

Headaches, Dizzy

Spells and faintness have been my afflictions for 22 years. Often I would fall in a sudden faint and several times narrowly escaped being burnt on the stove. No medicine gave me more than a few days relief, and I laughed when a friend urged me to try Hood's Sarsaparilla. But I took it and in six months I was free from all headache trouble, faintness or dizziness. I am now perfectly well. I cannot say too much in praise of Hood's Sarsaparilla. It is worth its weight in gold to me. Mrs. R. H. HAYES, Paris, Ont.

New Quarters for the London Meteors—Baseball Scores, Turt Events, Etc.

BASEBALL.

TORONTO LOSERS RIGHT ALONG.
Providence, R. I., May 3.—The Providence champions again defeated the Toronto today in a dashing game. Aside from two muffs by Lake, the Toronto played ball in magnificent style. In the fourth and sixth innings the champions hammered the ball all over the lot. Rutherfordham pitched for Providence, and only in the third inning did the Canadians get more than one hit in an inning. Then Casey and Congdon rapped out doubles, and Gray followed with a single, making two earned runs. Attendance, 1,000.

EASTERN LEAGUE SCORES—FRIDAY.

At Providence—R. H. E.
Providence.....11 14 1
Toronto.....2 7 4

The Alerts will play the Pastimes (champions of the City League) on Saturday, May 11.

The Balmoral Baseball Club have received an invitation to assist in opening the new diamond at Brantford on May 11.

THE TURF.

AMERICAN HORSES SCRATCHED.
London, May 3.—The American horses, Stonell, Harry Rex, Don Alonzo and Banquet, were scratched from the Bredby Plate handicap race at Newmarket today. Messrs. Dwyer and Croker believing that they were too heavily weighted.

Harry Rex was scratched from the race for the Brinkley Plate of 200 sovereigns. He was weighted at nine stone five pounds.

FOOTBALL.

POTTERSBURG CLUB.
The members of this club met the other night for the purpose of organizing for the season of 1895, and the following officers were elected: T. Clark, honorary president; H. Watson, president; G. Small, captain; H. Watson, secretary-treasurer; managing committee, G. Girvin, G. Small, A. Gunn. The meeting was well attended by the young men of the village, who are taking great interest in the club this year, as five new members have joined, and more are to follow. The team played 8 games, won 5, drew 2, and lost 1 to the Military School. Last year was the first, and the boys have more confidence this season, and are determined to have one of the strongest amateur teams of the west. They would be glad to hear from any amateur teams, and would very much like to have a match on for May 24; if not at home, they will go away. They wish to state that there are no members of the Asylum team playing with them, as was stated this year and last. They are only a lot of beginners, and any team need not think they have to play against professionals, and they will use them right. The following are the team: G. Small, R. Watson, A. Gunn, W. Russell, G. Girvin, A. Blackwell, G.

An Example Of Merit

A man came in the other day, asked for a good five cent cigar. Same man came in again, asked for a quarter's worth (six cigars). That man always smokes the same brand, and that is OLD LEAVES. It's the best cigar that can be sold for five cents. Try it once and you will smoke no other.

THE WHEEL.

At a meeting of the Meteor Bicycle Club last night it was decided to vacate the present room in Duffield Block and rent a two-story house at 436 Park Avenue. A committee was appointed to have the new quarters furnished as soon as possible. A number of new members were received. The club will hold a run on Thursday evening from the Duffield Block.

THEY WILL STAY.

Withdrawal of the M. C. R. From London Averted

By an Important Decision in Toronto—A Dispute With the L. E. and D. R.

A point arising out of the interpretation of a clause in the L. and P. S. R. lease to the L. E. and D. R. R., as affecting the running powers of the M. C. R., was definitely settled by the arbitrator in the case this morning, and now "the head that wears the crown," or rather the heads of those in civic authority, are somewhat easier in consequence. The Walkers (who own the L. E. and D. R. R.) contended early in the history of the lease that the running rights of the M. C. R. over the road between London and St. Thomas did not allow that company to do freight business between St. Thomas and London, or vice-versa, and that the clause only gave them power to utilize the road for business to points outside of St. Thomas and London.

The M. C. R. naturally said that unless they were allowed to compete for the local traffic between St. Thomas and London, and vice-versa, they did not care to run into London at all. This was the cause of the uneasiness in civic circles. If the decision had been favorable to the Walkers it would have practically meant the withdrawal of the M. C. R.

Provision was made in the lease for the settlement of just such disputes by arbitration, and by the result of which arbitration the lessees are bound to stand. The matter was referred to an arbitrator in Toronto, and a private telegram received in the city this morning announced that a decision had been given in favor of the M. C. R.

BUSINESS PROSPECTS BRIGHTER.

Pointers From the Weekly Reviews of Dunn and Bradstreet.

Anxiety to Pluck Fruit Before It Is Ripe the Chief Obstacle to Complete Recovery.

New York, May 3.—R. G. Dunn & Co.'s weekly review of trade says: Business begins this May in better condition than at any other time since the break-down in May, 1893. The chief obstacle to a more complete recovery is the anxiety of many to pluck fruit before it is ripe. Holders of some staples have lifted them so far as to prevent their marketing, and workers in some industries are demanding wages that cannot be paid out of any business in sight. In spite of labor disturbances and speculative excesses the outlook brightens.

The week's failures are 231 in the United States, against 233 last year, and 34 in Canada, against 35 last year.

BRADSTREET'S.

Bradstreet's says: The manifest improvement in many lines of general trade has resulted in an increase in the volume of business, notwithstanding the impending illness of 9,000 Rhode Island worsted mill operatives and many in other industrial lines. April bank clearings reflect improved demand for staples, and enlarged speculation. Improvement is noted in the Eastern and Middle States and in the south and southwest. The far western group alone shows a decrease.

There are reported 206 business failures throughout the United States this week, against 223 last week, 179 in a week a year ago, and 166 three years ago.

IN CANADA.

Improvement is reported in trade circles from Montreal and Montreal, and prices of staples have advanced in a number of instances. Trade is only fair in Nova Scotia and Prince Edward Island.

Bank clearings at Winnipeg, Hamilton, Toronto, Montreal and Halifax aggregate \$18,560,000. Last week they amounted to \$17,925,000, and a year ago to \$17,403,000.

There are 36 failures reported from the Canadian Dominion this week, last week the total was 32; last year it was 33, and the year before that 30.

Live News in a Line.

Mayor Strong, of New York, has requested Police Commissioners Michael Kerwin and Charles H. Murray to resign, to take effect May 6.

It now turns out that Rev. J. Bell, of England, Emily Hall's betrayer, tried to secure the pastorate of the Baptist Church, Sarnia, while he was visiting at St. Clair, Mich. He is a Methodist, but offered to change his creed.

A special from Birmingham, Ala., says that William Hayes' two daughters, aged 16 and 18, living near Harl Ridge, Daley county, while on their way to a field yesterday, were attacked by two unknown negroes and spirited away. Since then posess have been searching the woods, but in vain.

BAD INJUNS.

St. John, N. D., May 3.—Half breeds encamped near St. John last night raided the town. They looted the hardware store of the town trader (Brooks), securing guns, revolvers, loaded shells, cartridges, powder and a large quantity of shot. There were 60 in the party. The half breeds have sent their children across the Manitoba line and their encampment is reported as being in a strong state of defense. There are 400 half breeds in camp, led by the worst element.

Gravel and Kidney Diseases Quickly Cured—Relief Can Be Obtained Within Six Hours.

I have been troubled with gravel and kidney disease for eight years, during which time I have tried numerous remedies and different doctors without any permanent benefit. At times the pain in the left kidney was so severe that I could not lie down or remain in one position any length of time. Seeing your advertisement of South American Kidney Cure in the Enterprise, I procured a bottle from A. S. Goodvee, druggist, and taking it according to directions got immediate relief and feel better now than at any time since first noticing the disease. The soreness and weakness all who are afflicted with this dangerous trouble to give South American Kidney Cure a trial. Signed, M. A. McMillen, Chesley, Ont.

House and Lobby.

(Continued from Page 4)

for the present year of the honorable gentleman. Then the taxation taken out of the people today in one shape or other is \$60,000,000, compared with a little over \$20,000,000 a year when Mackenzie held power. As to the savings banks, they bought farms with their money and made big profits. What about farm values today? The fiscal policy of the men in power, Sir Richard argued, is unjust; their administrative policy has been and is flagrantly corrupt. Sir Richard rather thought that Mr. Foster had understated his deficit, large though he confessed it to be. Then, how was he to pay his bill? He said Sir Richard: His last year's loan of \$10,000,000 is already spent. How, then, is he to get the \$5,000,000 promised to complete the Trent Valley Canal? Where will he find money for the Chignecto Ship Railway?

Mr. Foster—That is not a liability just now.

Sir Richard—Now is the time to tell about it.

Mr. Foster—Don't ask too much. Sir Richard—That road calls for \$170,000 a year. If a bonus, why ignore it? It must be paid. Then there is \$750,000 a year for the Atlantic fast service. Is that a liability?

Mr. Foster—It is not a present liability. (Loud laughter.)

Sir Richard—Then you had better take the grant off the statute book, or it may be a liability any day. Then what about the Hudson Bay Railway liability? Are we to pay that \$2,500,000 or not? What does the Finance Minister say?

Mr. Foster—Answer? Sir Richard—Give us a full, free and frank statement as you promised.

Mr. Foster—That will be for Parliament to consider in the future.

Sir Richard—And the leader of the House can't tell. Does he not know that Parliament can grant no moneys except at the instance of the Minister. Surely he has a right to know when his liabilities are so large.

Mr. Foster—If the fact were anything, the Finance Minister has enormously understated our liabilities in the near future. (Cheers.)

This assertion settled Mr. Foster. He rose excitedly and told Sir Richard that if any new liabilities were proposed, Parliament would be asked to consider them.

Sir Richard Cartwright retorted that it was the right of Parliament to know the entire liabilities of the country.

Mr. Foster again rose excitedly and shook his hand at Sir Richard, but amid loud cries of "order" was prevailed upon to take his seat.

Sir Richard said it was clear that Mr. Foster had not made a full and honest statement of the country's liabilities, as promised, "and," said Sir Richard, "before this debate concludes he must do so. The men in power propose increased taxation on one hand and sham decreases on the other. The departmental expenditures in the militia and public works. By past deception, if these men hold power next year, they will have added to rather than decreased expenditures in these departments."

Sir Richard said he had been told that the Intercolonial railway, owned by the Dominion, had been allowed to run down, and would require a large expenditure to put it in good condition.

Reverting to the deficits in Mr. Mackenzie's time, Sir Richard pointed out that they were caused by the previous statement of the country's liabilities, as promised, "and," said Sir Richard, "before this debate concludes he must do so. The men in power propose increased taxation on one hand and sham decreases on the other. The departmental expenditures in the militia and public works. By past deception, if these men hold power next year, they will have added to rather than decreased expenditures in these departments."

persons employed was 4,917, and the capital invested \$1,511,723. In the census of 1891 there is given 804 establishments, with 6,046 employees and \$1,547,353 capital invested. Now, it will be observed that there is more than 100 per cent increase in the number of alleged manufacturing establishments. The increase was 433. The increase in the number of employees is 1,128, or two and a half times as many of those establishments. In 1881 the product of manufacture in those establishments was \$3,000,000, and although the number of establishments has increased more than 100 per cent the product of manufacture in 1891 was \$425,420 less. So that the 433 new establishments employed two and a half persons each, the product was \$775 each, and it was \$425,420 less than it had been ten years before. Yet we are told by the Secretary of State, who spoke yesterday, who spoke under the inspiration of the officers of the Government, who ought to know, who ought not to undertake to mislead the House or the country, that a new classification was being made, which would show that these manufacturing establishments that had less than \$2,000 capital, were not to be included in the census calculation, but was submitted to the House, and which showed us, Sir, that the amount of capital of each of these 433 new establishments is \$775."

WHEAT AT \$1 32.

Farmers Sorry Now That They Fed It to Hogs.

Drovers Say That Beef Cattle Are Scarce—A Brisk All-Round Market.

There was a brisk all-round market today, a surprising feature being the continued advance in wheat. This morning it went as high as \$1 32 per cental, and there is just a little sadness in the hearts of those who fed their wheat to the hogs when it was going begging below the dollar mark.

Evening spring wheat, spring, cannot eradicate. The amount of wheat that the farmers in this section of the country can afford to sell is small, and the scarcity accounts for the gradual and continued rise in price. Oats were much more plentiful, and sold at \$1 05 7 and 8.

There was great activity in the potato market, and seedling potatoes were in demand. The general price paid was 50 cents per bag. The larger potatoes, for cooking purposes, brought 75 cents.

The meat market was, if possible, a little duller than last week. It was veal, veal, veal everywhere. A butcher accounted for it thus: "You see, the cheese factories are starting up, and farmers want the milk to sell to the factories. So they kill the calves to save the milk they would otherwise consume."

Veal brought 3 and 4 cents, and occasionally 5.

Although beef still remains at 5 and 6 cents, drovers state that beef cattle are hard to find, and tell of long trips through this section of the country in quest of beef, but with only meager success. They anticipate that this condition of the market will make itself manifest in an increased price.

Eggs were away down, and could hardly be given away. Butter sold at 16 and 17 cents a pound to the individual buyer, with a proportionate decrease to the wholesale dealer.

In spring stuffs, green onions sold at two and three bunches for 5 cents; rhubarb, three bunches for 10 cents, and some premature looking asparagus at six bunches for 25 cents.

Cabbage and tomato plants sold at 15 and 20 cents a box.

GENERAL GRANT'S DAUGHTER.

Report That She Will Marry General Douglas Denied.

New York, May 3.—The rumor current in Chicago that Mrs. Nellie Grant Sartoris and Gen. Henry Kyd Douglas were to be married in the near future has been denied by Mrs. Grant's family.

WON'T FRANCE HOWL!

Berlin, May 4.—The Tagblatt publishes a report from its Madagascar correspondent that two French civilians who fell into the hands of the Malagasy authorities have been put to death in obedience to the orders of the Hova Premier. One of them was killed by hanging and the other was shot.

New York, May 3.—Bradstreet's review says: Industrial unrest now takes the form of striking for higher wages. This week about 50,000 industrial employees have struck, and the tendency does not seem to be checked. About 3,000 people are reported to have obtained higher wages without striking.

To Smokers

To meet the wishes of their customers The Geo. E. Tuckett & Son Co., Ltd., Hamilton, Ont., have placed upon the market

A Combination Plug of

"T & B"

SMOKING TOBACCO.

This supplies a long-felt want, giving the consumer one 20-cent plug, or a 10-cent piece or a 5-cent piece of the famous "T & B" brand of pure Virginia Tobacco.

The tin tag "T & B" is on every piece.

Jam Your Sleeves Into Your Coat

They will shake out as stiff and graceful as ever if made up with

Fibre Chamois as an Interlining.

Its width, 64 inches, will cut the largest sleeve without joining and its low price, 35 cents per yard, means money in your pocket if you use it throughout your costume.

Fibre Chamois is unequalled by hair cloth, canvas or crotaline in flexibility, durability and fine finish and combines with all these a stiffness unaffected by dampness or crushing. At all stores in 3 weights.

Every yard of Genuine **Fibre Chamois** is Labeled.

Patented July, 1890, Trade Mark Registered.

The wholesale trade only supplied by The Canadian Fibre Chamois Company, Montreal.

Jam Your Sleeves Into Your Coat

They will shake out as stiff and graceful as ever if made up with

Fibre Chamois as an Interlining.

G. & J.

THE WEATHER TO-DAY:
Fine and warm followed by showers.

GREAT FEATS:

We have been outdoing our former successes in every department this season. To accomplish this is a great feat because for years we have been doing the leading business in London. When nine customers out of ten speak in praise of our assortment, there must be something striking about the stock. Ours are the best styles of the best makers, and always values beyond the ordinary. That's how we conduct our big business throughout, until now it is said if an article is bought at S. & I.'s it is good. So our customers aver, and their opinion is good enough for us.

GREAT HOSIERY.

When we mention these items as the best values in town, we mean the entire stock from which they are selected at random—for there can be no best where all are superlatively good.
