WE have just received a let of Coffee Pots, and after testing one ourselves in our own family, we are safe in recommending it and also in saying that there is no better way in the world of making coffee than by steaming it. By this process you secure all that is delicious and beneficial, and reject the rank, injuri as part. You can't spoil your coffee; no eggs are needed to settle it; the coffee cannot boil; all the fine aroma is retained.

BY LADIES, try one; to be had at the store of CHESTNUM & SONE
