A large variety of these goods are shown, but the objects that will command more attention at this stand than any other are the unique stoves, the conception and invention of Mr. Fletcher himself. A pretty little idea is the gas stove that is specially constructed for heating bedrooms and offices. This is a wonderful little heater, and its mechanism takes every particle of heat of the small quantity of gas that the stove consumes. The price of this stove is within the reach of all, and, complete, costs and for some years in full operation. Mr. Fletcher is on hand, and will be pleased to explain the merits of his new invention. For camping and similar purposes, where temporary use only is required, this stove has no equal on the market.

Something New in Heaters.
The Duplex Steam and Hot Water Heater, combining hot water for domestic purposes, being shown by the manufacturers at the Stove Building, should interest capital. It is certainly a marked improvement on the ordinary systems. It is now in full operation.

Radiators That Radiate.
Few people outside of the regulation trade acquaint themselves probably with the workings of the steam or hot water radiator, and for some years a knowledge of the interior of these diffusers of heat was of little advantage in the matter of selecting one, as the manufacturer was practically controlled by one house. As time has worked changes, and we have now a variety of radiators, and we have now a unique invention with advantages over previous articles of this class sufficient to stamp it as a sine qua non in all future heating of buildings. The exhibit will be found in the Stove Building, and very few moments will serve to convince anyone of the peculiar and exclusive merits of this new mechanism. The conception is made on scientific grounds, and it is impossible to have cold ends with the Continued on Page 3.

SOUP FROM AN ASS' LEG.
City Chinamen Make Merry Last Night in Celebrating Labor Day—A Solid Spread.

The Chinese laundry shops were closed yesterday in honor of the holiday. The Oriental witnesses the parade in the morning, spent the afternoon at the Fair, and passed the evening in a jolly manner at 370 Yonge-street. The blinds of the Ying, Chong, Tai Co. were drawn, but the curious crowds that passed the shop were able now and then to catch glimpses of the scene within.

The Gathering Group.
A Good Time.
Forty yellow men of the East, sat in various postures about the spacious room. A few hats some their native robes, and all wore the tighter fitting clothes of civilization.

Park Mark, the host, presided, and under his management excellent talent entertained the audience. The instrumental music was decidedly weird, being produced by several one-stringed instruments and a horn-like contrivance, which never indulged in variations.

Vocal selections were rendered by Chung Lee, Lin Sam, Ho Tong, and Tom Sing. Readings were given by Koo Wo and Chung Choo. There must have been something very funny about the selections, for the audience became helpless with laughter.

Some of the brethren finding it necessary to roll up the floor, the supper was served early in the evening, while smoking was in order until midnight.

When the Soup Came.
The principal feature of the spread was a delicate soup made from the bone of an ass's leg. This piece of anatomy arrived at the Fair last from China, where it had been buried for 114 days in clay, a goodly portion of which adhered to it on arrival. The bone weighed two pounds, and was strong enough to make sufficient soup for all present.

Montreal Had Two Processions.
Montreal, Sept. 5.—Montreal was treated to two Labor Day processions this morning. The Central Trades and Labor Council was the originator of one, and the Federated Trades and Labor Council of the other. Both processions were of large, though in point of numbers the older organization had the advantage.

The Central Trades and Labor Council formed their parade on the Charles de Mars. The several societies and other bodies participating in the parade marched on to the sound of distinct detachments. When the procession was over the usual speeches and games were indulged in on the Exhibition grounds.

To-Morrow's Sale of Guns.
The sportsmen of Canada will have an opportunity for securing good guns in this city which will probably never occur again in such a large collection of arms. The guns are being sold by public auction at 2:30 to-morrow (Wednesday) afternoon. The sale will be held at 233 and 235½ Yonge-street. Everyone interested in the trade should endeavor to be present, as the stock embraces the products of nearly all the best makers of small arms in the world, and every gun will be sold positively without reserve.

Machine Caused the Strike.
The Slater Shoe people have turned their store at 80 King-street west into a miniature shoe factory, where a series of Gossard type well machines and a Chase lasting machine one of those which caused the Slater strike, are in full working order. The machines are operated just as they are in the factory. Our visitors should not fail to see them.

Mt. Clemens Sprudel Water has a red label.
A Magic Pill.—Dyspepsia is a foe with which men are constantly grappling but cannot exterminate. Subdued, and to all appearances vanquished in one, it makes its appearance in another direction. In many the digestive apparatus is as delicate as the mechanism of a watch or scientific instrument in which even a breath of error will make a variation. With such persons the most trivial causes can cause much suffering. These Paramele's Vegetable Pills are recommended as mild and sure.
