THOUGHTS OF VACATION

About this time of the year an occasional thought about vacations comes into one's mind. But most people could hardly shrug their shoulders and dismiss the thought from their mind as being too premature. However, they are mistaken. Thoughts of a vacation are never premature.

At least fifty per cent. of the pleasure of a vacation comes in anticipation and the more we anticipate the greater the pleasure. Therefore, think about your vacation all you wish. Plan it all out. Live through all the glorious days of leisure. And when the time comes you won't have to waste time making plans. You'll have them all by heart.
