Oats—May 371/4c, July 381/4c.

Crop Reports.

Oglivie Flour Mills of Canada estimates farm and country elevator reserves at almost 20,000,000 bushels. Big mills will require 14,000,000 bushels. Big mills will require 14,000,000 bushels. Terminal elevators have 5,500,000 bushels, leaving only 11,500,000 bushels to supply the usual export demand, which springs up with opening of lake navigation and to take care of export sales already made for spring spring market, where May option declined a full cent. Dealers report that the supply at the lake ports has been pretty well picked up, and prices maintain comparatively firm in consequence, while trading in the local market continues about as dull as possible.

Prices/for flour for export are being held at \$4.45 seaboard by Toronto dealers. Old country bids are generally out of line, and with the exception of some trading in futures, for May delivery, business is practically at a standstill.

Local grain dealers' quotations are as follows:

Shipment.

Price Current says: Disappearance of snow in most of central regions does not disclose less favorable situation of wheat fields than previously indicated. Damage talk is chiefly from Eastern Kansas.

Extent of dead wheat not determinable. Average condition, or better, east of Mississippi River.

Manitoba wheat—No. 1 northern, \$1.12;
No. 2 northern, \$1.10, track, lake ports; %c over these prices with winter storage. Oats—Canadian western oats, No. 2, %c over these prices with winter storage. Ontario, No. 2, 39c, at points of shipment.

Snow's Crop Reeport.

B. W. Snow's crop report for March I shows a farm reserve of corn of 1,060,000,000 bushels, or 28.7 per cent. of last year's. The farm reserve has been larger but three times in the past ten years. The consumption of corn during the past 12 months has apparently been less than that of the preceding year by 150,000,000 bushels, due to the shortage in meat producing animals. Present reserve in the seven surplus States is 638,000,000 bushels, against 490,000,000 bushels at year at this date.

The farm reserve of wheat is estimated at 172,000,000 bushels, or 23.9 per cent. of the crop, against 123,000,000 on March I last year. Present farm reserve and commercial stocks after taking care of the spring seeding and domestic wants for the next four months will furnish a surplus of 58,000,000 bushels, four months exports and stocks in all positions July I. Farm reserve in Minnesota and the

1. Farm reserve in Minnesota and the Dakotas aggregates 60,000,000 bushels, against 31,000,000 bushels in same position 34.45 seaboard. last year.

The farm reserve of oats is placed at 231,000,000 bushels, or 25.8 per cent. of the last crop, against 230,000,000 bushels last year. In only three years of the past ten has the reserve been larger than now. In the six states of principal supply the present farm stocks aggregate 206,000,000 bushels against 133,000,000 bushels similarly held last year.

Toronto Sugar Market.

St. Lawrence sugars are quoted as follows: Granulated, \$5.20 per cwt., in barrels: No. 1 golden, \$4.90 per cwt., in bags. These prices are for delivery here. Car lots 5c less. In 100-lb. bags prices are 5c less.

Receipts of farm produce, owing to bad roads, were light, only one load of grain, and 5 loads of hay, with a few lots of dressed hogs.

Wheat—One load fall and the load of grain, and the load of the load of grain, and the load of loads of hay, with a few lots of loads.

Choice grades of creamery and dairy butter are firmer as follows: Creamery, 29c to 31c, and Locust Hill brand is selling at 32c; choice dairy (separator), 25c to 36c. These are wholesale quotations.
