July 19th 1946.

Department of National Health and Welfare,
Indian Health Services,
Ottawa.

Dr. W.L.Falconer, Actg. A/Superintendent.

Re your letter of July 9th, file 19206-2

I understand that I will accompany
Supt. Martin to Coppermine this summer again but I
have not yet seen anything definite on it.

It is understood that Commissioner Wood will
be with him and this may conceivably prevent my going.

In which case it will be necessary to get
authorization to ride with the R.C.A.F. who are now
operating in the area. I will advise you if it becomes
necessary to look for such authority.

J.P. Harvey, Indian Agent.
