# ON SCHOOL GROUNDS

At a meeting of the board of educa-tion last night, a resolution was pass-ed that on no consideration are the playgrounds of the public or collegiate schools to be permitted for the holding of fairs or carnivals. Residents of Oakwood and the northwest district have protested against the noise and destruction of property belonging to the board of education. The lawn ten-nis club state that their court has been overrun by horses owned by the show-men, and will cost quite a sum of money to make good. The cricket club, who practise on these grounds,

has also put in a complaint. The charge by the showmen for admission is 10c, and it is asserted that this fee is absolutely illegal, as the school department cannot allow a charge of admission to be made to the public grounds of the schools under their jurisdiction. At the meeting of the board, it was stated that the G.V. V.A had been camouflaged into allowing their name to be used by these showmen, on the promise of a certain percentage of the profits. The collegiate grounds are surrounded by some of the highest grade residential properties in the northwest district properties in the northwest district, and many of these residents have ask-ed The World to publish a protest against the attitude of the school department in permitting such valuable property to be wantonly destroyed, to the annoyance and expense of ratepayers.
