International Bible Lesson for To-Morrow-The Lame Man Healed-Acts

Golden Text - The Lord is my strength and song and is become my

Compare this with modern miracles and lying wonders. These Jewish disciples evidently looked on Christianity as an annex to Judaism and followed its practices as they went to the o'clock service at the Temple. A blind beggar, lame in both his feet from his birth, whose friends carried him daily to a good place for beggars. (Why don't we go ourselves and bring othersto the place of prayer?) Watch these fishers of men, poor but with grace making others rich, but not with gold, clasp the cripple's hand, raise him up and in the name of Jesus Christ of Nazareth bid him walk, which he immediately does, leaping and praising God-not Peter - in a joyous, natural way in the Temple; yet nobody said he was out of order or drank, as they did at Pentecost. Would to God that all eripples our beautiful temples were filled with the same spirit! And why not?

## Risking Life

stare up at the man in the clouds, won-dering that any man can be so fool-hardy. But what of the business man, who has barely time to snatch a hasty meal, and gulps down a lunch of pie and milk in a few

minutes? He too, is risking his life to make a living. Life is sustained by food properly digested and assimilated. The result of hasty eating and irregular meals is "weak" stomach, and a "weak" stom-

ach means a weak man. When the stomach is "weak" the food eaten is not properly digested and cannot be per-fectly assimilated, so that there is a daily loss of nutrition, which in time will result in physical

# STARTS

Catarrh usually starts with a cold n the head and left it unchecked in this climate rarely gets well of itself. As fresh cold is taken the disease spreads, getting deeper and deeper, creeping along the mucous membranes from nose to throat, from throat to windpipe, from windpipe to bronchial tubes, and from bronchial tubes to lung cells.

The mucous membranes all connect, one with another. Hence it is easy to spread from one part to another lined with the same membrane. This is why catarrh in the head soon affects the throat, and finally the stomach itself, bringing on chronic catarrh of the stomach, which is a most obstin-

ate form of dyspepsia. Everybody is now well agreed that catarrh is a blood disease and not a loaal one, and the attempt to cure by local applications simply gives tempor-ary relief from the purely local symptoms, without the remotest effect in staying the progress of the disease.

There is a new preparation recently offered to the public that is apparently destined to do away with every other form of catarrh treatment.

This new remedy is not a secret patent medicine, but is a large, pleasant tasting tablet composed of bloodroot, red gum from the eucalyptus tree, and other valuable and harmless specifics, which are taken internally and seem to have a remarkably benefi-cial effect upon the blood and mucous membranes, apparently eliminating the catarrhal poison from the whole

These tablets, while being pleasant convenient and absolutely safe to use have made cures in long standing cases of catarrh that are little short of marvellous. They are sold by druggists, under the name of Stuart's Catarrh Tablets, and any estarth reference. tarrh Tablets, and any catarrh suf-ferer who has tried inhalers, lotions, ointments, salves, etc., and realized their inconvenience and uselessness, will fully appreciate the difference be-tween a mere pallative and a per-

manent cure after giving Stuart's Catarrh Tablets an impartial trial,
All druggists sell them at 50 cents for full sized package and no matter where the catarrh is located in the head, throaf, lungs or stomach, Stu-art's Catarrh Tablets will surprise you with the effective result of even a few days' use.

Methodist Church is held every Sun-day afternoon at 3 o'clock. William St. Baptist Sunday School will meet to-morrow afternoon at 3 o'clock.

FEATHER HATS IN VOGUE. om Peacocks Are Considered

may be especially interesting to the fair sex to note that it looks as though feather hats and toques have come to stay in London, for every other woman one now sees is wearing one. The most fashionable are those made of peacock's feathers, while those made of peacock's breasts are also considered very smart. One very elaborate get-up was seen the other day, worn woman who had a muff to match her hat, with the head of a bird in the centre of the muss. A good many women favor white feathers, but peacocks', for the simple reason in foggy weather they so quickly

Especially interesting to men is the discussion which grows even more exciting over the vexed question of silk hats. No end of people have written to the papers suggesting they be done away with. "That is all very well," say those who are in the habit of attending social functions and going about in frock coats, "but what is to be the sort of hat to take the place of the tall

As long as the present fashion in frock and morning coats prevails, the question is, what is to be worn if the tall hat is cast aside? It is admitted that from an aesthetic point of view the top hat for generat wear is not all that could be de-stred. It is rather a bugbear in very bot and wet days, but a man never looks smartly dressed without one. On full dress occasions the King has very strong views on the sub-ject. He always expects to find his friends, even at race meetings, wearing top hats, at any rate when the Princesses are present, at Ascot and Goodwood. Thus those who have raised the question again have a very difficult problem to solve.

Sketch of Miss Beale.

A somewhat novel event was the conferring of the honorary freedom of the Borough of Cheltenham, England, on Miss Dorothea Beale in recognition of her efforts on behalf of the education of women in England, but more particularly of her success during the last 43 years as Principal of the Cheltenham Ladies' Colpal of the Cheltenham Ladies' Since she became Principal the number of pupils has risen from 60 to 1,000, with an annual income of £60,000, while to her efforts is due the erection of college buildings, at an expense of £130,000, the fou tion of St. Hilda's College in Chel-tenham, the opening of St. Hilda's Hall at Oxford, and the work of the Ladies' College Settlement in Lon-

Miss Beale, who is the daughter of a doctor, was born in London in 1831. She obtained her first appointment, that of mathematical tutor, at Queen's College, London, 51 years ago, and was head of the Clergy School at Casterton as long ago as 1857. She has edited since 1880 The Ladies' College Magazine, and has published several works on the subject of "Girls' Education."

## Home Letters Are Convincing PAINE'S

CELERY COMPOUND Proves Its Value by Cures Effected in Canada.

Foreign or Doubtful Testimonials are Used to Influence the Sick.

The cures effected by Paine's Celery Compound are wonderful and startling and of such a nature as to attract the most widespread attention. The straightforward, honest facts published from time to time come direct from our own Canadian men and who can easily be interviewed about their restoration to health. No doubt-ful foreign or manufactured letters are used to catch the sick and suffer-

Mr. R. Morris, Brockville, Ont., tells of his blessed experience with Paine's Celery Compound, as follows:
"Having suffered with neuralgia in the head for two years, I tested the skill of doctors and made use of many skill of doctors and made use of many kinds of medicines as well as the electric battery, but got no relief from any of these sources. I decided to give Paine's Celery Compound a trial as I noticed by the press it was highly recommended for my troubles. I used several bottles and it cured the neuralgia as well as the dyspepsial from which I suffered. I recommend your Paire? Colery Compound to any one Paine's Celery Compound to any one suffering as I did with terrible neuralgia and dyspepsia. I trust you will insert this letter in the press so that others may be benefitted."

I should say sincerity, a deep, great, genuine sincerity, is the first charac-teristic of all men in any way heroic.
