## DRAFT EXEMPTIONS

How the U. S. Government Will Choose the First Contingent From the 10,000,000 Men Who Registered

The fact that practically ten million men of military age registered in one day in the United States is, in the opinion of American newspapers, this country's conclusive answer to all efforts to convince the German people that this is "Wilson's War" and that it is without popular support or approval in the world's greatest Republic. It is also, they add, our answer to "the spies, the conspirators, the demagogues who tried to obstruct the Draft Law." The history of the past several days will be read and studied in Berlin, where it will be recognized, in the opinion of the Springfield Republican, as "a registration not merely of men, but of a national purpose, indorsed, supported and confirmed."

Now that the first step in raising an immense American army has been taken, the question as to who will be exempt from military duty is engrossing public attention. In THE LITERARY DIGEST for June 16th the leading article gives a comprehensive account drawn from the press of the United States of the workings of the draft, and also includes the latest obtainable information as to the government's plan for passing upon the cases of men who have claimed, or will claim, exemption. Other articles of more than usual interest are:

Such knowledge means everything to you. It will be a big advantage to you in your business, a valuable asset in society, and will broaden and clarify your view-point.

in a hundred ways. THE LITERARY DIGEST is the one periodical that enables you to form an impartial opinion upon great world-happenings, because it gives you both sides of all the news and the important questions of the day, quoting without bias from publications of the most diametrically opposing views. It makes no attempt to influence your judgment, but leaves you to form your own estimate. You will find it more than worth while.

\$1,000,000 TO PASTOR.

The Rev. Edward F. Sanderson Inherits Wife's Estate.

New York, June 15—The will of Mrs. Ethel Eames Sanderson of 125 Remsen street, Brooklyn, who died at her summer home at Stamford, Conn., on May 31, was filed in Brooklyn. The estate, consisting of "not more than \$1,000,000," is left entirely to the Rev. Edward F. Sanderson, the testator's husband, who is also named as executor. The will is dated March, 1914, and states that the testator believes that Dr. Sanderson will make provision for their son, David. Mrs. Sanderson was the daughter of the late Francis L. Eames, at one time president of the New York Stock Exchange. She was married to Dr. Sanderson on June 29, 1912, while the latter was pastor of the Congregational Church of the Pilgrims at Henry and Remsen streets. Mrs. Sanderson was born in Brooklyn on April 12, 1877. She died shortly after the birth of a son, Edward, who died only five days after the death of his mother.

### SOUTH AFRICAN MISSIONS

Father Cotton delivered a very interesting and instructive lecture last evening before a large number of people in the Mission church, Paradise row, on his work in South Africa. Father Cotton told of his work among the inhabitants of Johannesburg, South Africa, where five members of his community have charge of the missionary work of the Church of England in and around the city.

## DIVIDEND CUT TO 18 PER CENT.

Traffic Through the Suez Canal Has Dropped 7,500,000 Tons

London, June 15.—The report of the Suez Canal Company, published in the Times, says: Traffic in 1916 had dropped about seven and a half million tons since 1913, but "thanks to increases in the receipts have not fallen in rates the same proportion." The council proposes to distribute a dividend of 90 francs. This means a dividend of 18 per cent, as shares are 500 francs. The dividend in 1913 was 164, in 1914, 165 francs. General shipping through the canal in 1916 was 3,110 ships of a net tonnage of nearly twelve and a half millions. The proportion of this was purely commercial, 2,240 ships with a tonnage of eight and a half millions, a decrease of 56 per cent, compared with 1913. The report states: "State commerce taking the place of private trade, the decrease in commercial traffic in 1916 was therefore not really so marked as the above figures would lead one to suppose." Of the 400,000 Suez shares the British government in 1875 bought 178,602, which in 1915 were valued at thirty million pounds, or seven and a half times the purchase price.
