MOTUS BROMA. The following observations having intenumber of the Boston Medical Journal:—

A leaf years since a great manufacturer of Broma songlit the opinions of many medical gentlemen of distinction, for the purpose of having an unodjectionable food for invalida and was assured that he had fully successful. Hospitats, infirmaries, and households generally, sandid always be provided with it. Wine gracel, arrow-robg ground, on the provided with it. Wine gracel, arrow-robg ground, on the statement file, farma, and many other imags order order, starch, rice, farma, and many other imags order or it so notions relisted. It is believed that those who use it as a beverage will have manifest diatetic advantage over the consumers of tea and coffee. We see it gatest that during the last summer those individuals who were continually using Chocolate or Broma neither had a tasks of chose a or dysenteric affections, while others I the sale families, taking their daily potations in tea, offer, or simple cold water, were the sufferers, if any.—We cannot vouch for the truth of this, but it has recalled to raind the statement that the oil dealers in London have been free from Cholera or the choleroid symptoms. And it has been further observed that persons who were thating ood liver oil for chronic difficulties, during the prevalence of the late epidemic, were not affected by it. I excetable oil in the first instance, and animal off in the last, taken internally, would appear, by these statemals, to have secured these who took them from the shalls of the pestilence. It is certainly a point well worth while to determine, whether the chocolate drinkers have been secure in other intected cities."

CURE OF TYPHUS FEVER, WHEN SUPPOSED TO BE AT THE POUNT OF DEATH.

A respectable female in the neighbourhood of Loughall, was attacked with Typhus Fever. She lay for five days without having tasted any description of food. She was given over by the Surgeon, and preparations were made for her demise. Mr. Benjamin Mackie, the Quaker, whose case is referred to above, heard of the circumstance, and knowing the immense benefit that he himself had derived from Holloway's Pills, recommended an immediate trial, and eight were given to her, and the same number was continued night and morning for three days, and in a very short time she was completely cured.

continued night and morning for three days, and in a very short time she was completely cured.

N. B.—From advice just received, it appears that Colonel Deer, who is with his Regiment in India, the 21st Fusileers, cured himself of a very bad attack of Fever by these celebrated Pills. There is no doubt that any Fever, however malignant, may be cared by taking night and morning, supious doses of this fine medicine. The patient should be a followed to drink pleastfully of linseed ten, or burley water.

This is to certify, that I have been afflicted with the This is to certify, that I have been afflicted with the Erystpelas, or the Sait Rhenm, as the Doctors call it, for ten years. My hands were frequently so discussed, that I could make no use of them. I employed several physicians, but to no purpose as my suffering only increased.—I applied Mrs. BRUTAUX's MEDICINE for a short time and I applied Mrs. ISBNTAUX'S MEDICINE for a short time and was soon cured of every vertige of the disease. The thankfulness which I felt, on the long and painful disease being removed, was much more than tongue one express. After three years from the time when I used the Medicine, I was threatened with a relapse or return of the disease. I applied the Medicine and the disease disappeared. From that time to the present, I am perfectly free from all symptomies of Eryslpelas or Satt Rheum. I therefore thentily recommend it to all who are similarly afflicted, as a speedy and effectual remedy. heartify recommend to the second as a speedy and effectual remedy.
