HIS THREE COMPANIONS ARE DEAD

Robert W. Kries, sole survivor of four men who started to walk around the world for a prize of \$10,000 offered by a Colorado newspaper. In Banff, the party were taken for Dutch and fired upon by the savages. He escaped seriously injured. He was the first white man who succeeded in walking through Borneo in six months. He did this feat alone and met many cannibals and had numerous narrow escapes. If he returns to Denver by January 5, 1912, he will receive \$40,000, the full amount, his other companions being killed.

BURGLAR, READY TO MURDER, TAKES TO THE BETTER LIFE

Old Salvation Army Hymn Checked Him and Led to His Conversion

Spokane, Wash., Feb. 8.—"Jack Marshall," thirty-five years of age, who says he assumed that name to spare his family in Utah and confessed he was prepared with two revolvers and a lot of burglar's tools, to rob several stores in the river district, when attracted by an old-fashioned hymn played by the Salvation Army band at its local armory, has decided to devote the rest of his life to reclaiming fallen men and unfortunate women.

Marshall was converted on the night of January 28, when he arose from his knees and confessed to more than 300 worshippers that he had determined upon robbery and was prepared to kill, if necessary, in the event that he was hindered in his purpose. Just before "testimony" he passed to E. W. Baldwin, adjutant at the post, a brace of loaded revolvers, an electric flashlight, a jimmy and a fully equipped drill, also a quantity of high explosives.

Adjutant Baldwin says the new convert is well connected in Utah, Nevada and California, and that his parents are well-to-do and highly respected in the community in which they reside in the state of Utah.

BURN CAUSED OPEN SORE

Zam-Buk Worked a Wonderful Cure

Sometimes a bad burn, a deep cut, or some similar mishap, sets up a more permanent injury, in the form of an open, discharging sore. In such cases Zam-Buk will be found of unequalled value.

Mr. J. Nixon, of 801 William Ave., Winnipeg, a blacksmith, at the C. P. R. shops, had his foot badly burned by some molten metal falling upon it. He says: "The burn was a very bad one, and after the first few days it left an open sore, which showed marked signs of blood poisoning. It discharged freely and caused me terrible agony. For three weeks I suffered severely and got no ease. At last I obtained a preparation from the doctor, which seemed to stop the discharging and made me quite hopeful, but finally the wound became as bad as ever."

I was then advised to use Zam-Buk, and from the first application the balm gave me relief. The inflammation was thoroughly checked, and the poisonous matter cleared away. The wound healed after beginning with Zam-Buk. Healing then began, and in less than two weeks the wound was thoroughly healed.

One of the main lessons of this case lies right here—try Zam-Buk first for any injury, sore, skin disease or wound. Don't spend money and waste time in experiments. Zam-Buk is equally good for piles, blood-poisoning, festering wounds, chaps, cold sores, children's eruptions, scalp sores, varicose ulcers, chilblains, etc. All druggists and stores sell box or post free from Zam-Buk Co., Toronto, for price. You are warned against harmful substitutes and inferior preparations.

MR. FLEMMING NOT A MAN WHO SEES AHEAD

Moncton Transcript Brings Well Arranged List of Criticisms Against Premier

Plea to Keep Federal Politics Out of Provincial Affairs Comes With Poor Grace in View of Government Record—No Good Friend of the Farmer

(Moncton Transcript)

"Where there is no vision, the people perish." Premier Fleming and his lieutenants are evidently realizing the appropriateness of this saying of the wise man as applied to the Conservative party in the province. Unlike as he is in some respects, Mr. Fleming has the lieutenants of his former leader, Mr. Hazen. He is without perspective. Obsessed by the question of the moment, he forgets the past, and is incapable of conceiving the future. He is without vision.

In Mr. Fleming, that is perhaps, merely a misfortune. Were he surrounded by men with the power of vision, his own limitations might not be of such serious public concern. But, unfortunately, the dominant element in the cabinet is composed of men of practically the same type as himself, energetic, aggressive men, vitally interested in the moment; that is to say, time-servers.

Hon. John Morrisey is about the only member of the cabinet of being returned to power, its supporters will find it exceedingly difficult to persuade the people that they have no future interest in federal issues—such, for instance, as reciprocity. Mr. Fleming has recently pledged his administration to all in its power to bring new settlers to the province; and incidentally gives a very effective illustration of the federalism—his inability to foresee consequences. In view of his action during the federal campaign, his effects of interest in federal issues, is to say the least, decidedly impolitic.

Immigration means increased production of farm products, and increased production must emphasize, as nothing else could, the need of reciprocity. A government whose members oppose a policy designed to provide the farmers with a larger outlet for their products, and at the same time encourage a movement designed to increase the number of farmers, can be expected to retain the confidence of the people.

Mr. Fleming may not be able to see the inconsistency of his present interest in immigration, but it will be surprising if the shrewd native farmers do not call his attention to the fact that a government which seeks to encourage increased production is morally bound to support a movement to provide larger markets.

How Mr. Fleming can hope to remove provincial politics out of all relation to federal issues while he is working out the policy, the effect of which must be to emphasize the importance of the greatest of federal issues—reciprocity is hard to understand.

Of one thing we may rest assured and that is that—however desirable increased immigration may be—the government which seeks to bring in new farmers while doing nothing to provide larger markets, is likely to lose the support of the native farmers, whose interests do not lie in the direction of increased competition in their present restricted markets.

The new map of Rockwood and Highland Parks, prepared by G. G. Murdoch, Esq., was laid on the table and very favorably commented on. The only change recommended was the naming of one of the roadways Daniel drive instead of Deer drive, and an order was passed to have several copies of the map struck off with this change for the use of the tourist association and board of trade.

It was reported that application had been made to the St. John's Railway Commission, for a quantity of trout to be placed in Lily Lake and that the order was passed to have several copies of the map struck off with this change for the use of the tourist association and board of trade.

Notes of thanks were passed to G. S. Fisher, chairman of the construction committee.

STREET RAILWAY TO ROCKWOOD

Horticultural Association to Urge it—May Have Tea Houses Open on Sundays

The desirability of having the street railway extended to Rockwood park was strongly urged at the annual meeting of the Horticultural Association yesterday afternoon, and a committee was appointed to interview the directors of the company with the object of having the extension made during the present season.

Satisfaction was expressed by the members of the association that the public had not abused the privilege allowed them of fishing from the shores of Lily Lake, and it was decided to extend the privilege another year. The matter of opening the tea houses in the park on Sunday was also discussed, and left with the horticultural committee, with power to act. Certain repairs to property were left to the discretion of the construction committee.

The new map of Rockwood and Highland Parks, prepared by G. G. Murdoch, Esq., was laid on the table and very favorably commented on. The only change recommended was the naming of one of the roadways Daniel drive instead of Deer drive, and an order was passed to have several copies of the map struck off with this change for the use of the tourist association and board of trade.

THE PROPOSED NEW BRIDGE

Colonel H. H. McLean interviewed Premier Fleming yesterday with regard to the proposed bridge across the falls. It is said that the St. John's Railway Company has offered to pay a yearly rental of \$4,000 and contribute to the maintenance of the bridge.

The government's reply will be considered at a meeting of the directors on Monday next, when it is expected that a definite announcement may be made.

WAS TERRIBLY NERVOUS.

Wherever there are people who are troubled with deranged nerves they will find that Milburn's Heart and Nerve Pills will restore the equilibrium of these deranged centres, and bring back the shattered nervous system to a perfect condition.

Miss Emma Reed, Laskay, Ont., writes:—"I have great pleasure in writing to tell you about the great benefit I have received by using your Milburn's Heart and Nerve Pills. About a year ago I was very badly run down and could hardly do my work. I tried different medicines but none of them did me any good. I was terribly nervous, and would start at the least noise, and even start in my sleep, which made me very weak. I used two boxes of your pills and I am now well and strong again."

Milburn's Heart and Nerve Pills are 50 cents per box, or 3 boxes for \$1.25. For sale at all dealers, or will be mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

GOURMET PAYING ITS DEBT TO MANUFACTURERS

Huth Guthrie Hits Hard on the Tariff Commission Legislation—Nationalists' Navy Move

Ottawa, Feb. 7.—The debate on the proposal for a Canadian tariff commission was commenced in parliament today and will go on tomorrow. Hon. Mr. White, in moving the second reading of the bill to create the tariff board, informed the house that the legislation was largely based upon that of the United States, under which the president was authorized to employ a tariff commission for defined purposes.

He denied that the government proposed to delegate the function of making tariffs to the commission, and defined the duties of the board as a quest for information, upon which the minister of finance and government would act.

"In bringing down this measure," said Mr. White, "I do not wish it to be implied that the government has modified its policy of reasonable and adequate protection for the industries of this country."

He is not a believer in high protection himself, but I am a believer in reasonable protection for the development and building up of the resources of the country."

Mr. Guthrie followed. He challenged the minister of finance to give a single instance of demand or request on the part of the government for this action. Only one body had called for it, and called loudly, the Canadian Manufacturers' Association.

Mr. Guthrie pointed out that it was significant that the first measure of any importance or magnitude to be handled by the new finance minister was one borrowed on this statement, from the highest protective country in the world, the United States.

"The doctrine of 'let well enough alone' might be applied for a time in this case. He moved a six months' hoist."

Ottawa, Feb. 7.—A resolution calling for repeal of Canada's Navy act was filed today by Albert Levison, M. P. for Dorchester, Quebec. He takes the ground that the naval policy is a hasty and ill-considered scheme which was not put before the people; that it involves the creation of a naval force which will be utterly useless in war and of no benefit to Canada or the empire; that construction and equipment would require an immense sum, and that needless sacrifice of life would result in the event of war, without helping the empire's fighting force.

Being a private resolution, it is not likely to be reached this session, unless with the express permission of the government. There are no more private members days this session.

Bear your own misfortune with half the resignation you bear other people's and you will be happy all the time. It is so easy to tell other people how to be heroic, and so difficult to be courageous ourselves.

Household Economy

How to Have the Best Cough Syrup and Save \$2. by Making It at Home.

Cough medicines, as a rule, contain a large quantity of plain syrup. If you take two cups of granulated sugar, add one cup of warm water and stir about 3 minutes, you have as good syrup as money could buy.

If you will then put 2½ ounces of Pinex (50 cents worth) in a 16-ounce bottle, and fill it up with the Sugar Syrup, you will have as much good syrup as you could buy ready made for \$1.00. It keeps perfectly. Any housewife can easily prepare it in five minutes.

And you will find it the best cough syrup you ever used—even in whooping cough. You can feel it take hold—usually it stops the most severe cough in 24 hours. It is just laxative enough, has a good tonic effect, and taste is pleasant. Take a teaspoonful every one, two or three hours.

It is a splendid remedy, too, for whooping cough, croup, hoarseness, asthma, chest pains, etc.

Pinex is the most valuable concentrated compound of Norway white pine extract, rich in quinine and all the healing pine elements. No other preparation will work in this form.

This recipe for making cough remedy with Pinex and Sugar Syrup is now used, and printed in thousands of homes in the United States and Canada. The plan has often been imitated, but never successfully.

A guarantee of absolute satisfaction or money promptly refunded goes with this recipe. If the genuine Pinex is used. Your druggist has Pinex, or will get it for you, if you ask him. If not, send to The Pinex Co., Toronto, Ont.
