YESTERDAY'S BULGE AFFECTED LIV-ERPOOL - QUIET ADVANCES ON PRESENT NEED SALES - DECLINE TO-DAY.

Chicago, Sept. 7.

While appearances show considerable cash demand they exhibited also increase of offerings. The bulge of yesternay will likely dwindle away before the greater receipts ings. The bulge of yesterhay will likely dwindle away before the greater receipts Its temporary effect was obvious at Liverpool, where besides being 4 higher, wheat was steady. Holders of wheat act like a unit in their indifference to present offers. No large seller seems to be in doubt at all about the direction in which his interests lie, and as present need transactions are weekly reported on higher bases, he seems to be mainly in the right holding off. Buying for present needs requires constant renewal, and high values being begun will not be allowed to drop off very much. Openings today in Chicago were much the same in grains as yesterday's closing prices, and they seemed to be about to be followed by lower quotations than the opening. Provisions were from 3 to 5 ceats higher with no great demand or decided movement.

Liverpool wheat 4 higher, steady; corn 1 higher. Both were affected by American advices about yesterday's advance.

Received at Chicago today, 18,000 hogs; 6,000 cattle; 15,000 sheep. At Kansas, hogs, 3,000; cattle, 7,000. At Omaha, hogs 3,500; cattle, 4,500.

Primary receipts last week were 875,201; shipments, 268,724. At four ports receipts, 408,360; shipments, 526,114.

Of car lots, amounts received were: Wheat 152, shipments 81,052; corn 801, shipments 88,892; oats 355, shipments none.
