

The International Stock Food Co. of Minneapolis, Minn., are now manufacturing for their Canadian trade at their Toronto factory, 4 Bay Street. All their packages are made in Canada, and their printing is done here; and their machinery is Canadian, and so is their labor. As will be noted from their ad., Canadian stockmen are directed to communicate with the Canadian factory.

Poultry raising on the farm is attracting more attention every year and wisely so. Poultry pays. See the full-page adv. in this issue of the Chatham Incubator.

Most Creditable Exhibit

A noticeable feature in connection with the fruit exhibit at Leamington during the recent convention of the Ontario Fruit Growers' Association, was the excellent display of material and outfit for spraying, made by the Spramotor Co., of London. Such an annual exhibit is of great advantage to the local and visiting fruit growers, as it keeps them in touch with the latest inventions and improved devices for lessening the labor attached to that important part of fruit growing, spraying. The Spramotor Co. certainly deserves credit for its enterprise in this respect and for its fine exhibit this year at Leamington.

The Razor Steel, Secret Temper Cross-cut Saw

Manufactured only by SHURLY & DIETRICH, Galt, Ont.

We take pleasure in offering to the public a Saw manufactured of the finest quality of steel, and a temper which toughens and refines the steel, gives a keener cutting edge and holds it longer than any process known. A saw to cut fast must hold a keen cutting edge.

This secret process and temper is known and used only by ourselves.

These saws are ellipse ground this back, requiring less set than any saw now made, to ask for the Maple Leaf, Razor Steel, Secret Temper Saw, and if you are told that some other saw is just as good ask your merchant to let you take them both home, and try them and keep the one you like best.

Now, we ask you, when you go to buy a Saw, to ask for the Maple Leaf, Razor Steel, Secret Temper Saw, and if you are told that some other saw is just as good ask your merchant to let you take them both home, and try them and keep the one you like best.

Silver steel is no longer a guarantee of quality, as some of the poorest steel made is now branded silver steel. We have the sole right for the "Razor Steel Brand."

It does not pay to buy a saw for one dollar less, and lose the extra cents per day in labor. Your saw must hold a keen edge to do a large day's work.

Thousands of these saws are shipped to the United States, and sold at a higher price than the best American saws.
