CATARRE.

A New Home Treatment for the Cure of Catarrah, Catarrhal Diseases, and Hay Fever.

The microscope has proved that these diseases are contagious, and that they are due to the presence of living parasites in the lining membranes of the upper air passages and esophagus tubes. The eminent scientists—Tyndall, Huxley and Beale—endorse this, and these authorities cannot be disputed. The regular method of treating these diseases is to apply an irritant remedy weakly and evenly, thus keeping the delicate membrane in a constant state of irritation, as required by violent sneezing, allowing no chance to heal and as a natural consequence of such treatment not one permanent cure has ever been recorded. It is an absolute fact that these diseases cannot be cured by an application made often than once in two weeks, for the membrane must get a chance to heal before any application is repeated. It is now seven years since Mr. Dixon discovered the parasite in catarrh and formulated his new treatment, and since then his remedy has become a household word in every country where the English language is spoken. Cures effected by him seven years ago are cures still, there having been no return of the disease. So high are these remedies valued, and so great is the demand for them, that ignorant imitators have started up here and there, pretending to destroy a parasite—which they know nothing—by remedies the results of the application of which they are equally ignorant. Mr. Dixon's remedy is applied only once in two weeks, and from one to three applications effect a permanent cure in the most aggravated cases. N.B.—For catarrhal troubles peculiar to females this remedy is a specific. Mr. Dixon sends a pamphlet describing his new treatment on the receipt of ten cents in stamps. The address is A. H. Dixon & Son, 303 King Street West, Toronto, Canada.—Scientific American.

Sufferers from catarrhal troubles should carefull, read the above.

WISTAR'S BALM OF WILD CHERRY,

which does not clog up the lungs and leave the cause behind, but soaks it, cleanses the lungs, and relieves irritation, thus removing the cause of the complaint. CONSUMPTION CAN BE CURED by a timely resort to this standard remedy, as is proved by hundreds of testimonials. The genuine is signed "A. D. Davis" on the wrapper.

FRESCO OF PORK.—Take two legs of a young pig, singed and washed; boil in three quarts of water for five hours; add salt and pepper to taste, one teaspoonful of cinnamon and three onions. When done, add four tablespoonsful of flour browned and mixed in a little cold water; then boil five minutes, pour on buttered toast and serve hot.

APPLE PUDDING.—Stir a cup of corn meal into a quart of boiling milk; then stir in a quart of sliced, sweet apples, a cup of molasses and a teaspoonful of salt; mix all together well. When ready to put into the oven, add two quarts of milk, pour into a large, buttered pudding dish, and bake slowly until done; when cold, a clear, amber-coloured jelly will be formed.

ORANGE MARMALADE.—Wash the fruit very clean and weigh it; take half the fruit and grate, the other half peel; put the peelings into boiling water and cook till tender; slice the oranges, take out all the seeds; cut off the white part; put the boiled peeling and oranges into a chopping tray and chop quite fine; make a syrup, a pound of sugar to each pound of fruit; boil it with the white of an egg; mix this out, the orange, grated peel and juice; cook twenty or thirty minutes.
