

and as a Medical man. In the former capacity, however, we must regret to say that his principles have sometimes differed from the majority of his brethren, but as a Medical man, we are confident we express the opinion of all the Profession in saying, that his unremitting efforts have not a little contributed to raise the Profession to its present improved state among us.

Dr. Blanchet also has the credit of being the first Canadian Medical Author. His work on the application of Chemistry to the science of Medicine, was promising a very useful member to his profession ; and we acknowledge with pleasure that an unremitting study of Chemistry since that period, must render his lectures highly scientific and interesting to the hearer, should his age and unwearied occupations permit him to prosecute still further his exertions in cultivating a science in which he has rendered himself so proficient.
