## SIR WILFRID MAY NOT GO ABSOLUTE

Mr. Bourassa Says His Duty Is to Canada First.

Some Dramatic Moments In the House -Suggestion of a Six Weeks' Adjournment - "Saw-Off" Is Indignantly Denied-Mr. Bourassa's Motion For an Investigation Into the Fowler Charges.

Ottawa, March 26 .- There were dramatic moments in the House yester-day. Sir Wilfrid Laurier's announcement that he might not attend the colonial conference; R. L. Borden's proposition to adjourn the House for six weeks on Wednesday next; Mr. Bourassa's trenchant charge that the Premier's duty was to remain at home until he had redeemed the honor of Parliament; Mr. Foster's half humorous and audacious retort that if Mr. Bourassa got too gay (the word he used was "rusty") they (the Government and Opposition) might combine to squelch him, promptly repudiated by R. L. Borden's indignant denial that any "saw-off" had been arranged, or was contemplated, followed each upon the other in quick succession, and fairly flashed in the tense atmosphere of the Chamber, electric with apprehensions of to-day.

The House settled back with a sigh of relief when at last the orders of the day were called, and Sir Wilfrid Laurier moved the address for the increase in provincial subsidies.

Isinglass Post Cards In Mail. matic moments in the House yester

Isinglass Post Cards In Mail Dr. B. W. Walsh (Conservative, Quebec) called the attention of the Government to the fact that postcards made of isinglass were going through our mails, to the great danger of post-al clerks and to the public generally. Mr. Lemieux, the Postmaster-General,

promised attention. Mr. Templeman introduced a bill to Mr. Templeman introduced a bill to create a department of mines. This department will include the mines branch of the interior department and the geological survey now connected with the Department of Inland Revenue. One of the present Ministers is to act as Minister of Mines. As a matter of fact, Mr. Templeman, the Minister of Inland Revenue, will be appointed.

Bourassa's Motion. Hon. George E. Foster interpolated the member from Labelle, Mr. Bourassa, who had given notice of bringing up certain matters to-day affecting members of Parliament; how did he intend to proceed?

Mr. Bourassa said that he proposed to bring up the matters referred to

Mr. Bourassa said that he proposed to bring up the matters referred to upon motion to go into supply. The first Minister had stated that the report of the insurance commission had made no charges respecting the member for North Toronto, Mr. Foster, which required the attention of this House. Mr. Bourassa could not agree to this. He would, however, offer an amendment to-day, upon going into supply, which would quote from the report of the commission and the comreport of the commission and the comreport of the commission and the comments of the press thereon. The
amendment would refer to Messrs.
Foster, Fowler, Bennett and Lefurgey,
and also to the statements made by
Mr. Fowler respecting the connection
of Ministers and members with "women, wine and graft."
Mr. Foster: You are taking a leap

Mr. Bourassa: Perhaps.

May Not Go. R. L. Borden asked the Prime Minister whether there was any foundation for the newspaper reports stating that he might not attend the colonial conference.

Sir Wilfrid Laurier feared that he might be unable to be the desired to

ing that he might not attend the colonial conference.

Sir Wilfrid Laurier feared that he might be unable to go. He desired to go, but owing to the slow progress of the business of the House, he was "contemplating the possibility of canceling the trip."

Mr. Borden then moved the adjournment of the House so as to discuss this matter. It would be a great misfortune, he said, for Canada not to be represented at the conference.

To obviate this possibility, the opposition would make almost any sacrifice or concession. He suggested that when the House adjourned Wednesday next that it stand adjourned for six weeks.

No Saw-Off.

No Saw-Off. Mr. Borden emphatically denied that there was any saw-off respecting the Fowler charges and other scanthat there was any saw-off respecting the Fowler charges and other scandals. Any such charges was false and unwarranted. The House should not prorogue until these charges were disposed of. He feared that Sir Wilfrid Laurier reduced to send some Minister in his place.

Sir Wilfrid Laurier resented this insinuation. He was anxious to do his duty, but his duty might be in Ottawa, instead of in London. He hoped to get away. He believed that he could get away by the 5th if the Opposition co-operated with, him in hurrying up prorogation.

Hon George E. Foster thought it important for Sir Wilfrid Laurier to be promptly on hand. No Government bill embodying any question of policy remained undisposed of, except Mr. Oliver's Dominon Lands Act. It would do no harm if that bill was

Canada First.

Mr. Bourassa continued: I think if any enthusiasm is exhibited by our Prime Minister or any one else, that the Campbell-Bannerman Government can be safely trusted to stamp it out. The British Government would be just as pleased if all the Premiers remained at home. A former Government issued the invitations, and the present Government, as a matter of courtesy, merely did not recall them. The duty of the Canadian Premier is to Canada first and the Empire afterwards.

"Just now," said Mr. Bourassa, "the "Just now," said Mr. Bourassa, "the most important question before Parliament is the honor of Parliament, Ministers, ex-Ministers and members are under grave suspicion. Let us redeem the honor of Parliament."

Mr. Borden's motion to adjourn the House was lost without division, and the House then took up the address to the King, moved by Sir Wilfrid Laurier, praying for an amendment to the B. N. A. Act so as to increase provincial subsidies.

Mr. Crockett (Conservative, N. B.) elaimed that the increase to New Brunswick was only apparent; indeed, it would mean a loss. The increase in all the subsidies would cost New Brunswick 42 cents per capita.

Mr. Martin (Conservative, P.E.I.)

criticized the inter-provincial conference. It had not attempted to deal

He offered an amendment that all railway debts charged against the province be cancelled and that all interest upon such debts be refunded.

Peasants In Roumania Outnumbered Them In Fight.

Them In Fight.

Bucharest, Roumania, March 26.—
There have been several serious conflicts between peasants and troops, notably at Bacess, where 2,000 armed peasants attacked a company of soldiers. The troops fired several volleys, killing 40 peasants and wounding large numbers, but the soldiers were so greatly outnumbered that they finally were obliged to retreat.

At Teleoraman, Wachia, peasants sacked the synagogue and burned 40 houses. The rioters also demolished and pillaged Zimnicea.

The Story of a Medicine. Its name-"Golden Medical Discovery

was suggested by one of its most important and valuable ingredients — Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a cer-tain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or billousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A giance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest entredients have received the strongest entredients have received the strongest entredients have received the strongest entredients.

will show that it is hade from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts. Cachers and writers on Mulcin Medical who recommend them as the very best remedies for the diseases for which "Golden Medical Discoverr" is golysed. A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarhal, bronchial and throat affections, accompained with catarhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will.

WAITING.

I don't know what others are doing,
Nor do I so very much care.
I own it is none of my business,

Go wrestle with blissard and storm.
If I am permitted to do so,
