

Manion at Exeter - Sept. 15th.

Conference -

Prediction that trade policies formed at the recent Imperial Conference would put Canadian agriculture back on its feet, and so benefit every part of the Dominion - "world betterment would result".

Admission - what helps agriculture will help Dominion.

Trade policies - what are they?

Are they higher tariffs - if so, we don't accept his view.

Are they lower tariffs - then why have we not had them for the past two years?

Why tariffs raised steadily since Dunning budget?

Why Dunning budget opposed in 1930?

How are they to be administered?

Have you faith in present Government?

Fixation of values by order-in-council,
by regulation.

Exchange, etc.

Predictions: What about the predictions of 1930?

Will blast a way into markets!

Britain was an open door - has he blasted in there?

What about markets of Europe - have they been made more or less accessible?
