

Many women find Pyle's Pearlline

responsible for washing dishes, windows, carpets, clean-
se, etc., etc., but because of its wonderful cleansing
qualities are afraid to have their clothes washed with it.
Well, in the past ten years the consumption of Pearlline has
exceeded 150,000,000 packages, and no complaints, but
numerous letters praising it. Why, because PEARLINE
is absolutely harmless in its place, and one of the best
places to put it is in the wash tub. You can soak your
finest linens and laces in Pearlline and water for a month
with perfect safety. That's as much Pearlline as they would
get if they were washed in it once a week for twenty years.
We could not afford to spend our time and money in telling
the public, through the newspapers, a single thing about
Pearline that would not stand the test; and the sooner you
test it, the sooner you'll know that PEARLINE will do
more than we claim for it. It is as pure and harmless as the
finest imported castile soap. It's success has brought out
many dangerous imitations. Beware of them. JAMES PYLE, New York.

Men may come and men may go, but
human needs remain unchanged. The Peti-
tions of St. James Halls, with 113 mem-
bers of London, in the year 1719, for in-
corporation as a life insurance company,
tersely states why every business man to-
day should be insured in the Dominion
Safety Fund Life Association.

That it would also be serviceable to his
Majesty's subjects, could they safely and
securely insure upon their lives; which
would encourage merchants to be more
bold in their undertakings, because, in case
of death before their schemes in trade suc-
ceeded, their widows and families might
thereby receive a benefit, and be enabled
to recompense the failure of such, their
undertakings.

To Cure a Corn

There is no lack of so-called cures for the
common ailment known as corns. They are
gettable, animal, and mineral kingdoms have
been ransacked for cures. It is a simple mat-
ter to remove corns without pain, for if you
will go to any druggist or medicine dealer
and buy a bottle of Putnam's Painless Corn
Extricator and apply it as directed the
thing is done. Get "Putnam's," and no
other.

GOOD BLOOD MAKES OR GOOD DIRECTION.

Many die because they are not nourished
by the food they eat, eating yet starving.
Bad blood shows itself in pimples, eruptions
or sores, blotches, sallow skin,
langor and a feeling of uselessness.
Waste renders the blood impure tends
to originate consumption. There can be no
heartiness of spirit, no roundness of mind
with thin or diseased blood. Something
must be done when the system is in such a
state. A cure is required, and one that
works quickly and effectively is the cure
that is most required. For making new
healthy blood for sick headaches, wasteful
and restless nights, that tired feeling, poor
appetite, mental depression and kidney
trouble, nothing has been discovered that
is quite so good as Dr. J. C. Lloyd's Liquid Food.

Livingston, author of "A Christian's Duty."

country has done more by her writings to
help cheer, ennoble and purify the world
than any other woman. Her earnestness and
zeal are magnetic, and people who do not

attracted with her bright, strong, helpful
stories.

To thousands of poor, lowly, young and
old, her books have been an inspiration, and
in many a home her name is a household
word. The devotion, the sympathy, the
"Pansy's" own eye, will prove a treasure to
