R. DALE, S. QU'APPELLE, SASK.

Ans.—There are several devices used to keep the parts of a cracked hoof in apposition, such as nailing, wiring, clamps, and screwing on plates of brass or copper. Any of these can be done by an intelligent horse shoer. But these means are only aids to make the horse useful and keep him at work, they do not effect a cure. To bring about a complete cure in bad cases, it is necessary that a veterinary surgeon operate. The classical operation consists of the removal of a v-shaped piece of the wall of the hoof at the coronary band (the head of the hoof), then blisters are applied to stimulate the healthy growth of horn. When the blisters are washed off, a light bar shoe may be applied, the horse may now be given gentle exercise, or turned out to pasture. He should not be used for fast road work until the hoof has grown down sound. In mild cases proper and careful shoeing will bring about good results, without any surgical interference especially if the feet are well cared for while the horse is in the stable. The hoof must be kept clean and moist with water. On no account should grease of any description be used as a hoof dressing.

### NEW COMER SELLING HORSES

Would it be lawful to sell a team of horses after being here six months? I wish to sell mine and buy a larger team. H. C.

Ans.—There is no objection to your selling the horses.

### REDEEMING HOMESTEAD

If a man's homestead is put up for taxes and sold how long a time has he to redeem it? Could the man that bought it for taxes live on it? Would the homesteader have to get off or could he stay on the place? Would he have to pay for improvements, if any?

READER, Sask.

Ans.—The purchaser would have to make application to the judge for confirmation of the sale and the original owner would have the right to redeem the land by paying the amount of taxes and costs and any other money lawfully expended by the purchaser by way of improvements together with 20 per cent. thereon. The purchaser would have no right of possession of property and he could not eject the homesteader until the tax sale had been confirmed. It may be that the land in question may have been taken over by the government for non-payment of taxes and it is possible the sale may have been confirmed. If the land is in the hands of the government write to the Deputy Municipal Commissioner at Regina, and he will be able to give you the amount required to be paid to redeem the land.

### RECURRENT ABORTIONS

What is the trouble with my cow? She is eight years old and has had four calves. The first one she carried her time and the other three she had at eight months and they were dead. This time she is due to calve August 5th, and she has been making milk for over a week now. She is always in fine condition and is a good milch cow. She runs loose in the pasture. She makes just as much milk as if she went the nine months.

E. S. P.

Ans.—In many cows there is a certain predisposition to abort from only a very trifling cause. In fact in many cases it is induced from no appreciable cause. The predisposition to abortion is not manifested by any external symptoms, but occurs suddenly without warning. An animal that has once aborted is liable to do so again in following pregnancies. We would advise, in your case, to let her miss a year. She may then carry her calf to full term.

### WEED SEEDS DIDN'T START

I have a block of land which I fallowed last year. Was disked and harrowed, then plowed eight inches deep as soon as the growth had started, then rolled and harrowed and after that cultivated and harrowed as long as any growth was noticeable. Absolutely no weeds were allowed to get ahead of us, and at all times

## Suffered More Than Tongue Can Tell From Liver Trouble.

A lazy, slow or torpid liver is a terrible affliction, as its influence permeates the whole system, causing Biliousness, Heartburn, Water Brash, Langour, Coated Tongue, Sick Headache, Yellow Eyes, Sallow Complexion, etc. It holds back the bile, which is required to move the bowels, and lets it get into the blood instead, thus causing Constipation.

Milburn's Laxa-Liver Pills will regulate the flow of bile to act properly upon the bowels, and will tone, renovate and purify the liver. Mrs. J. C. Westberg, Swan River, Man., writes:—"I suffered for years, more than tongue can tell, from liver trouble. I tried several kinds of medicine, but could get no relief until I got Milburn's Laxa-Liver Pills. I cannot praise them too highly for what they have done for me."

Milburn's Laxa-Liver Pills are 25c. per vial, or 5 for \$1.00, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.
