FREE to FARMERS, REEVES and MUNICIPAL OFFICERS

a Sample of the Easiest Laid, Strongest Frost-proof Culvert Ever Made for Farms and Roads, with Book of Facts.

You put Pedlar's Perfect Corrugated Culvert up like this—right at the job

after teaming it there in handy bundles like this—

which fit into each other like this—

and are clamped in a three-flange stiff joint with a tool like this. Isn't that quick and easy? It is. There is no other way so good. Get Book.

PEDLAR'S PERFECT CORRUGATED CULVERT

YOUR own farm ought to have this culvert at every open drain. Useful for drains, feed chutes, stable ventilation shafts, barn bridges on sidehills. Strong enough for holding up traction engines. Remember it is easy to use, stands frost and ice, never corrodes, being made from non-corrosive Toncan metal, takes only a short time to put in place. Get the free sample and book. Learn how to use it on your farm.

SEND NOW A SAMPLE OF THE CULVERT IN STRONG, NON-CORRODING GALVANIZED METAL WILL SHOW THE WHOLE STORY AND THE BOOK WILL HELP. WHY NOT LEARN ALL ABOUT IT NOW?

Established 1861
413 CALGARY Room 7, Crown Block ST. JOHN, N.B. 42-46 Prince William St. PORT ARTHUR 45 Cumberland St.

The Why and How of this Wonderful Culvert

PEDLAR'S Perfect Corrugated Culvert is in very heavy and thick, strong metal, galvanized after being deeply corrugated. Unlike wood, it never rots. Unlike brick or concrete, frost and ice cannot burst it. A single man can make it up, clamp the wide, flat flanges tightly, and roll it into place. Not a useless shovelful of earth has to be lifted, as in every other kind of culvert, and Pedlar's Perfect Culvert is so strong it can hold up a traction engine on the ground itself. You save teaming, because the nested sections are compact. Was hours are impossible. Once you use it, you have no more culvert-trouble.

See what a neat bridge it makes across the highway ditch at your gate. Placed in half a day. Remember you can make any length culvert from sections of Pedlar's Nestable Culvert.

Below are two men doing statute labor. They are just setting a section of built-up Pedlar Culvert in place. See how little excavation is needed—hardly any. This means quick, easy work. This culvert will stand the heaviest loads and the hardest freshets without washing out. It comes from 8-inch sizes up. You build any length you need right at the job. Use Pedlar Perfect Culvert.

WHEN WRITING ASK FOR CULVERT BOOK NO. 250

Direct your enquiry to the Pedlar Place nearest you. They will answer you promptly and save you time

THE CANADIAN IS THE LEADER

Our numerous customers explain that the CANADIAN Gasoline Engine because it is the most reliable, simple, durable and economical engine on the market.

Why not benefit by the experience of those who are using the CANADIAN Engine. Made by The Canadian-American Gas & Gasoline Engine Co., Ltd. Dunnville, Ontario

FROST & WOOD CO., LTD., Smith's Falls, Ont.
Exclusive selling agents for Eastern Ontario, Quebec and Maritime Provinces.

Make Your Own Lumber Don't Buy It

Why buy lumber for your farm when the price of one carload will pay for an "American" Saw Mill with which you can cut a carload a day from your own grove? Be independent, increase your farm income. Make your own lumber; use what you need—sell what is left. And saw your neighbor's timber for him, too, at good profit. "Making Money Off the Wood Lot" is a book which tells the whole story. Let us send you a copy. Write to our nearest office.
