

A COMBINE OF QUALITY

No. 1 Smith Mixer and 6 H.P. Fairbanks-Morse Gasoline Engine

SMITH CONCRETE MIXERS —AND— Fairbanks-Morse Gasoline Engines

Each Supreme in its class.—Combined they lead the world. **40** per cent reduction in Operating Expenses, and better on some contracts, is being realized every day. The gasoline engine is ready to start at a moment's notice, and consumes its fuel automatically and in exact accordance with the power required. The internal combustion engine is daily superseding the steam engine and boiler for all classes of work, where Portability, Cost of Operation and Maintenance are live factors.
