Governor Jonnson Gives The Reasons For Signing Bills.

Sacramento, California, May 15.—
Expressing his determination to sign the Alien Land Bill, recently passed

He didn't sleep it off that night so next day he did write
A letter to the Telegram, a real joy quencher quite. the Alien Land Bill, recently passed by the Legislature, Governor Hiram W. Johnson, of California, has telegraphed to Secretary of State Bryan a long explanation of the action taken by the Legislature. The message was in answer to the request telegraphed to the Governor by Secretary Bryan at the direction of President Wilson that the bill be vetoed.

The Governor's message says

"The objections to our Bill are based, first, upon the treaty obligations of the nation, and secondly, upon the assertion that our act is offensive and discriminatory. The protest to our measure, as your telegram states, comes from the representative

After reviewing the conditions of land tenure under the Bill, the Governor continues:

"Thus we have made existing treaties a part of our law and thus we have preserved every right that any foreign nation by international contract has insisted upon preserving with our national government." After reviewing the treaty of 1911,

the message continues: "We assume that the right of Japanese to own real property for the purposes described is absolute in our state, and we seek to deal with our agricultural lands.

"We embody the treaty in our law and we add to it permission to lease our agricultural lands, for the period

"By the law adopted, we offer no offence; we make no discrimination. The offence and discrimination, is contained, it is claimed, in the use of discharging salt at Job's premises, the words 'eligible to citizenship' and fell over a cliff, twenty feet high, last in making a distinction between those who are eligible to citizenship and those who are not. We do not mention the Japanese, or any particular afternoon. He was returning to his race. The Constitution of California ship about 6 o'clock and while trying in 1879 made its distinctions, and to get over a cliff at the rear of Job's there never has been protest or objec-

Looking apparently sane and sober at the time, Dr. Simon B. Fraser, of Richmond, Que., drew a 38-calibre revolver from his pocket last evening and turned the house at 679 St. Lawrence street into a shooting gallery, by firing all around Florence Harris because the woman would not give

him \$5 which he demanded. Fraser first escaped from the house lodged from door to door on St. Lawrence street, and while the police were hunting for him, found occasion & Sons, St. John's. to slip back to the house and fire two more shots into the doorway. By this treal for here via Gulf ports yestertime the woman who was the object

of his wrath, was hiding in the cellar.

In addition to the shooting, Dr. Fraser created a fresh sensation in the Court House this morning by falling into a fit in an ante-room of the Arraignment Court. The strenuous efforts of two policemen were necessary to revive him, after which he When first arrested last night a charge was entered on the lists against him of "carrying a revolver and attempted murder." This charge was not insisted upon this morning and was not placed on the Police Life-Saving Apparatus. Court lists, it being agreed to take him before the Recorder in private

More notorious than the prisoner, however, is Florence Harris, the woman at whom he fired. She has been before the police courts many times and made herself very unpopular among the uniformed men by boasting that she could buy any member of the police force. When she was sent to jail some time ago, she distinguished herself by going on a hunger strike in modest imitation of the distinguished Mrs. Pankhurst of Bow Street fame. She goes by the name of Florence Harris, but is invariably
