## Regatta Committee Meeting.

DATE POSTPONED TO AUG. 13th.

The Regatta Committee met again last night, President Hiscock in the chair. There was a large attendance and the members were very much pleased with the work accomplished to date. After the minutes of the previous meeting had been confirmed, Vice-President Higgins made known the result of the Executive's interview with His Excellency the Governor, in connection with having the Prince of Wales visit the course on Regatta Day. The Governor intimated that His Royal Highness would arrive here Aug. 12th, and make his official landing at noon, and would remain here until the following noon, Aug. 13th, and as there was no particular function for the second day, the Prince would be able to attend the Regatta from 10 a.m. until noon, and His Excellency suggested that the Regatta be postponed to that date. The Committee unanimously decided to change the date and the public will have the opportunity of seeing our future King on the race course. Mr. Higgins also reported that His Excellency was offering a cup for the naval-military race, or as an alternative would give medals. It being the wish of the contestants that medals be awarded, the Governor will be so informed. The truckmen asked that medals be substituted for the money prize as heretofore, and gold and silver medals will be awarded. Mr. A. McManis wrote that he would be unable to act as timekeeper for the day. Another will be asked to act with Mr. C. E. Hunt. The Secretary read a letter from Mr. W. C. Job, N. Y., thanking the committee for electing him an honorary member, and offering a donation of \$50 to be expended as committee saw fit. The money will be used to purchase silver medals for second place in the naval-military race. The President announced that he had been promised an additional \$500 an oar for the Fishermen's and Laborer's race. The name of the donor will be made known later. The matter of increasing the prize money was considered at some length. It was decided that the prizes be \$50.00, \$30.00 and \$20.00 in each race. After considering matters in reference to signalling, colors, handstands, etc., the meeting adjourned at 10.15 until Friday night next.

## More Encouragement.

A Greenspond correspondent says: "Don't be discouraged by all the trash you hear about Coaker and his gang. Come on, Morine, and bring two good men with you; men of common sense, able to do good work, not the kind of trash we have now. Let us break up this combine of Coaker's. I am a Union man myself, and Unions are all right; but I don't believe in a Union only interested in building up a business for one man. All that one hears here is 'come on with your money and put it in the Trading Company, to build up a business for Coaker, and pull down everyone else.'"

A letter from Gambo reads in part: "You may rest assured that Coaker has no friends in Freshwater Bay; and the people with whom I have talked from other places in the Bay assure me that his prestige and influence are greatly exaggerated by the Advocate."

## Council, Attention!

Hay is all right in its place, gentlemen of the Municipal Council, but its place is not the public street. For this reason it would be advisable on your part to see that the grass now growing on the sidewalks of Forest Road is removed without delay. St. John's is no longer a frontier town, and the horses coming from outlying settlements do not pass this way, anyhow. So why the pasture? If it is deemed best to have the hay remain, why not fence it in or advertise for tenders for grazing lands? Nothing should be wasted these days.

**MORE AUTOS ARRIVE.**—Another shipment of automobiles, some thirty in number, arrived yesterday by the Adolph from New York.

## THE SUBMARINES AND BOVRIL

During the War food supplies were greatly restricted in the United Kingdom owing to the submarine blockade, and Bovril was so indispensable to the soldiers, wounded, and the people that it had to be retained in the British Isles, where it is made, or sent to the fighting fronts.

Fresh supplies of Bovril have now arrived and there is no longer any need to make shift with substitutes which lack its unique vital and energizing properties. Bovril is the food whose body-building powers have been proved by independent scientific experiments to be from 10 to 20 times the amount taken.

## A Great Success.

The Mother Superior and Sisters of the Community of St. Bride's College, Littledale, wish to announce that the Garden Party held on July 16th, inst., was a great success and desire to thank all those who helped to make it so. Especially the various and efficient table holders with their hard-working assistants, the C.C.C. band, which under the able baton of Mr. Bulley, discoursed a charming selection of the latest music during the afternoon, and last but not least, those talented ladies and gentlemen who brought the day to a pleasant close with a Grand Concert of vocal and instrumental solos, dances and recitations.

## The Highlanders' Camp.

The date on which the Highlanders will go into camp has been decided upon, and on August 1st they will leave by rail for Hr. Grace. On Monday evening at 7.30 a meeting, for the purpose of arranging all matters, will be held. All members, ex-members and prospective members are invited to come.

## To-Morrow's Garden Party.

The Kilbride Garden Party, which was postponed Wednesday on account of the unfavourable weather, will be held to-morrow, and every preparation has been made by Rev. Father Coady and his committee to make it the most enjoyable affair of the kind held there. The C. C. C. Band will be present during the afternoon and will furnish music for the dance, at night, in Kilbride Hall, with which the day's programme will conclude.

## Cured of Eczema.

B. F. Viscount.  
Dear Sir:—To-day I can thank God for the day I saw your advertisement in the paper. After suffering from that horrid skin disease for seven years, and having tried doctors and many other remedies that I could hear of far and near, two boxes of your Ointment cured me when all others proved worthless.  
WM. H. SEAWARD.

## OTHER TABLETS NOT ASPIRIN AT ALL

Only Tablets with "Bayer Cross" are Genuine Aspirin

If you don't see the "Bayer Cross" on the tablets, you are not getting Aspirin—Remember this! Genuine "Bayer Tablets of Aspirin" are now made in America by an American Company. No German interest whatever, all rights being purchased from the United States Government.

During the war, acid imitations were sold as Aspirin in pill boxes and various other containers. The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, proved safe by millions for Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis, and for pain generally.

Handy tin boxes of 12 tablets—also larger sized "Bayer" packages can be had at drug stores. Aspirin is the trade mark (Newfoundland Registration No. 761), of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

The Bayer Co., Sue., U.S.A.

**NOTE OF THANKS.**—Mrs. A. Auklinck wishes to express through the columns of the Evening Telegram her gratitude and thanks to Doctors Murphy and MacPherson for a very successful operation for eye sight of her daughter Isabella, at her home Merry Meeting Road.

EVERJET ENAMEL is sold in small cans at 25 cents each.

**Colin Campbell, Limited.**

## Particulars of Drowning.

Particulars of the drowning of the two sailors of the banking schooner Precursor, Capt. G. Lee, notice of the arrival of which we made yesterday are to hand. On Saturday last the two men, John Johnson and George Harris, left their vessel to overhaul their trawls, and not returning at what was considered a reasonable hour, Capt. Lee made search for them. The dory's sail was picked up after a short search, but no sign of the men or their dory was seen; and it is believed that they overloaded their dory with fish and that she sank while they were returning to their vessel. Both of the unfortunate men are residents of Fortune Bay.

## Poor Fishery.

The fishery to date is the worst for 20 years both with traps and hook and line. Never in the memory of the oldest residents here has a rougher summer been known for prosecuting the fishery. Icebergs considerably hampered operations and prevented traps from being set.

A few crews with prime berths secured fair voyages in Baccalieu Tickle but great damage was done to twine. The average catch for 120 codtraps here will not exceed 30 qtls. The season is now too far advanced for much to be done in traps and a feeling of despondency prevails over the gloomy outlook.
