TUESDAY OCTOBER 22nd, 1918

GOOD ADVICE

People should avoid exaggerating the effects of Spanish influenza. For instance rumor stated yesterday that Moncton had eleven funerals on Sunday, ten on Monday and eight up to noon Tuesday, all presumably due to Spanish influenza. The Transcript of that city, however, stated in its Tuesday's edition that the funerals for the past ten days totalled 26 in all, and of these several were those of remains brought in from outside places. Rumor may be equally as unreliable in other directions, so the best way is to let rumor's utterances die a natural death.—Gazette

So say, we but, the Gazette does not live up to its own advice as in another part of the selfsame issue it reports three deaths in Newcastle from the disease, whereas there was but one at that time.

A VICTORY LOAN SOLILOQUY

To buy a Bond or not to buy—that is the question now! To keep or not to keep the smile on Freedom's fair brow! To make what sacrifice we may in this, our time of stress or not to make one effort for dear Canada's success!

To buy a Bond or not to buy—that is the proposition! To keep our banner floating high or plunge it to Perdition! Who does not take the former course and send his gold abroad will prove himself a friend of France, a foe to Home and God!

To buy a Bond or not to buy—it is for you to say. You younger brothers bleed and die! HOW CAN YOU ANSWER MAM? Each Bond you buy, my brothers will heal some scar in France, or lift the bonds from others who have never had your canoe!

To buy a bond or not to buy—would you leave aught undone, to help the hosts of Him on High against the hated Hun. Will you not save and toll and plan to bring this Loan success? IF YOU ARE ALL CANADIANS YOUR ANSWER WILL BE YES!

—William F. Kirk.

Blood-Making Medicine

It took centuries for medical science to discover that the blood is the life. Now, it is known that if the blood were always abundant, rich and pure, very few people would ever be ill. It was not until the end of the 19th century that an instrument was invented for measuring the red part of the blood. Then doctors could tell just how anemic of patient had become, and with medicine to make new blood the patient soon got well.

All the blood in the body is nourished and kept rich and red by the food taken daily, but when, for any reason, a person is run down and cannot make sufficient blood from the food to keep the body in health, then a blood-making medicine is required. The simplest and very best of blood-makers suitable for home use by anyone, is Dr. Williams' Pink Pills. When a course of these pills is taken their good effect is soon shown in an improved appetite, stronger nerves, a sound digestion and an ability to master your work and enjoy leisure hours. For women there is a prompt relief of, or prevention of ailments which make life a burden. As an all-round medicine for the cure of ailments due to weak, watery blood no medicine discovered by medical science can equal Dr. Williams' Pink Pills.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

"CASCARETS" WORK WHILE YOU SLEEP

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—Take Cascarets tonight.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gas, bad breath, yellow skin, mental gloom, everything that is horrible and nauseating. A Cascaret to-night will give your constipated bowels a thorough cleaning and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

OBITUARY

ELMER VYE

Elmer Vye, a young man, of 32 years of age, succumbed to Spanish influenza early Friday morning at the Isolator hospital. Chatham. Deceased was an employee of the Government railway and lived with his brother Herbert of Napadogan, when he was stricken with the disease. He was brought to Newcastle on the train and was conveyed to the hospital where pneumonia set in with the result of his death.

The deceased is survived by his mother, three sisters, Mrs. Ferguson of Broad View, Sask, with whom his mother makes her home, Mrs. W. C. Mitchell of Brunswick Me., and Mrs. M. L. Hoover of Saskatchewan, and three brothers, Herbert of Napadogan, a George of Chatham Head and Frederick of Salmon Arm, B. C. A fourth brother Melbourne who was a member of a Siege Battery, was killed in France some months ago.

MRS MARY COOPER

The death of Mrs. Mary Cooper, relict of the late William Cooper, of Newcastle occurred at the home of her son, John here about six o'clock last evening from pneumonia, following an attack of influenza.

The deceased who was 67 years of age, was formerly Miss Mary Whitney of Whitingville and had been ill about a week.

She is survived by one son, John, of Newcastle and three daughters, Mrs. Charles McBride; and Mrs. David Gettle of Newcastle and Mrs. Douglas Stewart of Toronto, also three brothers, Neville Whitney, of Whitney, Harry Whitney of Michigan and Charles of California. Three sisters Mrs. Lottie Hubbard, of Redbank; Mrs. Charles Betts, Doaktown and Mrs. George Saveloy of Neguac also survive.

The funeral will take place on Wednesday morning, Rev. E. A. Kinley conducting the burial services.

MISS MYRTLE O'BRIEN

The death of Miss Myrtle O'Brien, of Petit Rocher, occurred at the home of her uncle, Mr. James O'Brien Beveridge's, yesterday morning under very sad circumstances. The deceased young lady, who was about fourteen years of age, and came with her sister, to Beveridge's to nurse her uncle, who was seriously ill, and while there contracted influenza, which developed into pneumonia, which caused her death. Her parents, Mr. and Mrs. Dennis O'Brien, and several brothers and sisters survive.

MISS JULIA JEWETT

Miss Julia Jewett, the popular school teacher at Weaver's Sliding passed away at her home in Blackville, on Sunday morning, from pneumonia following influenza. The young lady was stricken about a two weeks ago with the dreaded disease and although everything possible was done for her she continued to sink until death came on Sunday. She was twenty-two years of age and leaves a widowed mother, three sisters, Mrs. Mark Sutherland, of Newcastle; Misses Grace and Fay Jewett at home also, one brother Howard Jewett, of Blackville. The funeral took place on Monday at Blackville. The deceased's father met death a few years ago in a mill accident.

THOMAS ULLOCK

The death of Thomas Ullock of Chatham Head occurred on Sunday, after a lingering illness. Deceased was 60 years of age and unmarried. He leaves following brothers and sisters: William and James of Chatham Head; Elizabeth (Mrs. Wm. Dobson) Newcastle; and Miss Alice in the U. S. A.

CARL LUNDBERG

Word reached Newcastle this week of the death in the General Hospital, Presque Isle, Maine, of Mr. Carl Lundberg. The deceased had to go to the hospital a few weeks ago to be operated on for appendicitis, and shortly afterwards succumbed from the effects.

The late Mr. Lundberg was for a number of years employed by The Swedish Canadian Lumber Co. as a scaler and ranger during which time he made a number of friends throughout Northumberland and Kent counties, all of whom will learn with regret the sad intelligence of his death.

MISS ELIZABETH FORSYTHE

The sad intelligence was received at Boom Road, on Saturday, by Mrs. Benjamin Sheppard, that her sister, Miss Elizabeth Forsythe, had passed away on Saturday morning, at Lawrence, Mass., from Spanish influenza. The deceased young lady was a daughter of the late William and Mrs. Forsythe, of Boom Road, and had resided in Lawrence for about a year. She was about seventeen years of age and leaves two sisters, Mrs. Benjamin Sheppard, of Boom Road, and Miss Minnie Forsythe, of Lawrence, Mass., who is also critically ill with the disease. The body will be brought to Boom Road for burial.

HORACE FREDERICK OLDFIELD

The death of Horace Frederick Oldfield, aged 15 years, son of Mr. and Mrs. Horace Oldfield, Moncton, occurred on Friday. The young lad had been taken sick with influenza about a week ago, which caused his death. He is survived by his parents and three sisters.

MISS FLORENCE CARVELL

The death of Florence, the three month's old daughter of Mr. and Mrs. Kingston Carvell, of Chatham occurred on Sunday evening. The funeral was held on Monday afternoon at 4 o'clock.

LILLIAN BAYLES

The death of little Lillian Bayles, the youngest child of Mr. and Mrs. Thomas Bayles, Jr., occurred on Sunday afternoon, after a short illness of pneumonia, following influenza, aged eighteen months. Besides her parents, several brothers and sisters survive.

RAYMOND HAYES

Mr. and Mrs. Thomas Hayes have the sympathy of the community in the death of their little son, Raymond, after an illness of three weeks of influenza, aged thirteen months. The funeral took place at 2.15 Monday afternoon to Miramichi cemetery.

JOSEPH HOLST

The death of Joseph Holst of New York occurred of pneumonia on Wednesday, his body was brought to Newcastle for burial. The funeral took place this afternoon. He is survived by his widow, formerly Miss Sadie Ryan, daughter of Mr. and Mrs. James Ryan of Newcastle and one son, James Ryan Holst.

MASTER LESLIE McLAUGHLAN

The many friends of Mr and Mrs Fred McLaughlan, of Bathurst, will sympathize with them in the death of their only child, Leslie, a bright little chap of three years, who passed away this morning after a short illness. Mrs. McLaughlan was formerly Miss Buelsh Miller, of Newcastle.

MASTER WARREN COWIE

The death of Master Warren Cowie the sixteen months old son of Private and Mrs. Isaac Cowie, of Newcastle, occurred this morning from pneumonia, leaving his parents and one older brother. The father is at present in an English hospital.

MISS BLANCHE KIRKPATRICK

The death of Blanche, the eldest child of Mr. and Mrs. Leslie Kirkpatrick of Doaktown, occurred last night or influenza. Deceased was in her fourth year. Her parents and two younger children survive.

Mrs. D. King Hazen, and two children and Miss Elleen Creaghan, who have been in England for the past two years arrived home last week and will visit their parents, Mr. and Mrs. J. D. Creaghan.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a small bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast. Surely get a small bottle of Knowlton's Danderine from any drug store and just try it.

New Arrivals in Winter Apparel

The New cold weather fashions are now ready for your inspection at this store. The display is one of unusual interest, embracing as it does the newest and most popular of the season's models—Here is a carefully selected stock of:

SUITS, COATS, DRESSES

Verified as to Style and Quality and offered in a sufficient variety to insure complete satisfactory selections—You would do well not to delay your buying, come early and see the display in all its Newness and Freshness.

An unusual range of Ladies' and Children's Caps, Scarfs and Sets—Priced from 50c to \$3.00

Our Sweater department will surprise you—Prices far below present values.

SUNNY CORNER

Sunny Corner, Oct. 19—Mrs. Agnes Murray is visiting relatives in Lyttleton and Halcob.

Miss S. Barry, Chatham spent the former part of the week with Miss May Johnston.

Mrs. Charles Buckley is the guest of her mother Mrs. James Hyland. Misses Mary B. Nowlan and Ida Mullin have gone into the woods as cooks for a lumbering concern for the winter.

Mr. and Mrs. Nelson Young are rejoicing over a new boy. Mrs. Norman Renfrew and Miss Eliza Hill of Cassville, spent one day

of last week in Sten y Corner.

Miss Mary Hubbard, Redbank, spent the former part of the week with her aunt, Mrs. James Nowlan.

Mrs. Ervin's Matchett who has been visiting her mother for the past week returned home yesterday.

Mrs. Teresa Hyland in clerking for Mr. Stanford McKibbin, Exmoor.

The community was shocked and saddened Tuesday when word was received that Everett Nowlan, son of the late Alfred Nowlan had died on the train near Bryerton.

Everett was engaged in cooking in the woods for the J. D. Buckley concern when he with thirty other men contracted Spanish influenza, they

were being sent to Newcastle for treatment, but Everett died before reaching his journey's end some seven miles from his home, his remains were brought to Red Bank at four o'clock, he being buried immediately interment taking place in the Catholic cemetery.

This young man had recently got exempted to support his widowed mother and was a bright youth who had many friends, who sympathize with the sorrowing loved ones left behind.

There is a number of cases of influenza in a very mild form at the Corner.

THE POSSIBILITIES OF IRRIGATION

Wheat on one of the Veterans' Farms, near Tilley, Alberta.

WHAT surprises a person most when travelling through the irrigated areas of Southern Alberta is the wonderful variety of crops that can be successfully grown there, their abundant yields, and their excellent quality. Wheat, oats, barley and flax, the standard crops of the Canadian West grow there and give as heavy yields as anywhere else on the continent. Alfalfa thrives as it does nowhere else in Canada, and is literally making fortunes for its growers. By the application of water the crops of clover and the many varieties of nutritious tame grasses are multiplied manifold. In the gardens vegetables of all kinds, including those that are associated with hotter climates, such as tomatoes, melons, squashes, grow in the open so well as to indicate great possibilities in this direction.

Wheat, of course, is the dominant crop there as it is in those areas of Western Canada where irrigation is not practised. Oats, barley and flax are also grown extensively. The yields of all these grains compare very favorably with those in any other part of the west. Crops of wheat this season that have been properly irrigated are averaging thirty-five bushels to the acre. Some crops will thresh as high as forty bushels or more to the acre. The yields of other grains are equally as good. Grain growing under irrigation brings ample returns to the farmer, especially when it is considered that uniform results may be looked for every year.

But, yielding such good returns as the growing of grain does, other crops that may be grown under irrigation are possibly still more profitable, and it seems reasonable to suppose that in years to come the growing of grain in districts where water is available will be to some extent superseded to enable larger areas to be put into other crops. Land that will produce up to seven hundred bushels of potatoes, of a quality that brings the best prices, on which year of the most desirable kinds, yielding forty to sixty bushels to the acre are being grown, where sugar beets of high sugar content thrive, where pumpkins of enormous size

Squash grows with irrigation at Brooks, Alberta.

and excellent flavor, cantaloupes, watermelons, tomatoes, cucumbers, peppers, to say nothing of giant cauliflowers and cabbages, early and late, and all varieties, carrots, turnips, beets, all kinds of beans and many other vegetables flourish; and which produce the most delicious strawberries, raspberries, gooseberries and other small fruits—this land will, no doubt, be used to grow more of these things in the future, especially when labor conditions are such as to enable a more intensive system of farming to be followed.

Then there are the fodder crops, of which alfalfa is the chief. Contrary to a widespread belief, it is not grain, not fruit growing, not truck gardening, but to the growth of fodder crops that the greater portion of the irrigable lands in the United States are devoted. The large yields of alfalfa that are being obtained in Southern Alberta under irrigation assure this crop of an important place in the production of the farmer who is able to utilize the water from the mountain streams on his land. Not only are the yields of alfalfa large, but this crop also enriches the soil to such an extent that any other crop grown on the land after it has been

plowed up gives considerably larger yields. It makes possible the development to the highest degree of the live stock industry. Horses, cattle, sheep and pigs all like it. Combined with oats, barley, the clovers and grasses which grow abundantly in Southern Alberta, alfalfa enables the irrigation farmer to give his stock the best-balanced food possible. He is thus able to get the most milk from his cows, the most wool from his sheep, and to have his cattle, pigs and lambs ready for market in the earliest possible time. No wonder there is prosperity wherever alfalfa grows.

The advantage to the farmer of great diversity of crops cannot be too greatly emphasized. He is able to make his plans for the future with greater certitude. He can devote his chief attention to crops that remunerate him best. He is not greatly influenced by the fluctuations of the markets, and when any of his products are down others are likely to be up. It thus makes for greater satisfaction of his efforts, and assures him of a regular and steady income year after year.

J. G.
