Two years ago I was in a weak, nervous condition and had dreadful palpitations or jumping of my heart, followed by sinking spells, which would last for several minutes. Sometimes it would seem as though I would never come out of them. I was treated by the best physicians, but only for a little time did they help me. I seemed to be growing worse instead of better. THE WHEEL.

SUSPECTS IN THE PRO. CLASS. Chairman Gideon, of the L. A. W. racing board, has been working hard for several weeks on a revision of the racing rules. The most of these rules have been in force for several years, and have become so antiquated that it has been found difficult to make them harmonize with the modern ideas of bicycle racing. Last year this was especially so, as for the first time they were used to govern professional racing, which was not sanctioned or recognized by the league when the rules AQUATIC. were drafted, but, thanks to the common-sense ideas of the board, there was little friction during the season. Many of the rules were for the gov-ernment of the semi-professional class

B. As this has been entirely done away with, that portion of the racing rules will be dropped altogether. For the regulation of the amateur class the old or class A rules will be for the most part retained, with the changes introduced as adopted by the recent convention at Baltimore, making the limit of the circuit in which an amateur rider can ride 100 instead of 200 miles, as was the former rule. Under the new regulations, also, the value of the prizes for which an amateur can compete has been reduced from \$50 to \$35, so that the value of an amateur's winnings will be greatly reduced. For the professionals, it is the intention of the board to make a set of rules that, while they will be equitable, will not be irksome, even when strictly enforced, as the board intends they shall be.

A Petty Political Trick.

Premier Greenway and His Colleagu Indignant at Their Treatment.

Winnipeg, March 11.-Although the announcement by Sir Charles Tupper in the Commons on Monday that Premier Greenway would be invited to a conference with the Federal Government on the school question, after the second reading of the remedial bill, caused a good deal of talk here, there is, on second thought, not much importance attached to the matter. Indeed, it is generally regarded as a petty po-

The Tribune says: "For the most part the views expressed were not complimentary to Sir Donald or Sir Charles. It was pointed out that to the outside world Sir Donald claimed he was on no political mission at all, and it is said to Ministers he said he was acting personally and purely privately. This was also supported by assertions of Sir Charles Tupper. But now Sir Charles parades Sir Donald as the agent of the Government and produces a private telegram to Sir Donald as if sent to the Government. It is said the Local Ministers are very indignant over the way in which Sir Donald has acted to-wards them, but if so they succeed very well in covering it up and appearing to the world jovial and unconcerned. They are not in the mood to answer questions, however, and though the Premier and the Attorney-General were plied with insinuating questions they turned them aside and would not even give an indication of when they would answer then. A member high in the councils of the party pointed out to the reporter that the private telegram to Sir Donald does not mean anything, nor does it take any new position. Sir Donald's proper course was certainly to get the Dominion Government to send an invitation if they felt so inclined, but all the rules of honor forbade him making the telegram public. The Local Government do not for a minute consider Sir Chas. Tupper's statement in the House an invitation, and therefore everything will just move along as before. The Ottawa Government to get out of the lifficulty try to create the impression that the Greenway Government are all the time trembling and on the verge of backing down, while nothing is further from their thoughts.'

THE W. C. T. U.

Yesterday, as usual, there was an interesting programme at the regular meeting of the W. C. T. U. Mrs. (Rev.) Boyd gave a most helpful Bible reading, and after the necessary business had been transacted by the president, Mrs. Gordon Wright, Dominion superintendent of narcotics, took charge and announced "Opium and Its Alarming Spread" as the topic for discussion. Mrs. Wright stated that even in this city the use of the poison had increased enormously. People were induced for various reasons to take it, never dreaming that by persisting they would finally become its slaves. Mrs. W. E. Saunders read a paper demonstrating the evil influences of opium upon the mind and body. Several ladies recited touching incidents of the downfall of men and women of their own acquaintance through the use of opium. Special mention was made of the different medicines in which morphine and opium were used, and a warning was given of the dangers arising from the frequent use of headache powders, too often largely composed of these poisons.
