**FERRY'S SEEDS**

**"FEEBLE STOMACH"**  
Causes Digestive Weakness and Poisons the Entire System.

"No one can have suffered more than I did with stomach trouble," writes Phil E. Pascalar, well known at St. Andrews Corners. "My doctor told me my indigestion and sleeplessness were due to poisons in the blood. Certainly my condition was desperate, and it seemed from the despondent feelings that swept over me that I would lose my reason. I happened to read about Dr. Hamilton's Pills and bought five boxes from the druggist. Such body-cleansing pills I never used; they were mild and yet quite strong enough to drive all the humors out of the blood. My stomach gained strength rapidly with Dr. Hamilton's Pills and I improved so much that in eight weeks I could eat and digest all ordinary food. Depression and weariness passed away and I am, thanks to Dr. Hamilton's Pills, enjoying robust good health."

No remedy for biliousness, indigestion, headache, sick stomach, or constipation that compares with Dr. Hamilton's Pills. Refuse substitutes. Sold in 25c. boxes. All dealers, or The Catarthozone Co., Kingston, Ont.

**Dr. Hamilton's Pills**  
Cure  
Stomach Troubles

**Chapped Hands AND Cold Sores**

Are your hands chapped, cracked or sore? Have you "cold cracks" which open and bleed when the skin is drawn tight? Have you a cold sore, frost bite, chilblains, or a "raw" place, which at times makes it agony for you to go about your household duties? If so, Zam-Buk will give you relief, and will heal the frost-damaged skin. Anoint the sore places at night, Zam-Buk's rich healing essences will sink into the wounds, end the smarting, and will heal quickly.

Mrs. Yellen, of Portland, says: "My hands were so sore and cracked that it was agony to put them near water. When I did so they would smart and burn as if I had scalded them. I seemed quite unable to get relief from anything I put on them until I tried Zam-Buk, and it succeeded when all else had failed. It closed the big cracks, gave me ease, soothed the inflammation, and in a very short time healed my hands."

Zam-Buk also cures chafing, rashes, winter eczema, jock itch, itching sores, sore heels, sore toes, abrasions, pimples, ringworm, etc., cuts, burns, bruises, scalds, sprains. Of all the best skin treatments ever known from the Zam-Buk Co., Toronto. Price 50c a box.

**Zam-Buk**

**DESTROYING THE SPECIES.**  
Ridding a Country of a Certain Kind of Animal is Difficult.

When man sets about ridding himself of entire species of animals by systematic persecution he usually finds it a difficult job. Set a price on the head of a wolf or a woodchuck and the animal seems once to realize the importance of prolonging its life.

The case of the wolf in Europe is a historic one. A price has been set on the creature's head for centuries and yet there is only a small portion of the continent from which the animal has been exterminated. The Netherlands is free of wolves, owing to the character of the country. The whole land furnishes not a single rocky den suitable for a wolf's lair; neither is there a forest for the animal's shelter.

It is true the wolf has been exterminated from Great Britain and Ireland. This result has been reached, however, by indirect means rather than by a direct attack. The clearing off of the forest left the wolf no place in which to hide from pursuit. The islands were too far from the continent for their thinned ranks to be recruited from the mainland. In Spain and France the wolf has at no time been unknown, although a price has been set on its head for hundreds of years. The animal has developed cunning in proportion as the pursuit has become closer. Like the crow, it has learned to take care of itself.

On the other hand, species receive very little help toward their continuance from the well-meant efforts of man to that end. In proof of this we are told that there is an ancient act of Parliament still in force in England and Wales prohibiting the taking of eggs of certain birds of which six species have ceased to breed in those countries. The indirect ways in which such results are brought about are shown in the destruction of the quail in New Zealand. The birds once were numerous; no one wished to destroy them. But the land was burned over for other purposes at seasons when the eggs and young of the quail were exposed to destruction and a few years brought the species to an end.

**Milk and Cheese From Beans.**

We were taught at school or on the farm that the three necessary steps in the production of butter and cheese were, first, the cow; second, the cow's milk and, third, the manufacture of butter and cheese and other dairy products from the cow's milk. To-day the modest cow is being eliminated and a little soy bean is taking the cow's place. Milk is obtained from the beans by crushing them. From the bean milk, cheese and butter are being made; also condensed milk, milk flour and a form of casein which is said to contain essential elements of food. Before the soy beans are crushed they are soaked in cold water. Maceration results in the production of a thick milky liquid which can be filtered and drunk fresh or used for making butter and cheese just as in the case of cow's milk. Vegetable milk, butter and cheese are becoming popular in many parts of China, India and Japan where the cultivation of the soy bean is being encouraged. Beans cost less than cows.

**Seed Commissioner's Report.**

An interesting Government publication has just been issued in the report of the Seed Commissioner for the period from January, 1905, to March, 1911. The report contains an historical record of the work of the Seed Branch since its organization under a Seed Commissioner in 1905 and a brief review of the work in seed improvement done previous to that time by the Seed Division under the direction of the Commissioner of Agriculture and Dairying.

Since the Seed Branch was organized on its present basis its work has been prosecuted along two main lines commercial and educational. The commercial work entails the enforcement of the Seed Control Act, the inspection of seeds and seed crops, seed testing, seed grain investigation and the distribution of reference collections of economic seeds. Among the subjects investigated and reported upon are the vitality of field and garden seeds, weed seeds in feeding stuffs, the influence of age on the vitality of seeds, and the production of Canadian grown root and vegetable seeds. The educational work includes the various means adopted for stimulating interest in the production and use of better seeds. A vigorous propaganda has been maintained for that purpose through organizing and assisting in conducting local seed fairs, provincial seed exhibitions, field crop competitions, seed judging classes, giving assistance to the Canadian Seed Growers' Association. The report outlines what has been done along these various lines.

From the standpoint of the farmer the most valuable and interesting part of the report is the large section devoted to the evolution of the legislation respecting the inspection and sale of seeds in Canada up to the Seed Control Act of 1911 and the work connected with its enforcement. The regulations at present in force are clearly outlined and the standards of quality in respect to weed seed content for the four grades of timothy, red clover, alsiko and alfalfa seed are graphically illustrated. The weeds classed as noxious under the Act, numbering about 25, are illustrated and described as well as about 75 other weeds of minor importance. The illustrations of the plants and seeds and the descriptive seeds are largely taken from "Farm Weeds," the book with full page colored illustrations published by the Department and now sold at \$1 per copy. This report may be had on application to the Seed Commissioner, Department of Agriculture, Ottawa.

**Shiloh's Cure**  
quickly stops coughs, cures colds, heals the throat and lungs. 25 cents.

A Maryland woman has a goose that was given her when she was twenty-one years old. Lots of women still have the goose they got on their wedding day.

Although Friday is held to be a bad day for beginning journeys, nevertheless a great many long ones are begun on that day, especially in states where they hang.

IT REACHES THE SPOT—There are few remedies before the public to-day as efficacious in removing pain and in allaying and preventing pulmonary disorders as Dr. Thomas' Eclectic Oil. It has demonstrated its powers in thousands of instances and a large number of testimonials as to its great value as a medicine could be got were there occasion for it. It is for sale everywhere.

Owen Sound hotel proprietors have decided to increase rates owing to the strict enforcement of the local option law.

A physician says that low neck gowns toughen the neck. Why say that when, as everybody knows, the toughest necks were never graced by such a gown?

A light-house-keeper in the Gulf of St. Lawrence claims to have twice seen a hundred-foot sea serpent.

**FOR CONSTIPATION**  
A Medicine that Does Not Cost Anything Unless It Cures.

The active medicinal ingredients of Rexall Orderlies, which is odorless, tasteless and colorless, is an entirely new discovery. Combined with other extremely valuable ingredients, it forms a perfect bowel regulator, intestinal invigorator and strengthener. Rexall Orderlies are eaten like candy and are notable for their agreeableness to the palate and gentleness of action. They do not cause griping or any disagreeable effect or inconvenience.

Unlike other preparations for a like purpose, they do not create a habit, but instead they overcome the cause of habit acquired through the use of ordinary laxatives, cathartics and harsh physic, and permanently remove the cause of constipation or irregular bowel action.

We will refund your money without argument if they do not do as we say they will! Two sizes, 25c. and 10c. Sold only at our store—The Rexall Store.
