

The Egg Yield Depends Upon YOU!

IF you want more eggs this fall and winter—if you want your birds to beat their former records—feed NOW for eggs.

You can keep your hens' digestive organs toned up with "Pratts" Poultry Regulator. Keeps the fowls active and healthy, starts them laying heavily and keeps them laying all winter. One cent a day feeds 30 hens. You can lower the cost of feeding by adding "Pratts" Poultry Regulator to the ration, because it enables the fowls to extract every particle of nutriment from their feed. Start your pullets laying before winter sets in and be sure of plenty of eggs for the high November and December prices.

Pratts Poultry Regulator acts gently but directly on the digestive organs, tones up the entire system, and keeps disease away.

Anyone can see why it increases egg production. The herbs, seeds, and other food elements that birds get in foraging over wild lands are necessary to their perfect health. Pratts Poultry Regulator supplies them in just the right proportions, and the results are at once shown in improved health and heavy egg production. NOW is the time to start. Don't wait until November.

WRITE for the free advice of our experts when in doubt. The Pratt Experiment Station on our 100-acre farm is maintained for the sole purpose of studying and solving every possible poultry problem.

Pratts POULTRY REGULATOR

is sold under a positive GUARANTEE of *Absolute Satisfaction or Money Back*. The one preparation which has stood the test of 45 years of continuous use, always giving satisfaction and never injuring the fowls.

At your Dealer's—25c, 50c and \$1.00 pkgs.; 12-lb. pails, \$1.25; 25-lb. pails, \$2.50; 100-lb. bags, \$9.00.

Pratts Poultry Disinfectant

is the safest and most economical liquid disinfectant and exterminator on the market. Kills all manner of disease germs and keeps down bad odors. Use it for spraying walls, perches, dropping boards and runways. Will protect your flock from lice and mites and keep the poultry house clean and sanitary. At your Dealer's, 50c qt.; \$1.50 gal.

Pratts Roup Remedy

will cure even an advanced case of Roup, and may be safely used as a preventive for the protection of healthy birds in damp weather. It is quickly taken up by the blood, and, in bad cases of roup, it allays the inflammation and reduces the fever. Keep it on hand for use in damp weather. At your Dealer's in powder or tablet form, 25c and 50c a box.

A PRATT REMEDY FOR EVERY COMMON AILMENT

When in trouble, REMEMBER—there is a Pratt Remedy for every common ailment. Keep a supply on hand in case of necessity. We authorize our dealers to refund your money if you are not absolutely satisfied, so you take no risk whatever when you buy Pratt Preparations.
