Crop reports are still fairly encouraging, no serious damage being yet reported from the late rains. Stocks in store on Mon fay morning were as follows:

**Potarons—Nothing doing in ear lots, nor is there any probability that there will be for Outside advices show an advance in English market during the week of 5d on red winter, and 2d or white and club wheat; corn advanced 1d, but su equently receded. The feeling during the las three days seems to have been quiet, with the upward movement checked, probably in con-sequence of some improvement in the weather During last week markets were improving steadily a healthy consumptive cemand was experienced is the principal markets at an advance of about 1s per r. on the spot. Offerings of English wheat wer very small and the quality very inferior; and thes facts caused an active demand for imported; Austra tian and New Zealand sold freely at 49; to 51s pe influence of these being such that steady prices 'seem to' be expected until after harvest. The supply last week was again short some deliveries of wheat were only 66,796 quarters pelow the average weekly consumption of 454,000 guarters. The quantity of whest and flour is transit increased during the week, and stoo on the 15th inst. at 1,925,000 quarters agains 1,791,000 on the 1st inst., and 1,892,000 as the constitution of the 1,892,000 as the 1,992,000 esponding date last year. SUBSTITUTES

The public are cautioned against a custom which is growing quite common of late among a certain class of Medicine Dealers, and which is this: When asked for a bottle of PAIN-KILLER, they suddenly discover that they are "sold out," "but have another article just as good, if not better," which they will supply at the same price. The object of this deception is transparent. These substitutes are made up to sell on the great reputation of the PAIN-KILLER: and being compounded of the vilest and cheapest Drugs, are bought by the dealer at about half what he pays for the genuine PAIN-KILLER, which enables him therefore to realize a few cents more profit per bottl upon the imitation article than he can on the genuine.

BEWARE OF SUBSTITUTES.

The Pain-Killer will be found a willing physician, ready and able to relieve your suffering without delay. and at a very insignificant cost. GOOD FOR MAN AND BEAST.

Por Colic, Cramps and Dysentery in horse, the Pain-Killer has no equal, and it has never been known to fall to effect a cure in a single instance It is used some of the largest livery stables and horse infirmaries in the world. To resuscitate young lambs or other stock chilled and dying from cold, a little Pain-Killer mixed with milk will restore them to health

The Pain-Killer is for sale by Druggists, Apothecaries, Grocers and Medicine Dealers throughout the world. The Pain-Killer is put up in 2 oz. and 5 oz. bottles, retailing at 25 and 50 cents respectively—large bottles are therefore cheapest.
