An Automatic Reed Organ.

"THE ORGUINETTE may now be called a celebrated instrument. In tone it is akin to the binet Organ, but the organ must be readingulated by an artist in order to produce music; the UNETTE is on the other hand entirely mechanical in its action, and at trifling expense it can be made furnish an unlimited supply of all kinds of music." Toronto Globe.

"THE ORGUINETTE is indeed a musical wonder. It is a unliniture reed organ, with as stror develocities a tone as the Cabinet Size. It surpasses the Cabinet Organ, for the reason that it for a music can play it as well as the most accomplished professor. THE ORGUINETTE ong and accurate in its mechanism, and consequently not liable to get out of order." - Montrewite.
