

Note the New Head Motion—

Fully enclosed — self oiling.

The development of the Improved Wilfley Self-Oiling Head Motion marks another advance in table concentration. This Head Motion is dust-proof, self-oiling, uses minimum horse-power, and imparts a powerful kick, giving better extraction at lower cost.

THE NEW WILFLEY
ROCKER BEARING

All Nos. 5, 6, 9, and 11 Wilfley Tables will be equipped with this Enclosed-Self-Oiling Head Motion. This head motion can be used on your old Wilfleys, as it is interchangeable with our Standard No. 5 and No. 6 Head Motions.
