

The Swift Current Sub-Division Badminton Club is progressing well, most of the personnel of the Sub-Div. Detachment and Headquarters staff being members. A splendid afternoon was spent in this connection when members of the Club were invited to attend the opening game and tea of the Elks Badminton Club of Swift Current. Members of the police club acquitted themselves very well during the afternoon's play.

As has been done in several years past, the Detachment and Sub-Division H.Q. members at Weyburn intend to enter a Curling Team in the Weyburn Curling Club this coming season. A good winter's sport is looked forward to.

During October, 1936, Lieutenant-General Sir Archibald Cameron Macdonell, K.C.B., C.M.G., D.S.O., visited at Prince Albert and North Battleford where he renewed many old acquaintances. It was, as he described it, his last visit to the West.

### **"H" Division**

The Annual General Meeting of our Sports Club was held on October 28th. The By-Laws of the Club were amended to conform with R. & R. New officers were elected and a programme of winter activities was decided upon.

In the line of sports we will again be supporting hockey, bowling and indoor baseball, as well as miniature rifle shooting. The hockey team has been entered in two leagues—Garrison and Commercial. Entry in the Commercial League is a new venture and the progress of our team will be watched with interest. Games in this League are played in the evening and as it is one of the two senior circuits in the city we expect keen competition. We have two wins in the Garrison League trophies and as three give us permanent possession, the team is determined to repeat its victories of past seasons. The calibre of hockey in this League is improving from year to year. The games are played on Monday and Wednesday afternoons.

A six-team bowling league has got underway and appears to be popular though at present there is some difficulty in getting full teams as many Marine Section men are still at sea.

We have again entered indoor rifle teams in the Garrison Rifle League, as well as the D.C.R.A. and Dominion Marksmen Competitions. Two major trophies were annexed in the Garrison League last winter and our "sharpshooters" will have to defend these cups this season.

The Club has also decided on holding at least three smokers and one dance during the winter.

### **"J" Division**

The opening dance of the season was held during the month of October. It was largely attended in spite of inclement weather, and was a huge success. We had as guests on this occasion Supt. T. V. Sandys-Wunsch, S/Sergt. Pavely, and S/Sergt. Kent, of the Headquarters Audit Staff. The dance committee, under the direction of S/Sergt. Allan, has full charge; they are past masters in the art of providing wholesome enjoyment of this kind with the result that everything goes forward with a swing. As a means to an end, a "Paul Jones" is danced early in the programme so that the strangers and others afflicted with shyness lose that handicap to real pleasure quite soon, and so enjoy to the fullest extent the excellent entertainment provided for them. A peculiar thing about our dances is the fact that those attending are of one mind on leaving the Hall, and their thoughts are expressed in the words, "When is the next?" It is hoped they can be held monthly from now on.

The Badminton season officially opened about the beginning of October. The games are well attended and members are getting themselves into shape for tournament play. Arrangements for inter-club competition are under consideration by
