I make a pecialty of turnishing eggs in large quartities for incubitors at reduced rates. Send for 1890 ctlogue.

E. H. MOORE, Melrose, Mass.

#### CLAMPS FOR SPRING PACKING.

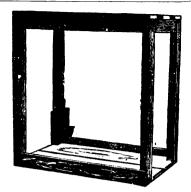

All practical Beekeepers concur in the opinion that bees wintered in the cellar, should be packed on their own stands in spring, to keep them in the best condition. We are making a light c'amp sp cially designed for this purpose.

This c'amp consists of a bottom board of 3 in. number to cross pieces 7/8 x 3 in. to set hive on to allow of packing under; the four wal! and a bevelled rim to cover the packing above, ranged so as to allow of using the ordinar lid of hive for cover. To be used with 4 inches of sawdus: or chaff, and will be in sizes to suit the Jones Combination or Langstroth hives, at the o'lowing figures :-

Each 10 25 100 | 70 | 67 | 63 | 60 75

They will be shipped in panels, ready to nail together.
