HERCULON

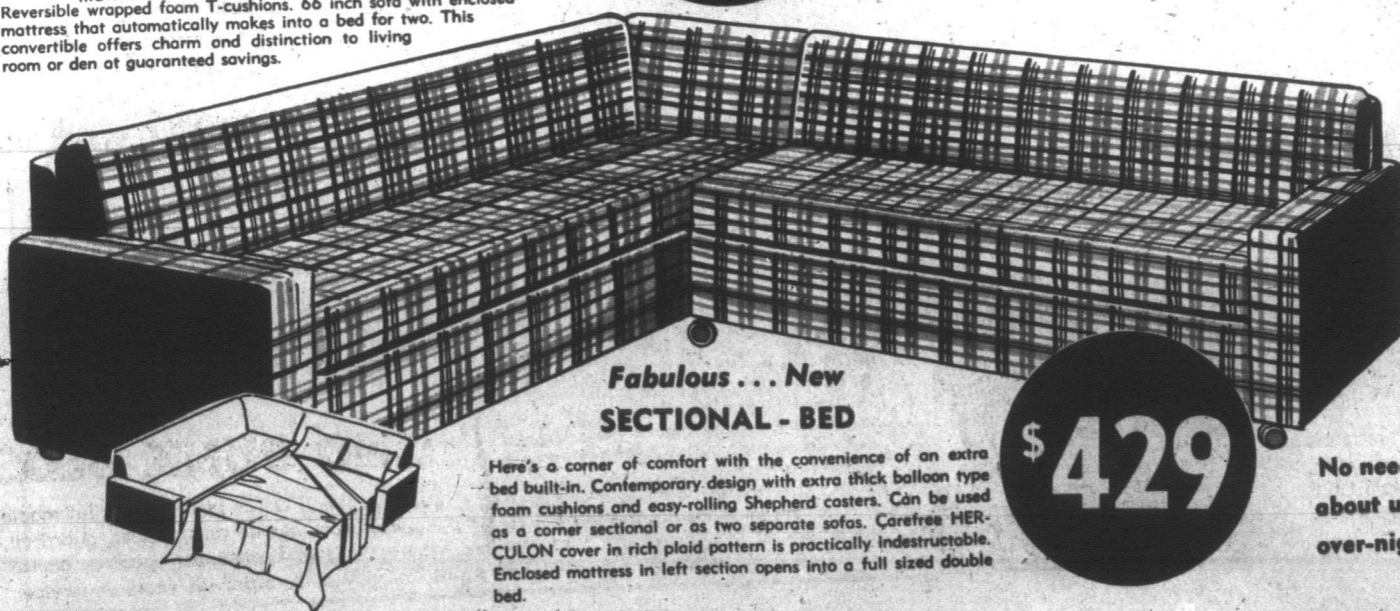

The first really new thing to come along in the furniture fashion field for some time. Most important is their unique ability to shed soil or stains. Herculon absorbs less than one-tenth of one per cent of moisture, less than any other fabric. Spills or stains don't penetrate . . . they stay on the surface where they can easily be blotted up. No stain-repellent coatings are required with Herculon . . . the stain release is built-in, not added on! *Herculon Reg. T.M.

SERTA EARLY AMERICAN
