

# U of A First Again: School Of Phys Ed To Be Faculty

**THE GREAT LEAP FORWARD**—New and now on CFRN-TV, Steve Cox and Campus Comment will be starting TODAY. Campus Comment will be a portion of "Eye on Edmonton." 50,000 viewers can't be wrong. Steve, a third year Ed student is shown with Don Roman of Channel Three.

The University of Alberta is to have the first Faculty of Physical Education in the British Commonwealth. Effective April 1, 1964, the School of Physical Education will officially become a faculty.

The move to greater specialization in studies is hoped to attract extremely high calibre graduate students and undergraduates to the Edmonton campus.

According to Dr. M. L. Van Vliet, director of the School of Physical Education, the new faculty will be comparable to the best in the world.

**BEST STAFF**  
At present U of A has the largest number of specially trained staff of any physical education school in Canada. Of 28 staff members, five have PhD degrees, three more will receive theirs within 18 months, and 9 have Master's degrees.

Enrolled for the current academic year are 180 undergraduates, 25 full-time graduate students, and almost 2,000 first year students in the required physical education program.

Courses are offered in a Bachelor of Physical Education degree, a Bachelor of Arts in recreation leadership, and MA and MSc degrees in physical education.

Also, the School provides instruction in teaching methods in health and physical education for education students, conducts the required physical education course for first year

students, and administers and supervises all intramural and inter-collegiate sports. The new faculty will continue these activities.

**FITNESS RESEARCH SITE**

Recently recognized by the National Council on Fitness and Amateur Sport, this campus will be the site of a National Fitness Research Institute. Ultimately destined as an autonomous body carrying out research, it will be directed by the

Faculty of Physical Education in its first year of existence. Adult work capacity and general fitness will be emphasized.

Dr. Van Vliet and Dr. Max Howell recently returned from Europe where they investigated research in physical education and physical education programs in general on a Council Travel Fellowship. Personnel were interviewed at that time for the position of Director of the National Fitness Research Institute.

## Alabama Modifies Oath Restricting Student News

UNIVERSITY, Ala.—The University of Alabama has significantly modified the oath restricting all students from writing for news media on matters expressly concerning race relations.

Late last month, Mel Meyer, 1962-63 "editor of the year," was silenced by the oath he was forced to sign "under duress."

Restrictions presently are only in force prohibiting students from writing about Negro students on the campus or about applicants to the university.

Added to the revised pledge was the phrase, "No prohibition on writing herein contained apply to the Crimson-White, the student newspapers." This was simply by way of clarification since the paper had never refrained from printing racial news.

A university spokesman said that the change was made because "the greatest period of danger for the university is past." He added that they had adopted emergency measures because "we felt we were in an emergency."

## THREE DOORWAYS TO A REWARDING FUTURE

Here are three attractive plans that cater for the varying circumstances of young men interested in a career as a commissioned officer in the Canadian Army:

**1 THE REGULAR OFFICER TRAINING PLAN** — This is a tri-service plan under which high school graduates receive advanced education and leadership training at one of the Canadian Services Colleges or at a university to become officers in the Royal Canadian Navy, the Canadian Army or the Royal Canadian Air Force.

**2 THE CANADIAN OFFICERS TRAINING CORPS** — University undergraduates may obtain a commission by training during their spare time and summer holidays. They are paid for actual training time and, after graduation, may choose either full-time service in the Regular Army or part-time service in the Canadian Army Militia.

**3 MEDICAL AND DENTAL SUBSIDIZATION PLANS** — These are tri-service plans under which university students in medicine or dentistry can be subsidized during their course and become commissioned medical or dental officers in the Canadian Armed Forces after graduating and obtaining their licence to practise.

*You may obtain full information on any of these plans from the local Army Recruiting Station listed in your telephone book.*
