"For two years I suffered tortures from severe dyspepsia. I had constant pains after eating; pains down the sides and back; and horrible bitter stuff often came up in my mouth."
"I tried doctors, but they did not help me. But as soon as I started taking 'Fruit-a-lives' I began to improve and this medicine made of fruit juices, relieved me when everything else failed."

CANADA'S JOURNALS NOT GREAT COMBINE, CLERGYMAN IS SHOWN

Mr. Ivens' Criticism of Canadian Press, Ltd., Wrong.

ON DEMOCRATIC BASIS

Pastor of Labor Church and Journal Misunderstands the Situation.

WINNIPEG, May 12.—Under the title, "Slightly Mistaken," the Manitoba Free Press editorial says today:
"Rev. William Ivens, pastor of the labor church, and editor of the official labor publication of this city, in his evidence before the industrial commission said that there was a newspaper combine in Canada, and that this fact had been admitted by the editor of the Free Press in an address to the Winnipeg Ministerial Association last year. Both statements are equally erroneous. He has no basis in fact for either of them."
No Newspaper Combine.
"There is no newspaper combine in Canada. The Canadian Press Limited, is a co-operative news-gathering association whose motto and practice is service, not profit. Every daily newspaper in Canada which feels able to take a daily telegraphic news service belongs to this association. There are no entrance tests as to character or opinion. Papers of the most diverse political opinions, from the extreme radical Canadian (now deceased) to the ultra-conservative Montreal Gazette. There is, of course, one condition of membership: newspapers must agree to pay their bills, and they are naturally high, because the operation of leased wires from coast to coast, night and day, and the collection of news from all parts of the world run into a lot of money. But no daily newspaper which has a sufficient constituency behind it to enable it to pay its bills need forego participation in this service."
"The government of the Canadian Press is absolutely democratic. Every daily newspaper that belongs to it has one vote, and the officers of the association are elected yearly by ballot. The complaint that the 'large newspapers' control it is therefore quite unfounded."
"Here is an institution which is nation-wide in its operation, co-operative in its methods, operated without profit; open to any paper anywhere which has a constituency, and administered and controlled by its members on a democratic basis. It should, by all the tests, meet the approval of Mr. Ivens, but instead he reviles it."

SOCIALISTS OF GERMANY UNITE AGAINST TREATY

Forced by Pressure of Public Opinion to Modify Views.

WILL COMBAT SIGNING

Opposition Only Leads to Greater Fall, Is Warning of One Leader.

BERNE, May 12.—Press comment and other news concerning the peace treaty, as sent here by the German semi-official weekly news agency, suggest that a campaign has been started to increase German public opinion against acceptance of the treaty, or, perhaps, which is more likely, to save Count von Brockdorff-Rantzau manufacturer of privately-owned lands in any province for resale to eligible soldier-settlers. It also enables the soldier-settler board to compulsorily purchase lands which are held to be retarding agricultural development.

Those Who Participate.
These eligible to participate in the benefits of the act are members of the Canadian, Imperial or colonial forces who served with an honorable record in an actual theatre of war, or members of the Canadian forces in Canada only who are in receipt of pensions for injury occasioned during such service. The privileges are also extended to widows of such persons.
For the purchase of privately-owned lands in any province the soldier-settler board may loan up to \$4,500, repayable in 25 equal annual instalments, with interest at the rate of 5 per cent, but no interest in the first year. The purchase of live stock, implements, etc., the board may loan up to \$2,000, repayable in four equal annual instalments beginning the third year, with interest at the rate of 5 per cent, but no interest in the first year. A further sum of \$1,000 may be loaned for permanent improvements, repayable in 25 years, at 5 per cent.

Provides for Training.
The bill also provides for agricultural training for those eligible soldiers who are not ready to go immediately into the land, and for the payment of allowances for subsistence for the settler and his dependents during the time of training. This training may be at a training centre specially equipped for the purpose, or on the land itself. Instructors and inspectors of the board will visit and assist settlers who participate in the benefits of the act.

With regard to the compulsory purchase of land, the bill provides that a "settlement area" shall be established only in districts wherein by reason of land remaining undeveloped, agricultural production is being retarded.
The board shall be the sole judge of this.
A settlement area shall be considered established when the soldier-settler board has gazetted such establishments. Within 30 days thereafter each owner of a block of land within such settlement area shall file with the board a return naming the price at which he is willing to sell and such other arrangements as shall be requested. Provision is made in cases of resistance, for forcible possession.

May Take Crown Lands.
The board may also arrange with the government of any province for acquiring any crown or other provincial lands in such province, and settlement on such lands will be, as nearly as possible, on the same terms and conditions as those which are provided with respect to settlers to whom the board shall sell land acquired by it. The board may acquire from the crown Indian lands which under the Indian act may be validly released or surrendered.
The soldier grant will not be made to any settler who has secured land from the board by purchase, or has secured an advance of money for the clearing of encumbrances on land owned by him, or who is the owner of agricultural lands which are considered an average farm.

CANNOT SHIP WINES, BEER FROM QUEBEC TO "DRY" PROVINCES

Conditions of New Prohibition Measure for Dominion.

NO NATIONAL BALLOT

Revised Enactment Makes No Provision for a Referendum.

OTTAWA, May 12.—The prohibition bill (as based on the resolution of which Sir Thomas White has given notice) is expected to come before the House of Commons today. The bill contains existing prohibitory legislation with one change—a change necessitated by the results of the recent plebiscite in Quebec favoring the sale of beer and light wines in that province.

There is no provision for a national plebiscite on the continuance or discontinuance of Dominion prohibitory legislation. Any plebiscite taken will be provincial and applicable only to the province concerned. The bill of the Dominion legislation is to implement any provincial enactments. Where, as in Quebec, existing prohibitory legislation is to be permitted, manufacture of such alcoholic liquors will be permitted within the province, but shipment to any dry territories will be forbidden. Importation of French wines, it is understood, will remain forbidden.

The only province which continues the sale of light wines is Quebec, and it is stated here the alcoholic content of wines which may be sold under the provincial law is lower than that of French wines. Domestic manufacture of wines which may be sold under the provincial statute is, however, not permitted.

The bill will be in force until one year after peace is proclaimed.

The ferry Garalella had just left the Windsor dock, when Garalella rushed to the side of the boat and leaped into the river before other passengers could stop him. Hundreds on shore and on the boat saw him disappear over the side. The body has not yet been recovered.

What is Indurated Fibreware?

EDDY'S Indurated Fibreware is wood without any of the drawbacks which are commonly associated with wooden household utensils. It is made in one piece without joints or hoops, it will not splinter, will not fall to pieces if dropped, and is impervious to taints and odors. And with all those qualities it has all the lightness and the resiliency of wood.

Eddy's Indurated Fibreware
Washtubs, Pails, Butter Tubs, etc.

are made from wood-pulp, ground so as to preserve the long fibres intact. It is moulded to the required shape, in a single piece, under tremendous hydraulic pressure. This welds the fibres into a homogeneous mass, stronger in texture than the original wood itself.

The moulds are then dipped in oil, put into huge ovens, and baked for hours with intense heat. This produces a hard, glazed surface, which is impenetrable to liquids, and which effectively wards off every outside taint.

The next time you buy a washtub, a milk pail, a household pail or butter tub, ask for Eddy's Indurated Fibreware. You will find it much easier to lift, much easier to keep clean, and much more economical than the ordinary wooden or metal container.
