The Whole Story in a Letter: Pain-Killer

From Capt. P. L. Lyle, Police Station No. 1,
Montreal: "I frequently use Perry's
Pain-Killer for pains in the stomach,
rheumatism, neuralgia, toothache, colds,
croup, and all affections which
behave in my position. I have no hesi-
tation in saying that Perry's Pain-Killer is the
best remedy I have ever used."
Used Internally and Externally.
Two sizes, 50c and 10c bottles.

The D.L. Emulsion of Cod Liver Oil Will GIVE YOU AN APPETITE! TONE YOUR NERVES! MAKE YOU STRONG!

Dr. Burgess, Med. Dir. of the Prov. Hospital for
Insane, Montreal, prescribes it constantly.
Miss Clark, Reg. Gen. Hospital, Toronto,
writes: "I have used it with the best results."
50c and \$1.00 Bottles.

A STRANGE CASE

A Woman Coughed Up a Spring and Suspenders Soap.

The case of Mrs. H. T. Smith, who six weeks ago coughed up the snap of a suspender and a week ago coughed up a spring coil, is a most peculiar one and has attracted the attention of medical men.

About five years ago Mrs. Smith, then Miss McHenry, thoughtlessly placed a snap off a pair of suspenders between her lips. Accidentally the piece of metal slipped down her throat and into the windpipe. Physicians declared that the snap would give her no trouble, as it had passed down her throat into the stomach.

In time she experienced trouble in her right bronchia, and was affected exactly as a person suffering from tuberculosis. The difficulty continued, and the afflicted woman was almost continuously under the care of a physician. During the latter part of October, while seized with a severe coughing spell, Mrs. Smith spat out the metal snap minus the brass spring. She improved immediately and has since increased in weight.

A short time ago Mrs. Smith was compelled to cough violently and felt a severe pain in her chest. Almost immediately she spat out the missing spring from the suspender snap. The spring was in the form of a coil about three-eighths of an inch long and an eighth in diameter, with a prong at each end.

Curious Features of Railroad Fatalities.
"There is hardly another calling," said a railway official, "so beset with danger and hardship as that of a brakeman on freight or coal trains, although the introduction of safety appliances and auxiliary brakes has greatly reduced the peril; and yet when a brakeman is killed on a railroad there will be a dozen applicants for his place as soon as the news of his death gets around. Every railroad has a small army of those eager applicants for the jobs of those hanging about its division yards and terminal stations. They are chiefly men who have followed railroad all their lives, and who have in some way lost their places. Railroad is a good deal like politics—if a man gets into it once he isn't worth a snap for anything else," and so, if he gets out of it, he is perpetually on the lookout for the opportunity that he believes must come for him to get in again.

"It would naturally seem that the new and inexperienced men who work on railroad trains would be the most likely to get injured, but statistics are to the contrary. They show that the largest average of injuries to trainmen occurs after the employee has been six years in the service, the evidence being that trainmen are careful of themselves up to their third or fourth year, because of fear or lack of confidence. Reading from the testimony of the figures, it would seem that then they regard themselves as being able to ignore danger, owing to their skill and alertness. It takes them two years to discover that such is not the case, if we may judge from the percentage of accidents that befall them, which in the sixth year is about 22, as against 9 1/2 per cent. in the first year. The trainmen, learning from experience, becomes careful again, and the percentage of men injured after the eighth year is in no instance shown to be more than 9 per cent. This would seem to indicate that it takes a trainman five years to forget fear and six years to learn wisdom."

Coughing Bean.
To the ordinary housemaid the fainting of a house plant into a violent paroxysm of coughing is naturally disconcerting. Yet there are plants which will do this when the broom or the duster begins to make dust fly. This singular plant is the "coughing bean," known to the botanist as the Eutadua tussio. It is a native of warm and moist tropical countries, and can not only stand dust. When dust settles on the breathing pores and the leaves of this plant and chokes them a gas accumulates inside the leaves, and when it gains sufficient strength forcibly "blows off," clearing the pores of dust and making a sound exactly like coughing. At the same time the leaves tremble and the plant actually "gets red in the face," through the sinking of the green chlorophyll grains and the appearance of red particles on the leaves. This plant is sometimes used as a house plant, and sweeping the room sets it coughing, to the intense astonishment of persons not familiar with its peculiarities.

There seems to be hardly a natural limit to the life of some kinds of fishes. There are in the royal aquarium in Russia several carp which are over 600 years old according to Professor Suetso, and he believes that the ordinary carp lives to at least 500 years if not interfered with. Ordinarily goldfish have been known to live for 100 years in the museum in Mannheim, Germany. In preserved the skeleton of a pike which was caught in 1497. It was nine feet long and weighed 360 pounds. In the gills was fixed a ring bearing this inscription in Greek: "I am the fish which was first of all put into this lake by the governor of the universe, Frederick II, the fifth of October, 1380. The pike was therefore at least 267 years old when caught."

"Mamma," queried five-year-old Harry, as they were returning home from church one Sabbath morning, "why do they play the organ so loud when church is over?"
After a few moments' serious thought the little fellow said: "I guess it must be to make the people up."

PATCHES OF RAW FLAMING FLESH.

Itching, Burning, Stinging
Eczema Can Always be
Cured By The Use Of
Dr. Chase's Ointment.

Only those who have endured the acute torture of eczema, salt rheum or similar skin disease and eruption can appreciate the wonderful relief which comes with the use of Dr. Chase's Ointment. It is impossible to describe the marvelous healing, soothing influence of this great standard remedy. You can judge of its extraordinary curative properties by the following cases:

Mrs. Ann McDonald Kingsville, Ont., states: "For about three years I was a dreadful sufferer from Eczema. At times the patches of raw, flaming flesh would extend from my waist to my neck and from the knees to the ankles. The intense itching almost drove me crazy, and though I tried all the local physicians, they could not even relieve the suffering. The flesh would crack open, and I don't believe any one ever suffered more than I did."
"I was told of Dr. Chase's Ointment, but did not believe that it could help me. After the fifth application of this preparation I began to feel the benefit of its soothing, healing effects, and now attribute a cure to the persistent use of this wonderful remedy. It is truly worth its weight in gold and in spite of the commending it to other sufferers."

Mr. J. H. Stevens, harnessmaker, Seaforth, Ont., writes: "At the age of three months my son Arnold was attacked by a bad eczema on his face, and in spite of all the doctors could do, he kept getting worse until his face was a mass of scabs and would ulcerate when he would scratch. It was terrible to see him suffer, but we tried everything until we were discouraged. Hearing of Dr. Chase's Ointment we got a box and applied it. At once the child was relieved and he slept. The first box brought him so much that we got two more, which completely cured him. At nine months his face was as well as could be. He is now fourteen months old and has a fine, clear skin and no trace of eczema."
Dr. Chase's Ointment is also prompt and effective as a treatment for itching and skin. 60 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.

Nubbins—Talking of matrimony, there are few persons who wed their ideal.
Stobbins—That's the reason, I suppose, why marriages are sometimes WHISKEY MEDICINES.

The temperance press is emphasizing the danger to the home in the use of "medicines" which are loaded with whiskey or alcohol. In this respect, as well as in the remarkable character of their cures, Dr. Pierce's medicines differ from other preparations. Dr. Pierce's Golden Medical Discovery and "Favorite Prescription" contain no alcohol, whiskey or other intoxicant, and are equally free from opium, cocaine and other narcotics. Every family should have a copy of the People's Common Sense Medical Adviser, sent absolutely free, on receipt of stamps to pay expense of mailing and customs. Send 31 one-cent stamps for the book in paper covers, or 50 stamps for cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

The prodigal son had to come to himself before he came to his father.
A BUILDER—Are You Losing Weight?—The D. & E. Emulsion will always help and build you up. Restores proper digestion and brings back health. Manufactured by the Davis & Lawrence Co., Ltd.

The people who sing the wrong stanza usually sing the loudest.
I was cured of terrible lumbago by MINARD'S LINIMENT.
REV. W. M. BROWN.
I was cured of bad case of Eczema by MINARD'S LINIMENT.
MRS. S. KAULBACH.
I was cured of sensitive lungs by MINARD'S LINIMENT.
MRS. S. MASTERS.

Blessed is he who cares naught for the opinion of his neighbors.
Advice to Mothers.
If your little boy or girl comes home with a sore throat, the first thing to do is to rub the throat and chest with Folsom's Nerveine. Don't be afraid to use Nerveine freely—a whole bottle wouldn't burn or blister the tenderest skin. Rub in until all taken up by the pores, and just before the child goes to sleep give him a glass of hot water into which 30 drops of Nerveine has previously been stirred. This is a sure, pleasant and speedy cure. Large bottles 25 cents.

The more a man studies himself the less fault he will find in his neighbor.
LOSS OF APPETITE.
Is commonly gradual one dish after another is set aside till few remain. These are not eaten with much relish, and are often so light as not to afford much nourishment. Loss of appetite is one of the first indications that the system is running down, and there is nothing else so good for it as Hood's Sarsaparilla—the best of all tonics.
Accept no substitute for Hood's.

The cultivation of the heart spares the cudgeling of the brains.
Ask for Minard's and take no other.

TROOPS ARE AFTER BANDITS

Surrounding of Miss Stone's Captors on Gueltepe has Been Started.

Brigades Are Believed to Be Getting Too Much News About the Ransom Fund.

Constantinople, Oct. 10.—The surrounding movements of Turkish and Bulgarian troops on the mountain Gueltepe, on the Turko-Bulgarian frontier, near Dubnitz, has commenced. The presence of Miss Stone and the bandits on the mountain is confirmed. The inhabitants of Dubnitz are supplying the outlaws with food.

Boston, Oct. 10.—It has been decided to give out no more statements of the condition of the fund for ransoming Miss Stone. It is the wish of the American board to avoid publicity as much as possible, feeling that the brigades are kept pretty well informed of affairs in America, and that the less they find out just now the better it will be for Miss Stone.

New York, Oct. 10.—Oscar S. Straus, formerly minister to Turkey, thinks that the abduction of Miss Stone should not be charged to the sultan or his government. Neither is he sure that the Bulgarian government is in any way implicated. He prefers to think that it was the work of irresponsible Bulgarian brigades, who were moved thereto solely by a ransom for ransom and who had no political end of any kind to serve by their nefarious actions. No sentence will be allowed to arise out of the incident in his opinion.

Montenegrins, believes that if rewards were placed on the heads of Miss Stone's captors, the heads would be forthcoming sooner or later.
FEARS FOR MISS STONE'S LIFE.
London, Oct. 10.—With reference to the announcement that Turkish and Bulgarian troops are surrounding the abductors of Miss Stone, the Globe says that it considers that unless the movement is suspended until the brigades are a trace of eczema.

London, Oct. 10.—With reference to the announcement that Turkish and Bulgarian troops are surrounding the abductors of Miss Stone, the Globe says that it considers that unless the movement is suspended until the brigades are a trace of eczema.

For the Children

To Keep Their Digestion Perfect
Nothing is so Safe and Pleasant as
Stuart's Dyspepsia Tablets.

Thousands of men and women have found Stuart's Dyspepsia Tablets the safest and most reliable preparation for any form of indigestion or stomach trouble.

Thousands of people who are not sick, but are well, and wish to keep well, take Stuart's Tablets after every meal to insure perfect digestion and avoid trouble.

But it is not generally known that the Tablets are just as good and whole some for little folks as for their elders. Little children who are pale, thin and have no appetite, or do not grow or thrive, should use the Tablets after eating, and they will derive great benefit from them.

Mrs. G. H. Crostley, 538 Washington St., Hoboken, New Jersey, writes: "Stuart's Dyspepsia Tablets just fill the bill for the children. As well as the old folks, I've had the best of luck with them. My three-year-old girl takes them as readily as candy. I have only to say 'tablets' and she drops everything else and runs for them."

A Buffalo mother a short time ago, who despaired of the life of her babe, was so delighted with the results from giving the child these tablets that she went before the notary public of Erie Co., N. Y., and made the following affidavit:

Gentlemen:—Stuart's Dyspepsia Tablets were recommended to me for my two-month-old baby, which was sick and puny and the doctors said was suffering from indigestion. I took the child to the hospital, but there found no relief. A friend mentioned Stuart's Tablets and I procured a box from my druggist and used only one tablet, and lo! the baby was well and was delighted to find that they were just the thing for my baby. I feel justified in saying that Stuart's Dyspepsia Tablets saved my child's life.

MRS. W. T. DETHLEFSE.
Subscribed and sworn to before me this 12th day of April, 1897.
Notary public in and for Erie Co., N. Y.
For babies, no matter how young or delicate, the tablets will accomplish wonders in increasing flesh, appetite and growth. Use only the large sweet tablets in every box. Full sized boxes are sold by all druggists for 50c, and no parent should neglect the use of this safe remedy for all stomach and bowel troubles if the child is failing in any way regarding its food or assimilation.

Stuart's Dyspepsia Tablets have been known for years as the best preparation for all stomach troubles whether in adults or infants.
