PLAQUE AT HONOLULU.

Thirty-Eight Persons Had Died When the Miowera Sailed for This Port Town Pauc Stricken.

According to advices received by the steamer Miowera, which arrived this morning from the South Seas, the plague at Honolulu is assuming far more serious dimensions than it was ever dreaded of.

The people of the town of Hilo, which was stricken by the plague, are becoming serious in regard to the food supply.

The steamer Torihime Maru arrived when the Miowera was in port with over five hundred on board. This crowd increased the horde at quarantine to nearly four thousand.

Mr. R. Seabrook did not return from the islands by the Miowera. It is expected he will return via San Francisco, as steamers are carrying passengers to land there, threatening to drive them back by force of arms should they attempt to come in.

Steaming is still arriving from Japan with full loads of Japanese immigrants, and the throng at the quarantine stations is growing to enormous proportions.

B.B.B. A Great Healer.

If you've never applied Burdock Blood Bitters to a cut or wound, sore or ulcer, just try it and see what soothing, healing, cleansing power it possesses.

It takes out itching, stinging and burning, and promotes the growth of healthy flesh. So, too, when taken internally, by its power of eliminating all impurities from the blood and making that vital fluid rich, red and pure, it cuts off the origin and source of the foul matter that goes to make boils, pimples, sores, ulcers, eruptions, cancers, tumors and the like, and at the same time the purified and enriched blood creates healthy tissue where there was formerly, perhaps, a suppurating sore.

Mrs. J. H. Davis, Sydney, Man., writes: "I used Burdock Blood Bitters for a running sore on my ankle, which began to spread until I could hardly walk. I applied some of the B.B.B. to the sore as well as took it internally, and by the time I had finished two bottles the sore had healed up and my ankle got perfectly well."

GERMAN NAVAL BILL. (Associated Press.)

Berlin, Jan. 25.—The Bundesrath today adopted the naval bill. The measure provides for the doubling of the present number of battleships and the construction of six large and seven small additional cruisers. The expenditure will be annually provided for in the estimates. The preamble anticipates that the scheme will be completed by 1916, at an annual increase of the expenditure of eleven million marks, which sum is to be raised by loans without fresh taxation.

TO THE PUBLIC. I want to let the people who suffer from rheumatism and sciatica know that Chamberlain's Pain Balm relieved me after a number of other medicines and a doctor had failed. It is the best I have ever known of. J. A. Dodgen, Alhambra, Ga. Thousands have been cured of rheumatism by this remedy. One application relieves the pain. STRONG NERVES. Are Sure Indications of Good Health and Vigor.

Paine's Celery Compound. Builds Up the Nerves, Flesh, Bones and Muscles.

It is a Balm to Men and Women of All Ranks and Conditions.

Our Ablest Physicians Recommend Paine's Celery Compound.

Well braced and steady nerves, strength of body and a vigorous constitution are bestowed without fail by Paine's Celery Compound on all men and women who are run-down, weak, nervous and sleepless.

While the great majority of medicines tend to lower vitality and weaken the system, Paine's Celery Compound commences to impart strength from the first dose. The nerves and muscles are fortified, the blood is made pure and rich, and flesh is built up. These improved conditions give regular action to the stomach, liver and kidneys.

Sweet sleep, perfect appetite, sound health, and long years will be your portion after being made well by Paine's Celery Compound. Ask your druggist for "Paine's"; never take a substitute.

—Rev. W. D. Barber will (D.V.) officiate at the service at St. Mary's church, Metochian, at 2:45 p.m. on Sunday next.

MOTHER AND SON SAVED. Catarrh Had Plunged Them, But Dr. Agnew's Catarrhal Powder Out the Corps and Freed Them From the Disease.

Mrs. W. A. Steele, 24 Inkerman street, Toronto, says: "For months and months I suffered torments from pain in my head, caused by acute chronic catarrh. I used Dr. Agnew's Catarrhal Powder and found it a perfect specific. My son was also a victim of this malady for three years and suffered a great deal. Doctors could not cure him, but one application of Dr. Agnew's Catarrhal Powder gave him great relief, and it cured him in an incredibly short time."

A SOOKE FARMER.

THE KITIMAAT LAND GRANT.

To the Editor: I see that some interest is being taken in the development of the northern part of the province, in this particular instance, the opening up of the Omineca district by means of a wagon road. At the last meeting of the B. C. Board of Trade two routes to Omineca were discussed, viz., via Ashcroft and via Skeena river, resulting in the board declaring in favor of the route by way of the Kitimaat valley and the Skeena.

As there is an application before the legislature for the incorporation of a company for the purpose of making a wagon road from the head of Kitimaat Arm to Hazelton, a distance estimated at 100 to 120 miles, for which a bonus of 30,000 acres of land is asked, I thought it would not be out of place at this time to give a few ideas on this land subsidy.

As many of your readers may not know the geographical position of Kitimaat, it may be as well to give its location. The mouth of the Kitimaat river is on the 54th parallel of latitude, at the head of Douglas Channel and Kitimaat Arm, thus placing it near the middle of the coast line. It is the only feasible route, at a comparatively small expense, for a railway through the Coast range.

Tributary to this valley are the mining districts of Omineca and Cassiar, with the possibility of a railroad to Lake Bennett. It will likely in a few years be the terminus of a transcontinental railroad and should get a large share of Oriental trade, being, I should estimate, one day nearer Japan than Vancouver.

There is an abundance of timber and good agricultural land, and the halibut fishery is only 50 or 60 miles away, which would mean quite a lot of trade in fish for the Eastern markets. Another thing to be considered is that there is a plentiful supply of good water, in fact, there are all the elements necessary for the building up of an immense terminal city.

There is at present a reserve placed on the valley and land adjacent. This, I suppose, to keep out speculators, but as I have not the ear of the government I cannot tell how the speculators are to be kept out. If the land is sold and taxed in accordance with the current policy it is impossible to stop speculation; the only way to do that is to take the full ground rent and apply it to all purposes of public benefit for education, transportation, water works, telephones and other objects of community ownership.

Here we have a company asking 30,000 acres in this valley. Nobody expects them to pick their land anywhere except on the coast line, where it is most valuable. Mr. Clifford, member for Cassiar, in speaking on Wednesday in the House, said that the land was not worth more than \$2 an acre, while the company offered to pay a value of \$4 an acre for it, that is, by making a road to cost \$120,000. This, to a superficial observer, would seem a generous offer, but we have had many examples of disinterestedness such as the valley and I want to bring this matter to the notice of the people of this province, for in a few

years those thirty thousand acres will be worth millions of dollars.

Now, this is the finest proposition in British Columbia or on the continent of North America for government ownership, as the ground rent will at all times keep up with the demands for public improvements. If the government lets this land get into private hands, the people hereafter living at Kitimaat will have to pay dearly for their right to live there, as is the case in all big towns or cities.

I should like to see some protest made against the alienation of public lands. If the various trades councils and others interested in the public welfare would get together and discuss this matter they might show the government that propositions of this sort would not do in these days. J. B. MEROBER. Nanaimo, Jan. 19.
