NORWICH, NEW YORK.

We invite your attention to our **Alpha Atomizers**. Note the tube in its different views, A B C D.

This tube is simply an air reservoir into which the bulb empties itself. By gradually collapsing it forces the air forward, the full supply of air not being entirely exhausted before the bulb again fills the tubes.

WE CLAIM that our **ALPHA ATOMIZERS** produce an absolutely continuous spray with less labor to the hand than any other single bulb atomizer upon the market. Examine the cut and you will see how simple yet effective it should be.
