

The section referring to the loaning of targets for use by the Militia in Camp was discussed, it being shown that the cost of preparing six sets for the Camp and of replacing these six sets with new ones exceeded the amount received for their use by about \$25.

It was thereupon resolved, on motion of Lieut.-Colonel Armstrong and Captain McRobbie,

That the use of the Butt and Range plant, other than targets, be permitted free of charge, but if the use of Association targets is also desired, that the Camp be required to make good the damage and expense actually occasioned.

In this connection the Secretary was directed to write to the Kings County Rifle Association and ascertain to what extent targets would probably be needed next year for their practice and competitions, and report at the Council meeting in November.

Moved by Capt. Thompson, seconded by Capt. Lordly,

That the resolution of the Competitors' meeting, recommending the adoption of the Martini-Henri rifle for future matches, be adopted and carried into effect.

Expressions of gratification at the result of the Maritime match were made by the President and some other members, and acknowledged by Capt. McRobbie, captain of the team.

The following resolution then passed :

That application be made to the Provincial Government for a yearly grant to aid in meeting the expenses of the New Brunswick team in the Maritime match,—a grant such as is at present made by the government of Nova Scotia to its Association.

The other matters contained in the Council report, and in the minutes of the Competitors' meeting, were referred to the new Council.

The Council report was thereupon adopted.
