JAPAN ACHIEVED OBJECT OF WAR

FINANCIAL EXPERT ON CONDITIONS OF PEACE

To Fight For Pecuniary Consideration Would Not Have Been Worthy of the Nation.

London, Aug. 31 .- M. Korietiyo Takahashi, the financial commissioner of Japan, in an interview to-day said:

"The Japanese government in prose cuting the war never had in mind the question of having to depend upon an ndemnity. The government had prepared itself for an emergency and at the resent moment there is no less than \$175,000,000 untouched in London, Germany and the United States. This being the case I see no necessity for the issue of a new loan. Had peace not been concluded, my government at Tokio would conclusion of the war, which they hope will be followed by a concerted effort at which Mr. Ross says will have a disashave raised an internal loan of \$100,000,-000 for the further prosecution of the war. This was the plan of the government at the time the conference met. I consider that the present resources of The Subway Tavern, Which Was Dedi-Japan are ample for clearing up the war and meeting the incidental expenses thereby involved, so if Japan has in view a new plan for the issue of a fresh loan, it will be for the purpose of converting revious loans bearing higher interest. have not heard that my government has

any such intention."
When questioned regarding the conditions of peace, M. Takahashi continued: "All far-seeing Japanese will hail with atisfaction the conclusion of peace, although there must be a feeling of general regret that Russia did not display a more reasonable attitude in recognizing that Japan's terms were not only reasonable but very moderate in the circumstances. All Japanese who take a broad-minded view of the situation must recognize that the decision of our Emperor was the wisest possible. Had the government insisted on an indemnity it is clear that the war would have conpatched-up peace or that fresh conflicts are liable to ensue; such a contingency has been amply provided for in the new

Anglo-Japanese alliance."

M. Takahashi looks for one of the earliset developments in the Far East in the education of China by western methods which has already commenced. THE CZAR THANKS

PRESIDENT ROOSEVELT. Oyster Bay, Aug. C1. Emperor Nicholas of Russia has recognized part which President Roosevelt played in the final negotiations for peace. A cablegram received by the President today from the Emperor reads:

Peterhof, Alexander, Aug. 31st. President Roosevelt:-Accept my con gratualtions and earnest thanks for having brought the peace negotiations to a essful conclusion, owing to your onal, energetic efforts. My country will gratefully recognize the great part
you have played in the Portsmouth peace

(Signed) NICHOLAS. GENERAL TREPOFF

asked for his opinion on the peace conditions. The general, who with M. Witte, is the man of the hour in Russia and as assistant minister of the interior, is more thoroughly in touch with the actual sentiment and situation throughut the empire than any other Russian, "Still, speaking personally, I added: neider Russia by the terms of peace. obtained more than she could have atained by prolonging the war, especially since without a fleet she would be unable, no matter how victorious she might be on land, to attack the Japanese at nome or re-take the island of Sakhalien." It was obvious, he continued, that the Russian plenipotentiaries had scored a diplomatic success, and he had no criti-

cism of the terms in any particular. Speaking further of the effect of peace on the internal situation, Gen. Trepoff maintained that the conditions were by no means serious or critical. "The foreign press," he said, "is mistaken in supthere is a revolution in Rus sia. It is true that in Poland, the Baltic provinces and elsewhere there have been disorders, and in Coursland the situation is serious. But there is no revolution. The disorders are only the sporadic work of revolutionists who will be

satisfied with nothing but the overthrow of the state." The return of the army from Manchu ria, according to Gen. Trepoff, offered no ground for apprehension. It will be necessary for a large part of the army to remain permanently in the Far East and the home-coming of the others will be a matter of many months.

'It took a year and a half," continued the general, "to get the present force to Manchuria. The troops will be equally long in returning. Naturally peace made at this time when it was believed in the army that they stood on the eve of victory, will cause bitterness for a moment, but this will wear away under pleasure of getting home."

Passing to the subject of the national and the coming elections, Gen. Tretoff said one of the great causes of satisfaction was soon removed and a aw would speedily be issuable under which the people would be able to meet and discuss the candidates, their policies that there is a peculiar condition of the and other lawful objects.

THE PEACE ENVOYS REMAIN AT PORTSMOUTH.

Portsmouth, N. H., Aug. 31.-The summer guests at the Wentworth hotel

have assumed that the peace negotiations are practically over and they are leaving by every train. The plenipotentiaries, nowever, realize there are many important details yet to be decided and are re-maining in their rooms receiving and ending cablegrams. Dr. DeMartens and M. Dennison are for the time the main workers. They are framing the teraty and are calling to their assistance from time to time those delegates whose advice they need.

JAPANESE EXPERT

Has Been Studying Telephone and Telegraph Systems in Europe and America.

Rinji Nagayama, the expert in the ser-

vice of the Japanese government who has been studying the systems of Europe

and America as described in the Tin

a few evenings ago, has arrived at Vancouver and will leave for the Orient on one of the Empresses next Monday. "I arrived in London a year ago last January," Mr. Nagayama told the News-Advertiser, "and spent five months in the post office there. As you know there are telegraphs and telephones in connection with the post office service in England, and I was able to see just how the systems worked. I spent another month in France, one in Switzerland, six in Germany, one in Sweden and Norway, and then came back to England, where I put in another couple of months making further investigations. I have been about two months in the United States and Canada, and am going back to Japan with a large fund of information." It is to make the government-owned elegraph and telephone lines in Japan the best in the world that this expert has been sent to the great cities to ascertain the best points of all systems.

England, while the telephone is adapted established on this side of the Pacific ocean," he said, when asked concerning cated by the Japanese government. I had an excellent opportunity of observing the immense benefits of wireless tele between countries is much greater than

WITH DEEP INTEREST

sults of Canadian Observations of Yesterday's Eclipse.

(From Thursday's Daily.) Victorians will await reports of the to scientifically observe the solar eclipse resterday, with a great deal of interest. erican expedition that went to Algeria From what could be gathered from un-authoritative sources, however, it seems while the American, French and Italian contingents at Tripoli were equally suc-

SITUATION IN NORWAY.

Dr. Waldenstrom Says the Country Is Drifting Towards Formation of a Republic.

Chicago, Aug. 31 .- Dr. Waldenstrom one of the leading figures in Swedish politics, close friend of King Oscar, member of the Riksdag for 20 years ed Chicago yesterday for a brief stay. In an interview Dr. Waldenstrom asserted that Norway was drifting with apparent certainty toward the formation. of a republic. While Norway may get a king, his personal view was that the republicans, as against the friends of the monarchical idea, were gaining
