President Ledyard Informed of the Situation.

The Section-Men Have Left the Road and M. C. R. Trains Are Preceded by a Hand-Car—A Question of Law Involved.

Bullet Proof Armor.
WASHINGTON, May 12.—The nine-inch nickel steel armor plate manufactured by the Carnegie Steel Company was tested yesterday. It represented 355 tons, and is to be used for the Amphitrite. It proved highly satisfactory, and earned a premium of \$30 per ton. Two rounds were fired from an eight-inch breech-loading rifle. The first shot penetrated the plate, and the second passed through the plate and slightly into the backing, but no cracks were made in the plate in either instance.
