Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situated. ### Social Life in Italy

No matter how poor a fashionable Italian family may be, no outward sign of their lack of means will ever be observable. They may live in the meanest of apartments, they may even go without proper food, but they will always appear in expensive clothing, the head of the house will frequent the most fashionable cafes, and when milady shows herself in the park in the afternoon it is in her own carriage with two smartly liveried servants on a box.

If a woman of position cannot afford a carriage she will remain at home. The Italian's object in owning a carriage is not so much the convenience of getting about as the necessity for showing oneself in the park at a fashionable hour.

The Italian cares little for the comfort or beauty of his home.

A large part of his life is passed out of his house, on the streets, at the cafe, the club, or the theater, and hence he has slight inclination to spend either time or money in making his home comfortable or pleasant.

### Do Your Ears Ring?

This is the beginning of Chronic Catarrh. If not checked, the result is deafness. A simple remedy that many physicians advise is to slowly inhale "Catarrhozone" a few times each day. The soothing vapor of Catarrhozone cures the Catarrhal condition and hearing improves at once. Head noises, buzzing ears are cured. For Catarrhal deafness, throat, nose and lung catarrh there is probably no remedy so efficient.

### An official return recently issued by the Board of Trade shows that the total number of persons killed on railways in the United Kingdom in the course of public traffic during the whole year 1907 as reported to the Board of Trade was 1,117, showing a decrease of 52 compared with the previous year, and the number injured 8,794, an increase of 1,582. The number of passengers killed was 120, a decrease of 46 compared with the preceding year, and the number of passengers injured was 3,653, an increase of 83. With regard to the servants of railway companies or contractors, the number killed was 454, an increase of 16 and the number injured 5,804, an increase of 1,439. Trespassers (including suicides) accounted for 447 deaths, compared with 455 in the previous year, and 133 cases of injury, compared with 106.

### Wanted—A Boy

Wanted—A boy. A brave, courageous manly, hopeful boy; one who is not afraid of the truth; one who scorns a lie; one who hates deceit; one who loves his mother; one who does not know more than his parents; one who has the courage to say "no" and stick to it; one who is willing to begin at the bottom of the ladder and work upwards; one who thinks it unmanly to smoke; one who thinks an education is worth striving for; one who is willing to obey his superiors; one who knows his name is better than the street; one who doesn't believe the marvelous tales told in the story papers, and will not read the vile stuff; one who won't cheat in a fair game; one who won't be a sneak, and do a mean act when unseen; one who won't spend every penny he earns or gets; one who keeps himself in decent appearance; one who doesn't want to attack an old man because he is feeble and defenceless; one who won't torture dumb animals; one who won't steal; one who won't swear; one who won't listen to or repeat nasty stories; one who won't revile and jeer at drunken persons on the street; one who won't do a dirty act for another boy who is too cowardly to do his own meanness; one who loves to do right because it is right. Wanted—a boy; a whole-souled, earnest, honorable, square boy. Where can he be found? Does he live in your neighborhood? Is he a member of your family? Do you know him?

### Your Nerves Are Weak.

When night comes refreshing sleep is hard to obtain. You're run down, your blood is thin and watery, your nerves have grown weak, the thought of effort wears you. You need Ferrazone; it makes blood—red, strong blood. An Appetite? You'll eat everything and digest it too. Strength? That's what plenty of food gives. Ferrazone gives hope, vigor, vim, endurance. Use Ferrazone and get strong. Results are quick—care is lasting. All dealers in Soc. boxes.

### An Ideal House

The ideal twentieth century home has just been completed at Carrollton, Ill., says the Cement Age. The house is constructed of concrete and there is not a sign of a chimney, although the building is supplied with an abundance of artificial light and heat. Neither is there any fire in the house, nor coal, nor ashes, nor dangerous gases. While this wonderful residence is the first of its kind in the world, it is beyond a doubt a good example of what the average American home will be in a few years from now when both wood and coal have become too expensive for common use. This model home is two stories high, with attic, and basement, and has eight rooms on the main floors.

### It Wasn't

The customs of military service require officers to visit the kitchens during cooking hours to see that the soldiers' food is properly prepared. One old colonel, who let it be pretty generally known that his orders must be obeyed without question or explanation, once stopped two soldiers who were carrying a soap kettle out of a kitchen. "Here, you," he growled, "give me a taste of that." One of the soldiers ran and fetched a

### The Value of Education

The president of the minor colleges was sauntering down a shady lane one day in the early summer when he met a tall handsome youth.

This youth had just been graduated. He was very poor and very intelligent. In all his courses he had taken honors, and in athletics also great honors had been his.

"Well, Allen," said the president, "through at last, eh?"

"Yes, sir," said the young man, smiling and blushing.

"And now what are you going to do?"

"I hardly know yet, sir, I have had to offer."

"Two? Wonderful!"

Yes, sir. One is from a scientific society offering me a secretaryship at \$5 a week and the other is from a baseball magnate offering a five years' contract to pitch at \$5,000 a season—Philadelphia Public Ledger.

### Remember in Cooking

#### Vegetables

That most vegetables should be put on to cook in freshly boiling water.

That salt should be added when they are about two-thirds done.

That lying in very cold water for an hour or more will partially restore to wilted vegetables quality and freshness.

That every green vegetable should be cooked rapidly and uncovered, to retain its color.

That if the water is very hard, a tiny bit of soda added, no larger than a pea, will make the vegetables cooked in it tender and of better color. Ordinary water does not require such addition.

That when salt water is used the salt must be in from the first to prevent loss of flavor and substance.

That cooking a vegetable after it is done toughens, darkens and detracts from its flavor.

That the best dressing for vegetables at their perfection is butter, pepper and salt—canniflower and, perhaps, asparagus excepted.

That older or staler vegetables are improved by a cream or butter sauce—the basis for the latter being the reduced liquid left when the cooking is finished.

### Crossing Bridges

No doubt that bridge will be safe and strong.

When you reach it, so do not fear, just keep up your smiles, and the cherry song.

It will carry you over, my dear.

Beyond, it is fair and clear.

And enjoy the trees and flowers gay.

That bloom on your path my dear,

For the thought will come with a thrill of pain,

That we 'may not pass this way again.' But stop if you meet with a burdened soul

And give just a word of cheer.

While looking above to the final goal.

Help others to reach it, my dear, And who can tell? That "bridge" may be A blessing disguised both for you and me.
