PRIZE DOGS BROUGHT OVER ON CASSANDRA

Advent of Five Puppies Into World at Sand Point Makes Number 25

Donaldson Line steamer Cassandra, Captain Brown, arrived in port early this morning from Glasgow direct and docked between strand seven and eight at No. 4 berth, Sand Point. The Cassandra left Glasgow on March 7 and had a fair run until arriving in the bay, when she was held up for some hours yesterday by a dense vapor. The steamer had about 200 passengers and a good cargo of general freight, including twenty prize dogs and eight Clydesdale horses. The dogs were brought out by their owner, Robert Thomson, a native of Dunfermline, Scotland, who is now residing in Calgary, and he is taking them through to his new home in the west. There are four rough-haired collies, three fox terriers, five Pomeranians, two scotch terriers, one white West Highland terrier, one French pointer, one greyhound, two Dandie Dimont terriers and one English bull dog. Although Mr. Thomson left home with only twenty dogs, he has now with him twenty-five, as five homely little pups arrived a little after landing at West St. John. The dogs have been shown all through the British Isles and have taken altogether about 1,000 prizes at Crystal Palace, Alexander Palace, Belfast, Edinburgh, Ayr, Glasgow, Manchester and the Crufts shows in London, and are valued at about \$5,000. After leaving his pets at his home in Calgary, Mr. Thomson will go to Moosejaw, where he will judge all classes in a dog show on March 28.

The Lake Manitoba, of the C. P. R., sailed this morning at 9 o'clock for Liverpool direct with twenty-three second and fifty third class passengers, and a good cargo of general freight. Steamer Manchester Exchange sailed this morning at 4 o'clock for Manchester via Philadelphia with complete cargo, including about fifty standards of lumber for Manchester. The Furness Line steamer Kanawha, Captain Kellman, arrived in port and docked at the Pettigill wharf this morning. She is from London via Halifax and brought about 1,500 tons of general freight. The Montfort, of the C. P. R., steamed this morning at 6 o'clock for London and Havre with a part cargo of general freight and provisions. The Montfort will complete loading cargo at Halifax. R. M. S. Victoria, of the Allan Line, is due to sail this afternoon at 8 o'clock for Liverpool direct with twenty first class, seventy-five second class and about 200 third class passengers, besides mails and a full cargo of general freight and provisions.

CLAIM FOR \$12,000 ON PROMISSORY NOTE

In the case of Thomas Noble vs the Quebec and St. John Construction Company and the St. John and Quebec Railway Company, a summons was issued this morning by Chief Justice Lantry, calling upon the defendants to show cause why their appearance should not be set aside, and judgment entered for the plaintiff. The claim is for \$12,000 due on a promissory note of which the plaintiff is a bona fide holder for value in due course. The summons is returnable on Wednesday next. H. O. McInerney is the plaintiff's solicitor, and F. A. Guthrie is a solicitor for the defendants.

MORE I. C. R. COMPLAINTS

There has been no let-up to the number of complaints with regard to the I. C. R. freight service since the institution of the newest form of expense in railway circles under the Gutelius management—the running of an engine light for sixty-six miles to bring a string of freight-cars twenty-two miles to St. John.

Consignments which have been intended to reach the city for a certain selling of the American boats have missed connections, and in some cases it is said the freight has been delayed in transmission for a week or more. The same is true with regard to local freights. Some dealers here are ordering Upper Canadian houses to ship through C. P. R. because of the lengthy hold-up at Hampton. There are no inspectors at Hampton, and it is feared that some of the freight may suffer. A car of horses, it is said, was recently left at Hampton for about a whole day, although it is said that the Munton office were apprised of this being there.

A meeting of trustees on the I. C. R. is to be held this week to protest against the standard rates, as the men on the I. C. R. are becoming discouraged because of what they declare the impossibility of promotion owing to favoritism for C. P. R. men.

RECEIVED EVERY CARE

A correspondent of the Times, says he has read complaints made by patients who had been in the hospital about the treatment they receive from the nurses and the doctor. He says such statements could not be well founded, as he was a patient in a room where there were three others, and the care they received was a credit to the institution.

ENTIRELY CLEARED.

The young lad who faced a serious charge in the police court yesterday was entirely cleared of suspicion as definite proof was shown that he had been at his work when the assault was alleged to have taken place. He was completely exonerated by the magistrate.

BIRTHDAY SURPRISE

Mrs. William Ferris, 16 Autumn street, was agreeably surprised on Monday evening, when friends gathered at her home to help celebrate her 78th birthday. Refreshments were served and a most enjoyable evening spent by all. Mrs. Ferris received many useful gifts.

DID NOT LECTURE

Owing to a misunderstanding at Bathurst with regard to the engaging of an assembly hall for the lecture to have been given by H. O. McInerney, of this city, he did not go there yesterday. It was found that the only available building for the purpose had been previously engaged and, though with much regret, the lecture was cancelled.

FROM TROUBLED MEXICO

Letter Received Here From Wife of Capt. W. F. Young

Every Man in Tampico Carries Revolver—In Railway Journey Bodies of Many Mexicans Seen Hanging From Trees

Mrs. R. D. Christie of this city has just received a letter from Mrs. Young, wife of Captain W. F. Young, formerly with the Donaldson Line and last year captain of the Canadian government vessel Alletta, which took a cargo of lumber from Halifax to Port Nelson. Mrs. Young being the second wife woman to visit the scene in the far north. Captain and Mrs. Young are well known in St. John. The captain is now in command of a steamer running between Port Arthur, Texas, and Tampico, Mexico, and Mrs. Young accompanies him. In a letter from Tampico dated March 11, Mrs. Young says of the intense heat experienced in that climate even at this season. The crew on board the captain's vessel are composed of Norwegians, Swedes and Americans, only the steward, the captain and his wife being British. No smoking is allowed on board these vessels, on account of the gasoline and Mexican oil in their cargoes. Mrs. Young says that on the first day from Tampico the mate went down forward for something and was almost suffocated by gas. On their previous visit to Tampico the town was invaded by rebels, and foreigners had to seek refuge in boats on the river. Mrs. Young writes: "Tampico is the most foreign-looking place I have ever visited. The men are going around with revolvers sticking out of their hip pockets and cartridge belts around their waists. The place I noticed most in the town was the prison, where a soldier walks up and down with fixed bayonet guarding what looked to me like cages, and the prisoners stand looking through the bars. When we were last in the place the rebels had cut off the water supply. Two American battleships and one Mexican are stationed in the harbor." In another portion of the same letter, dated Port Arthur, March 9, Mrs. Young writes that she had arrived back at Port Arthur, Texas. Referring to their experiences before leaving Tampico she said that she ventured on a train, which had to stop frequently to repair the line, and at frequent intervals they would pass the body of a Mexican hanging from a tree, riddled with bullets. One, it was said, had been hanging for three months. American and British subjects are not interfered with, but there is always the risk of being hit by stray shots. The people in Canada, Mrs. Young says, have no idea of what is taking place in that part of Mexico. It is a lovely country, rich in soil and minerals. Three crops can be raised each year and roses bloom all the year round. Accompanying the letter is a clipping from the New Orleans States of January 21, containing a fine picture of Captain and Mrs. Young and their cat "Pickles," which was with them on their journey to Port Nelson, which is described in an interview with Mrs. Young. The Alletta was caught in an ice floe, where the boat was frozen so that she had to be beached and Captain and Mrs. Young with "Pickles" and the crew were taken to the shore. The Alletta is a fine steamer, the Acadia, which was also beached and had some difficulty in getting her way out. Mrs. Young goes with her husband on all voyages, and the sentiment of the line "Forever and Ever and Aye" may fairly be applied to her:— If she loves him she'll follow him, follow him, Follow him, follow him on, Down the deep, rough track, to the mid-night black, And up through the gates of dawn Like a faithful star she will follow him, To the end of the earth and sky; Hither and yon she will follow him on Forever and ever and aye.
