

INSTRUCTIONS FOR KEEPING A TROUSERS

In the case of a pair of trousers, the most important thing to remember is to keep them clean and dry. Wash them in cold water with a mild soap, and hang them to dry in a well-ventilated place. Do not use a clothes line, as this will stretch the fabric. Iron them while they are still slightly damp, and use a steam iron. Store them in a cool, dry place, and avoid hanging them in a wardrobe for long periods of time.
