THE JAPANESE TROUBLE.

Sir Wilfrid Laurier has been playing fast and loose with British Columbia on the Japanese question and F. G. Jemmett, - General-Manage is facing the consequences. He has neither allowed nor positively vetoed Provincial legislation for the exclusion of Asiatic immigrants. Matters have been permitted to drift. In British Columbia Sir Wilfrid's friends have presented the Laurier Government as favorable to the exclusion policy. Liberal Members of Parliament in British Columbia were loudest at home in their clamor against Oriental immigration, but when Parliament was in session they had nothing to say.

They have been coming fast- males. er than ever, not only from Japan but from the Hawalin Islands. The riot in Vancouver is the natural result of the uncertain attitude of the Government at Ottawa. The it stands pledged to bring that people knew what to expect Provincial Ministry. The British Columbia Government and Legislature have gone as far as they have jurisdiction in excluding Asiatics. If the British Columbia people had been distinctly and firmly told what they might expect from the Laurier Governmen they would have adapted themselves to the conditions. But years of evasion and shilly-shally have made the people desperate or easily the instruments of desperate characters from the United States. The Vancouver riot with the wholesale wrecking of Japanese houses was the result of determination to bring

Catarrh is an entirely unnecessary disease and should not be tolerated for a single day now that Hyomei is so generally known and has made so many cures in Chatham and other towns.

Until comparatively recent times catarrh was thought to be a blood disease and stomach dosing the only treatment. Modern science finally disproved this idea of the cause of catarrh, and found that it was a germ disease and, after many experimatters to a head. Ana now Sir Wilfrid is doing what he might as well have done years ago. He is trying to bargain with the Japanese Government to restrict the exodus of Japanese peo-Japan stands by her right to send her subjects to Canada, and properly demands that they shall be protected while they are here, just as Britain would insist that British subjects should not be abused nor injured in their persons or property by mobs in Tokio. The Japanese are our allies and the only power which can properly prevent Japanese immigration to this country is Japan herself. This must be basis of a luture arrangement. An agreement on this principle might have been made before the country had been disgraced by the Vancouver outbreak.

But when the Japanese question shall be settled half the difficulty will remain. Hindu laborers are Western Canada by thousands! No less than nine hundred came this week in one trip. of them are Sikhs, who have served in wars of the Empire. They are entitled to consideration and sympathy, but they are not as a class adapted to this country, and its They are our fellow subjects, many civilization. Their presence opens up new and difficult social problems which should be avoided. The sooner public action is taken to prevent or restrict this immigration the easier will be the settlement of the trouble. Mr. Borden's platform demands a more careful selection of the sources of immigration, the more rigid inspection of immigrants, and in short a policy which will exclude undesirpress that the settlements of circulation and received the "Star of Honor." This tends to increase the advertiser's confidence in civilization. Their presence opens up spection of immigrants, and in short a policy which will exclude undesirable settlers. If this rule is applied generally it will not be offensive to any race or nation. Mr. Borden's policy is the one which must be adopted if we are to escape this continually reverting trouble and avoid the scenes of violence which have disgraced some of the United States, and have been introduced into this country.

The statement made by Joseph A. Armstrong, M. P. for East Lambton, that the present Dominion Government had raised the rate of taxation per head in a few years from \$5.43 to \$11, should give the electors some the settlement in the statement in a few years from \$5.43 to \$11, should give the electors some the settlement in the statement in the settlement in a few years from \$5.43 to \$11, should give the electors some the settlement in the settlement in the settlement in the settlement in a few years from \$5.43 to \$11, should give the electors some the advertising as compared with other forms of publicity.

A SUGGESTION OF RARE VALUE.

A diseased condition of the surfaces of the air passages causes bad breath, but more commonly emanates from indigestion or an impure condition of the blood. Thousands of cases prove that Dr. Hamilton's Pills, through their specific action on the secretory and climinative organs, not only cure bad breath, but so thoroughly purify the system that anything suggestive of blood or digestive troubles is impossible. Through Dr. Hamilton's Pills the skin grows rosy and clear, activity of the body and mind increases, and bounding health is estlablished. Sold everywhere. A diseased condition of the surfaces

Hyomei medicates the air you be the first entire, it kills the catarrhing and raw membranes of the passages in the nee and throat; it cures all atarrhat troubles.

As there is life and health in the pinc forests give off their fragrant and health in breathing Hyomei.
