THE CROPS

The wet weather has probably prevented many farmers from planting all the corn and beans planenemy dead and wounded were lying all around us, as also many of our own brave lads. Early tomatoes are doing nicely, and there will be more grown than usual in both town and country. Many growers are through with the third spraying. small fruits are described as being very promising.

Live Stock

Live Stock

All classes of farm stock are in good general condition. The market for horses is improving, as they are not so plentiful, owing to the heavy shipments to the West in the spring. Prices for cattle have had a downward tendency, beef animals selling at \$11.50 a cwt. and dry cows 1½ cents lower. Good grade milch cows, however, can still command \$100 for the dairy. Cattle on the grass are putting on flesh. Welland County reports Breeders' Clubs as exerting a most marked influence in encouraging farmers to take an interest in raising pure-bred stock.

Bacon hogs are a little down in value, although young pigs from six to eight weeks can hardly be got "at any reasonable price" as one "at any reasonable price" as one representative puts it.

The lush pastures are having a marked effect upon the milk flow, which was never fuller, taking the number of cows into consideration. 2,000 boxes of cheese were sold at Peterboro during the week for 20 % cents a pound, while over 21 cents a pound was offered in Frontenac County. Dundas County. reports that the price fixed for cheese at 21 % cents a pound f.o.b. Montreal, nets the producers only 20 ½ cents a pound or a trifle over.

Labor

Requests for help during the hoeing and harvests seasons are now being made to representatives, the enquiries for boys and men being about equally divided. Fruit and vegetable growers are also asking for assistance. The demand for help is being met in most cases,
