3. The right to extend its tracks from the present terminus of its line on Yonge-street southwards to the C.P.R. tracks.

None of these rights can be legally grant ed to the Metropolitan Railway Co except by the City of Toronto, and they can be granted by the city only through the City Council acting in its legal capacity

Did the Council clothe the deputation with the world that this is the kind of railway these powers? Up to date we have seen no resolution or less the schemers are defeated. Their first other act of the Council by which the deputation were instructed to grant these rights this morning. That act must be resisted Is it true, let us ask, that the deputation self can pass an act that is ultra vires. > its; we are desirous of conforming with every reasonable rule, restriction or request, even of the Government. We are there because solicited to go there in the first place, and we desire to remain only so long as the people of the province wish. We are at the present time able to dispose of all our lines north of the boundary, and on terms which I believe would be satisfactory, but have discouraged all negotiations looking to such resuit. When we have acquired mileage in the province sufficient to warrant an independent management, we would be disposed to establish such at Winnipeg, and more completely identify ourselves with the people, and in such a way that we trust the people and Government of the province will recognize the advantage we can be to them. It is for the Government to say whether they want us or not. We are not going into anyfight with Mackenzle & Mann, the Canadla Pacific, or any other interest, for charters, subventions or otherwise. We simply express our willingness to extend our lines, and, if permitted, will give a satisfactory service and an actual, live competition with the Canadian Pacific, and abide, without murmur, by the result. The above, I understand, was communicated to Mr. Greenway at the time, and it expresses our attitude today. We would be glad to make reasonable extensions over lines to develop the country naturally tributary to the same. We desire to do a prosperous business and we have hoped almost against hope that conditions might arise by which the Government would appreciate our efforts to supply needed facilities in the section we serve, and give reasonable competition for the benefit of the province, and, despite the disappointments we have met with since April last to the present time, we have taken no action that will in any way lessen our interest in the province, not even looking to the destruction of the runs of the Manitoba Hotel, thinking possibly that conditions might yet look more favorable, and that we might receive such encouragement from the Government an its; we are desirous of conforming with

Letter Caused a Sensation.

The letter has caused a great sensation here, as the Greenway Government have made many unsuspecting and innocent sort of people believe that they were the best of friends with the Northern Pacific, a line which has gained much popularity here, and is eagerly sought for by farmers. Mr. Mellen has for a long time expressed disgust with the untrustworthiness of the words of politicians. Notwithstanding the opportunity offered by a public meeting held lainight, at which two Cabinet Ministers were present, they made no serious attempt a explanation.
